

DON'T BE BILIOUS.

Use Dodd's Dyspepsia Tablets and Enjoy Life as You Should.

Dodd's Dyspepsia Tablets Regulate, Tone and Strengthen the Liver, Cure Constipation and Drive Away Biliousness from the System.

Biliousness turns pleasure into pain, gladness into misery, and leisure hours into eternity of agony, for thousands of men and women.

Biliousness is especially prevalent at this season of the year.

The extreme heat causes derangement of the liver, as well as of other organs.

Something that will restore natural conditions, that will tone the liver, and regulate its action, so as to insure the secretion of exactly the quantity of bile required, is what all bilious persons need.

And such they have in Dodd's Dyspepsia Tablets, which promptly and thoroughly cure Biliousness.

The small, brown Tablets, which go with every box of Dodd's Dyspepsia Tablets, are intended especially for the cure of Biliousness.

They contain ingredients that check the flow of bile when it is too free, and thus prevent or cure Biliousness, which means simply—Bile in the blood.

The liver having been regulated in this way, the blood is no longer laden with the surplus bile, becomes pure and rich. The peculiar yellowish tint in the skin that marks bilious persons, disappears, the eyeballs regain their natural color, and the health is improved in every way.

The bowels, which generally suffer some derangement, when Biliousness appears, are also brought back to their natural healthy condition, and promptly carry off, and expel all poisonous waste matter.

Thus Dodd's Dyspepsia Tablets are the only hope for the bilious, and they never fail to cure. Try them, and be convinced. TAKE DODD'S DYSPESIA TABLETS FOR DESSERT.

Pressure of the Sea. There are spots in the ocean where the water is five miles deep. If it is true that the pressure of the water on any body in the water is one pound to the square inch for every two feet of the depth, anything at the bottom of one of the "five mile holes" would have a pressure about it of 18,200 feet to every square inch. There is nothing of human manufacture that would resist such a pressure. That it exists there is no doubt. It is known that the pressure on a well corked glass bottle at the depth of 300 feet is so great that the water will force its way through the pores of the glass. It is also said that pieces of wood have been weighted and sunk in the sea to such a depth that the tissues have become so condensed that the wood has lost its buoyancy and would never float again. It could not be even made to burn when dry.—Chicago Chronicle.

An Arizona Hair Cut. "Doesn't it disturb you when they have a shooting scrape next door?" asked the tenderfoot who was undergoing an Arizona hair cut. "Disturb nothin!" answered the barber. "It generally makes it easier." At this juncture the shooting began at Red Mike's saloon next door. The tenderfoot's hair rose on end, and the barber trimmed it as expeditiously as if he were shearing a hedgehog.—Chicago Tribune.

He Has Been There. Little Elsie—Here in this book it tells about the tree of knowledge. I wonder what kind of a tree that can be? Little Horace—I guess it must be a cherry tree. Whenever you climb up into one of them, you always know better than to do it again if you get caught.—Cleveland Leader.

Diplomatic. Dutiful Son—Yes, mother. I know Miss Golightly is both extravagant and lazy, but I'm engaged to her. Mother—Well, tomorrow's her birthday. Give her a silver thimble, and she'll break the engagement.—Jewelers' Weekly.

The spiders that spin webs are in an infinite minority compared with those which do not. Ground spiders, as the spinners are called, abound everywhere and depend on agility and swiftness of foot to catch their prey.
