

acted liberally towards the teachers and others interested in Education, and it is but right and just that the teachers as a body should now act liberally towards the Government and themselves, by uniting together for self-improvement and support, to devise the best means in their power to raise the status of the teacher's profession, and to render themselves as useful in their calling as possible.

When the postponed meeting will again be called we would advise all the teachers of the County to give their cheerful and united response by attending. Whatever improvement and advantages may lie open to them, they may rest assured that it is by their united and unanimous efforts that these can be most easily secured.

In calling the meeting a second time, we would advise those parties taking the lead in the matter to subscribe their names to the advertisement, in order to prevent ambiguity or distrust. We will not follow the subject further at present, but promise to revert to it ere long.

"How cold the weather is," has been the word from almost every person we have met with during the past few days. Jack Frost has paid us an early visit this Fall. Since Saturday night last we have had frost night and day, and of such severity as to form ice in our harbor. It is something that has not been known for many years past to have such a continuation of hard weather at this early season of the year. It has put shippers and ship-owners on the quick step. A large number of vessels are loaded with grain, most of them for the Old Country, and are waiting a favorable wind to get out. A quantity of snow has also fallen, and it is quite a contrast to see sleighs and carts passing and re-passing each other on every street. The roads in some places are very good for a light sleigh. We, like everybody else, hope to see a change ere long, and have yet a spell of mild, hard weather, so that all the vessels in port, outward bound, may get off, and also that the "Princess" may yet a little longer disturb our peaceful slumbers.

The English Mail was received here on Wednesday morning last. The dates are Liverpool 9th and Queenstown 10th inst. The most important part of the news has been already published in our Telegrams. We give in another column an interesting summary.

The steamer "Princess of Wales" took the bark "Princess" in tow in Charlottetown for the purpose of bringing her into this port, but had to cast her off near St. Peter's Island in consequence of the heavy blow. She has not yet reached here.

The Halifax *Register* says it seems probable that the Hon. Mr. Tilley will be Minister of Finance in place of Mr. Galt. This, with other changes, will have the effect of making some of the ablest men in the Dominion Parliament independent supporters of the Government.

A good deal of dissatisfaction was manifested among the shippers on the wharf yesterday, when the steamer went away, leaving oysters and other perishable freight behind. One gentleman declared he would place a small steamer on the route next summer himself. I believe that there are enterprising men enough among us to do so, and men of means, too, if they would only go into it.—Com.

We have received the first number of the *Union Advocate*, a newspaper published in Newcastle, N. B. The mechanical execution of this paper reflects credit upon its publishers; and its editorial matter and selections show that its editors possess active and well cultivated minds as well as skillful hands.

The Ladies' Benevolent Society in connection with the Episcopal Church, beg leave to acknowledge the receipt of \$25. from the Very Rev. James McDonald, of Indian River.

We learn that a larger quantity of oats was sold in Alberton this Fall than at any previous time. They brought as high as 24. 65 per bushel. Wheat is now selling up West for 10s. per bushel.

His Excellency the Lieut. Governor has been pleased to proclaim that Thursday the 6th day of December, be observed as a day of General Thanksgiving to Almighty God.

Last night it snowed heavy all night, and is still snowing as we write, this morning. There is nearly a foot of snow on the ground.

The steamer "Princess of Wales" has not yet arrived here on her return trip from Shelburne. In consequence of this we are unable to furnish the latest telegrams.

Godey's Lady's Book.
The December number of this very interesting book has just come to hand. The illustrations presented are "The Broken Window," a beautiful steel plate. A table plate, handsomely engraved on steel. A colored Fashion plate, with its usual correct fashions in dress. Berlin Wool, a rich colored embellishment in eight colors. A tinted picture, the Christmas Party, showing the contrast between poverty and affluence. A wood cut for the juveniles—"Bob Cherry." The latest fashions and valuable receipts are to be found in it. Stories of interest, by popular writers, will be found in the literary department. The publishers of this valuable Magazine promise to commence with the January number to give large folding sheets of fashions and other cuts. The January number of 1868 will contain the first part of a new novelle, by Marion Harland, entitled "Phemie Rouland." Now is the time to subscribe and get up clubs. The best is always the cheapest, and Godey's Magazine is it. \$3 per year.
