Sanitorium Staff, Patients Honor Doctor On Departure

Members of the staff, and ambulant patients of the Provincial Sanatorium met on Friday to honor, on their departure from this province, Dr. G. L. de Kenedy, who has accepted an internship in surgery at the Queen Mary Veterans' Hospital, Montreal, and Mrs. de Kenedy.

Dr. de Kenedy has been a valued member of the medical staff of the Sanatorium since October of 1957. In his remarks, Dr. Eric Found, medical superintendent, paid high tribute to Dr. de Kenedy, referring not only to his fine work while on the hospital staff, but also to his success in having adapted to a new way of life after having left his native Hungary during the revolt in that country. Mrs. de Kenedy, during her short residence in Canada, has successfully written her registered nurse's examinations.

After brief remarks by the Hon. A.A. MacIsaac, a patient in the hospital, on behalf of the patients, and an address by Dr. Found, on the behalf of the staff presentations were made to Dr. and Mrs. de Kenedy.

Dr. Found pointed out in his address that during the last ten years "we have seen come and go seven resident physicians at the Sanatorium. We, the staff, and a few of you patients have been associated with an Irishman, a Scotsman, two Polish, two Chinese, a Bulgarian and a Hungarian, — all good doctors in their own right and all have left us the better for having known them."

Accidental Death Is Jury's Verdict

A verdict of accidental death as a result of drowning was returned last night by a coroner's jury at an inquest inquiring into the death of 42-year-old William Moore of Wood Islands.

The inquest, held at City Hall, was presided over by Coroner Dr. L.E. Prowse. He was assisted by Crown prosecutor J. P. Nicholson.

Mr. Moore came to his death last March 18th, when a truck in which he was a passenger plunged through the ice of Charlottetown Harbor into 30 to 40 feet of water.

The deceased's body was discovered on June 18th by workmen on the Railway Wharf. It was floating in the shallow water near the shore on the east side of the wharf.

The jury also recommended that all sewer outlets be plainly marked in winter months to prevent further accidents.

A total of nine witnesses were heard including Dr. John C. Craig, provincial pathologist, who stated that the cause of death was drowning; Frank Hansen, manager of A. Pickard and Company, with whom the deceased was employed; William Taylor, local photographer, who identified a number of photographs he had taken of the accident scene and where the body was found; Dirk Bakker, Charlottetown driver of the truck when the accident occurred and James Kenslow, Charlottetown laborer who saw the truck on the ice prior to the accident.

Other witnesses were Frederick Somers, in charge of buoy maintenance at Marine Wharf, who witnessed the vehicle going through the ice; City Police Constable Warren MacKenzie, who investigated the accident; Thomas Bolger, Charlottetown electrician, who discovered the body at the Railway Wharf and Gordon Ferguson, local carpenter, who was also near the scene when the body was discovered.

Constable MacKenzie noted in his evidence that a sewer outlet was in the area where the truck went through the ice. He said the ice was approximately three and one-half inches thick at that point.

Members of the coroner's jury were Michael Conolly, foreman; Roy Hood, Abraham Doyle, George MacDonald, Earl Rafuse, Douglas Williams and Louis MacLeod, all of Charlottetown.

Work On Runway Well Underway

Sub-grading work on the new 7000-foot runway being built at Charlottetown's Airport is expected to be completed in about one month, Joseph Stannix, department of transport engineer in charge of the project said yesterday.

When surfaced and open for traffic, the 200-foot wide asphalt strip will be able to accommodate all except the largest transocean planes now in service.

Initial operations on the big federal government project which was commenced in August last year resumed on May 18.

When completed, the sub-graded area will be topped with a fifteen-inch layer of granular fill made up of Island limestone, and a nine-inch layer of gravel.

Two 300-foot aprons of concrete will complete the final three and one half inch layer of asphalt. Slopes on either side of the runway will be graded out to a distance of 300 feet.

Total cost of the entire project is expected to be in the vicinity of $1,000,000. October 30 this year has been set at as a tentative completion date by the general contractors, Morrison and MacRae of Summerside.
