Religion teaching by example, by Richard W. D. D., 7s. 6d.
The Rights of God's blessing of perfect love, as experienced in the life of the Christian, by extensive witness, 5s.

News by the English Mail!

The *Arabia* arrived at Halifax at 10 a. m. on Thursday.
BRITAIN.—Parliament is further prorogued till 13th November.
The English Telegraph Company gave a banquet to Professor Morse in London on the 9th. Many guests connected with science and chemistry were present. Professor Morse has succeeded in telegraphing a distance of two thousand miles at the rate of 210 signals per minute, thus illustrating the practicality of an Atlantic communication.
The Congress for the settlement of the points of disagreement between Russia and the Allies will forthwith assemble in Paris at the Hotel of Foreign Affairs, and it is contemplated that the whole will be arranged in one or two sittings.
Telegraphic accounts say that the Austrians, four thousand strong, have occupied Galatz and other points on the Danube, and that if this be true, and Turkey has assented to the occupation, the Danubian Commission will return home. It is however expected that Austria will be called on to evacuate the principalities at once by the Congress at Paris, and that she can adopt no other course than obey.
Cotton, Corn and general produce markets are steady with a fair amount of business. Money although dear is not scarce.
FRANCE.—The final quotations of the French Treas on the Bourse on Friday evening were 6880 for money, and 6710 for the next month, showing a recovery of one quarter per cent.
M. Magne, minister of finances, has published a lengthy report in the *Moniteur* on the finances of the present year and views them favourably. The Bank of France monthly returns show equal to two and a half million pounds sterling decrease of bullion; but the deficiency has not caused so much depression as was anticipated.
RAILWAY ACCIDENTS.—Canada papers contain an account of a "Terrific Collision" of the Great Western Railway, near the town of Reading. Three cars were burned, five smashed to atoms, and a great number of cattle killed or maimed in a frightful manner. Fortunately no human lives were lost, and little personal damage was done. The passenger's baggage, mails, and Express Company's baggage were destroyed by fire.
On the Grand Trunk Railway three men were killed on the 18th. They were in a cab carrying home from work and were heading. They were run into by a train—two killed on the spot, and the third so seriously wounded that he died shortly after.
The large *don* Rankin, at this port, of London, brought fifty barrels of gunpowder for the Garrison here, which were landed and conveyed to the Magazine at Fort Howe. We learn that she also brought a quantity of arms, of the most improved description.—*New-Brunswick.*
ITALY.—The direct news from Naples to the 20th ult., intimates that the King is still determined to resist all demands and propositions; the opinion is now general that the Neapolitan question will be settled without hostile demonstrations, notwithstanding that rumors of the contrary continue to be prevailingly circulated. Some of the German papers report that Ferdinand

has been induced to make certain concessions, and that Gen. Damartini, the Austrian Ambassador at Naples will, it is hoped, complete what Baron Hubner has commenced. Martina is hearer to Ferdinand of an autograph letter from Francis Joseph, (Emperor of Austria) in which he is employed in the name of the relationship between the two courts not to draw down misfortunes not only on Naples, but on the whole of Italy. Meantime Ferdinand is said to send a very volunuous despatch to the European powers containing a defence of himself and his government. Some English ships of war with Admiral Dundas on board were at Ajaccio, and more were expected. The French fleet continues at Toulon. A strong Russian fleet, commanded by the Grand Duke Constantine, is to go into the Mediterranean merely as a guard of honour to the Empress Mother during her tour in Italy. A Spanish fleet is on hand to act merely as a police of the Spanish islands, and an Austrian squadron is to cruise in the Adriatic solely for exercise.

SWITZERLAND.—M. de Solignac Fenelon, French Ambassador to the Swiss confederation paid an official visit to the 21st inst., to M. Stampfli, President of the Swiss Confederation, for the purpose of asking from him in the name of the French Government an amnesty for the Royalists of Neuchâtel; it is believed that the Federal Government would assent to his request only on condition that the king of Prussia shall renounce his claims on the principality.

DENMARK.—The *Pætersland* newspaper (not a good authority) announces that the question of the Sound Dues is settled. England and Denmark have come to an arrangement; the land transit is to be reduced.

TURKEY.—Uneasiness is felt for the tranquillity of Syria. There is nothing important from Turkey proper, except a rumour that the majority of the commission—being the Danubian Principalities, have refused to discuss the proposed question until the Austrian troops evacuated and until the Sultan decreed the meeting of the Divan on such terms as embodied in the protocols of the treaty of Paris.

INDIA AND CHINA.—The mail at Trieste has dates from Calcutta to the 8th of September, Melbourne 12th July, and Ceylon 16th September.—Preparations for Persian expeditions were vigorously carried on in all departments in India. Two steamers have been despatched in haste from Calcutta to the Persian Gulf. The Indian Government has issued a new four-and-a-half per cent. loan for an unlimited amount which had disturbed the market. Bombay exchanges were 2½ to 3. At Melbourne, wet weather caused a temporary depression in trade, and there was a decrease in gold production, but there were signs of a revival apud commerce was sound.

Extensive alterations are in progress at Calabar and are being out an order by the War Secretary, that the whole of the retired non-commissioned officers and private soldiers belonging to regiments and depots at the provincial battalions shall be supplied with arms, and that there will be unmarried soldiers.
