No use to use small Bulbs for Glass Culture. You lose your time and trouble. Get the best colors. Cheap, poor Bulbs for house culture are a delusion and a fraud. Most of the so called bargains in Bulbs are of this kind. They are "culls" small Bulbs of weak vitality, and poor color. Their only merit is cheapness and they are really "dear at a gift". Buy our large named Hyacinths, they are the finest grown in Holland.

### GERMAN EMPEROR.

### Nine Anarchists Arrested at Alexandria.

### POLICE DISCOVERED AND FRUSTRATED THE PLOT

### Elaborate Preparations Made to Kill the Emperor.

[SPECIAL TO THE EXAMINER.]

ALEXANDRIA, Oct 15.—The Alexandria police have arrested nine Italian anarchists since last evening, and have thereby frustrated a plot against Emperor William of Germany, who is now on his way to the Holy Land.

The first to be arrested is a cafe keeper, a well-known anarchist, in whose house the police discovered two wire wound bombs of great strength and full of bullets.

This arrest was made in consequence of notification from the Italian Consul-General at Cairo that two anarchists left Cairo for Port Said.

Police investigation showed that the arrested cafe keeper had bribed the steward of a steamer sailing from Alexandria to Port Said and Syria to take on board a box of bombs.

Apparently the anarchists originally intended to use the bombs at the Palace Abidin at Cairo while the Emperor William and the Khedive were there. When the Kaiser decided not to visit Egypt the anarchists changed their plans and decided to attack him in Palestine.

The liveliest satisfaction is felt over the captures and the German consulate has expressed its warmest thanks.

The Cairo anarchists who left for Port Said have not yet been arrested.

## TEN MEN KILLED.

### Encounter Between Striking Coal Miners and Non Unionists in Illinois.

### A FURIOUS BATTLE OF BULLETS FIRED.

### A Long Pending Strike Which is Aggravated by Political Quarrels.

[SPECIAL TO THE EXAMINER.]

VIRGEN, Ill, Oct 13.—The long expected bloodshed, as a result of the coal miners' strike here, came yesterday, and a dreadful affair it proved to be. The arrival of a number of imported negro miners from the south was followed by a desperate battle. Five hundred shots were exchanged between the strikers on the one side and Sheriff Davenport and his deputies and railroad police on the other side. When the train bearing the negroes arrived it was met by fully 1,500 armed miners who were lined up on each side of the track. The train was stopped immediately in front of the east gates of the stockade around the Chicago-Virgen Coal Company's mines, and the trouble began. Dozens of shots were fired from the stockades at the white men, while the strikers were half a mile away.

When word came that the special train with the negroes was coming, a dense crowd of miners lined the station platform, while another crowd collected at the entrance a half mile north of the station. D B Kiley, a Chicago & Alton detective, stood guard at a switch at the south end of the station platform to see that it was not tampered with. As the train arrived the signal shots were fired to announce its arrival. Immediately shots were fired from the moving train and outside, and.

### THE BATTLE BEGAN.

A few moments after the train had passed the switch where Kiley was stationed, and while he was talking with two citizens, he threw up his hands and dropped dead with a bullet through his brain. He was the first man killed. The train continued to the stockade, the miners firing into it all along the route and the negro passengers returning the fire. The moment the train reached the stockade, the miners opened a desperate fire with Winchesters, revolvers and firearms of all kinds. The negroes on the train answered with a steady fire. The miners and the train were enveloped in a cloud of smoke and the shooting sounded like a continuous volley.

Engineer Burtigar received a bullet in the arm and dropped from his seat. His fireman seized the throttle, pulled it open with a jerk and the train was under speed carrying a load of wounded negro passengers to Springfield. How many were wounded is not known. The train stopped at the stockade but two minutes. Its departure did not cause the firing to cease. The tower of the stockade was filled with sharpshooters armed with Winchesters and they kept up steady fire into the crowd of union miners. Eye witnesses say the dead miners were killed after the train had departed.

