### Pearson's Appeal Theme At Meeting of Young Liberals

That the appeal which Hon. Lester B. Pearson has for youth becoming known more as the "peace" country, was the theme of a very largely attended meeting of young Liberals from Charlottetown and district held Saturday night in the Community Centre. The affair took the form of a dinner meeting and more than 200 young Liberals were served by the Catholic Women's League who were excellent caterers. Earle MacLeod presided. Both of the candidates for Queens, Ernest D. Reid and

### THOUGHTS FOR OUR TIME

BY HIS EMINENCE CARDINAL MCGUIGAN

SEEK GOD, NOT JUST HIS GIFTS  
For the next few weeks, the various purveyors of pleasure and entertainment will no doubt be noticing a slackening in their trade. The owners of movie-houses are seeing more empty seats than usual. The sales of beverages are going down. The clerk in the grocery store is sending out smaller orders. The candy merchant notices that some of his friends on the tricycle set are no longer dropping in for their regular supplies of pop, candy and gum.

lowers, how to suffer. But immediately we are confronted with another question: Why did Christ not take suffering out of the lives of His followers? Why is suffering necessarily a part of the vocation of a Christian? Why are we willing we accept privation of this world's pleasures, and sometimes deliberately to deprive ourselves of them?

Briefly, the answer is this: So that we will be sure to seek the God of good things, and not merely the good things of God. We are surely all aware of the fact that we are prone to become so engrossed in our possessions and our pleasures that we entirely forget Him who provides them for us, and who is alone capable of completely satisfying us.

Love of God is "the one thing necessary" to every child of God, and fittingly, enough, it is the one thing possible for all. All other qualities of soul or body, and all other possessions, which a given person may or may not have, are useless unless they are accompanied by Christian charity. And charity, which is impossible to no one, will be lacking, whatever else may be present.

Our complete dedication to God is the one thing of which we have to check ourselves to see if, for love of Him, we can do without some of His gifts. If we find the effort very difficult, then to that extent we can conclude that we are finding it difficult to choose between love of God and love of idols—for anything that is a rival to God in our affections is an idol.

### MacRae Ayrshire Herd Has Scored Another Triumph

The Ayrshire herd of A. MacRae and Son have scored another triumph. Over the weekend they learned that their young bull, Woodland's Royal Burton 2nd, has been chosen as All Canadian bull calf in the nation wide competition. The youngster was bought last fall at the Royal Winter Fair where he was junior male champion. He was selected and purchased by Arthur MacRae who was exhibiting the MacRae herd at the Royal.

The dam, Woodland's Dainty, was imported in dam from Scotland. The dam, the young bull's granddam, Howe's Dainty, was donated by her owner James Howe, Muirsidem, Ayr, Scotland to the Winnipeg relief fund at the time the Manitoba capital was struck by a disastrous flood some years ago. She was purchased for \$1100 by Richard Bros. Red Deer Alberta. Howe's Dainty had 6 ROP records in the 305-day division totalling more than 77,000 lbs of milk. The dam, Kirkcudbright Dainty, the great-granddam of the MacRae bull, had twelve records in the 305-day division averaging more than 12,000 lbs of milk before she had to be destroyed when a Foot and Mouth disease plague hit the countryside some years ago. Thus the young sire in the MacRae stables has class as a show ring winner, as a winner in All Canadian competitions and has excellent bloodlines so far as milk production is concerned.

### Island-bred Sows Continue To Qualify At High Level

Island bred sows continue to qualify with high scores in advanced registry, according to H. W. Clay, senior livestock field man here with the Federal Department of Agriculture. The name of the animal, the owner and the cores are given in each case in that order. The first figure indicates the number of pigs saved in the test litter, the second figure the age in days when the pigs were slaughtered and the average slaughter test score of the four test pigs in the litter. A score of ninety is excellent and is fairly unusual outside of this province. Yet there are three animals out of the nine listed here that have ninety or

more. The animals, their owners and their scores follow:

### N.Y. Stock Market Shows Slight Upward Trend

NEW YORK (AP) — The stock market bid goodbye to February last week by dawdling along in a pretty aimless fashion. There was little to get excited about, but the overall showing was an improvement over the two previous weeks. The market advanced two of the five sessions something which has not happened since the first week of February. The Associated Press average of 60 stocks dipped 10 cents during the week to \$159.20. During February, the average declined \$3.30, after moving up \$7.80 in January. LIGHT TRADING  
Turnover for the week was 8,622,580 shares, for a daily average of 1,724,516. It was the lightest trading since the week ended Oct. 5, 1957. There were numerous reductions in dividends, cutbacks in the auto industry; and other indications of retrenchment. The market slipped Monday and Tuesday on slack volume. It rose substantially Wednesday in what analysts called a technical rally. A flock of bad dividend reports and a few lower earnings nudged the market lower Thursday. But it came back in sluggish trading Friday when selected tobaccos and aircrafts were in demand. change, Nickel Rim was the most active Canadian stock, off 5-16 at 5 3/8 on 223,600 shares.

have ranged up to \$40,000,000. The spokesman also confirmed that company officials have been negotiating with municipal authorities regarding land and other matters subject to municipal jurisdiction. Pending completion of negotiations, he declined to comment on either the location or starting date for construction. The company has made no previous statement, he said, and any announcement now of details would be premature as the plans could be changed. A bill has been prepared for submission to the current session of the New Brunswick Legislature to ratify agreements with municipal authorities.

### Steel Output In U. S. Edges Up

CLEVELAND (AP)—Steel production inched up a point last week to 53.5 per cent of capacity, Steel magazine says, but adds that operations will continue at low level through March. Because of the low rate of production in January and February, steel producers have trimmed 16,000,000 tons off the estimates what the total 1958 output would be, Steel reports. They now predict about 95,000,000 tons, compared with about 113,000,000 in 1957. Production has been averaging about 1,000,000 tons a week under what it was a year ago. Last week's 1,444,000 net tons of steel for ingots and castings compared with 2,456,000 tons from furnaces in the last week of February, 1957. Second quarter business in the steel industry will show some improvement, the metalworking journal predicts, and will be somewhat better than the vacation-slowed third quarter. "Fourth quarter production is expected to be easily the year's best," the magazine says.

### MUSIC FESTIVAL 'Be Prepared' Is Good Motto For Contestants

"Anything worth doing is worth doing well." That could be the motto for the contestants in the forthcoming Music Festival, says Mrs. Constance C. Ward, convener of scholarships. Now is the time to put extra work and effort into your practicing, so that it will not be necessary to practise frantically at the last moment. The final weeks before a Festival should be left free to put the finishing touches to your entry. The nervousness experienced by contestants is caused very often by not being sufficiently prepared. Have the satisfaction whether you win a scholarship or not, of knowing you have done your best. This year the junior group of scholarships will be duplicated for Charlottetown, Summerside and Montserrat, thus giving the young contestant in each county a fair competition. The interest and endeavour of

young groups of singers should be stimulated by the awards offered for classes 44 to 47 inclusive, and boys and girls in Grades 1, 2 and 3 of the urban schools will be pleased to know their classes will be competing again this year and they will receive awards the same as all other school classes. Formerly only an extra point was added to a schools total marks for each entry but this the point will be added to the year average. SUMMER SCHOOL  
The Scholarship Committee wish to direct the attention of music teachers in the rural schools of the three counties to the scholarship offered for attendance at a summer school. This is the time to make your application in the hands of the Committee before the last of May. For further information regarding this Scholarship see the syllabus.

Mrs. Rodd also presented golden bars to Margaret Argent, Janice Henry and Gretchen Walters. Mrs. A.G. MacMillan, Deputy Commissioner, presented the Brownies with their B.P. Stars, and congratulated the Pack for their fine accomplishments, which of course as we all know, could not be done, without the splendid leadership of Mrs. Reid, Brown Owl, and Mr. Walters, Tawney. A beautiful cake, all decorated in Guide colours, with blue and gold candles was displayed for all to see and four Brownies, dressed in costumes of other lands, lighted candles, and placed beside the cake. After this interesting entertainment, the beautiful cake was cut, and everybody present, had piece to eat along with a cup of tea, of course the Brownies had milk to drink. The whole afternoon's program was truly an inspiration, and I am sure that everybody present, must have felt just what the true spirit of Guiding really means. ZION BROWNIES PACK  
The Brownies of the Zion Brownie Pack entertained their parents and friends at their last meeting to a Thinking Day program. First they presented a pageant around a birthday cake, in honour of the late founder of Scouts and Guides, Lord Baden-Powell and Lady Baden-Powell.