### New King of Samoa.

AUCKLAND, N. Z., October 14.—Advices received here from Samoa says the German warship Bussard has brought Chief Matafa and other exiles to Apia. Matafa, it is added, promised to be loyal to the government and to observe the Berlin conference. The death of Malietoa, King of Samoa, who was restored to the throne of those islands in 1889, was recently announced and it is to be presumed that the return of Chief Matafa to Apia after having been on the island since 1893 is due to the fact that the representatives of the United States, Great Britain and Germany, who with the chief justice of Samoa, and the president of the municipal council of Apia formed a board of control which has been governing the island since the death of Malietoa, have agreed that Matafa is to be permitted to succeed the late king.

### Emperor and King.

VENICE, Oct 13.—The King and Queen of Italy met the Emperor and Empress of Germany at the railroad station. The meeting between the royal and imperial couples was of the most cordial nature. Emperor William kissed the hand of the Queen of Italy, and King Humbert kissed the hand of the Empress of Germany. The Queen and Empress embraced each other. While the meeting was in progress military bands played the national anthem.

## ANOTHER SAD OCEAN TRAGEDY.

### Steamer Lost off the Lizards.

### RAN ASHORE IN A FEARFUL GALE.

### Only Thirty-One Saved Out of Two Hundred.

[SPECIAL TO THE EXAMINER.]

LONDON, Oct 15.—The Atlantic Transportation Company steamer Mohegan, which left London for New York on Thursday with fifty passengers and a crew of 150 is ashore off the Lizard, between the Manacles and the Lowlands.

According to a despatch received from Falmouth out of 200 persons constituting the passengers and crew of the Mohegan only 31 have been saved.

The bodies are washing ashore one being of a lady lashed to a plank having both eyes severed.

Particulars as to the disaster are difficult to obtain.

It appears that when the Mohegan struck, a gale was blowing and the sea was running high.

### The Grand Trunk.

LONDON Oct. 14.—At a meeting yesterday of the shareholders of the Grand Trunk railroad of Canada, the president, Sir Charles Rivers-Wilson, read the report and gave an account of his visit to Canada. He said he had found it impossible to come to an arrangement with the Canadian Pacific railroad, pending a settlement of the rate war between the C. P. R. and the American lines, and he had offered to report this to arbitration. Continuing he said the matter rested there. On the other hand he was glad to say that all the Grand Trunk's interests in connection with the Central Vermont railroad had been arranged by satisfactory agreement, the details of which could not yet be published pending the completion of legal formalities. The outlook, the president said in conclusion, was good and improving.

### Rising in Jamaica.

KINGSTON, Jamaica, Oct 14.—Several more families from Anette Bay and the adjacent districts of St. Mary and Portland, have arrived at Kingston and Port Antonio owing to the growing apprehension of serious negro disturbances. The government have despatched 400 white troops, with Maxim guns, to the disturbed district. The colonial secretary, in an interview expressed the opinion that no trouble need be expected from the maroons.

### New Brunswick Politics.

ST STEPHEN, Oct 14.—Last evening, Hon Mr Foster and other visiting members of parliament addressed a political meeting in this town. In the afternoon a very strong county convention for organization was held. Among the resolutions adopted was one endorsing the course of the Moncton provincial convention, withdrawing conservative support from the local coalition government. This action is significant because the late Premier Mitchell, who represented Charlotte, was himself a conservative, and had the support of his party, while he lived.

—Referring to the change in the Yukon staff, the Toronto World asks, "Who is going to replace Mr. Clifford Sifton?" When Mr. Sifton is willing to go, and even before, there will be scores of Liberal politicians ready to fill his place; and in spite of the Toronto Globe's elaborate attempts to bolster up Mr. Sifton's reputation, there are, remarks the Montreal Gazette, many of the numerous aspirants who could not make a worse bungle of the Yukon administration.
