Among The Farmers
Federation Of Agriculture News**

Potato Agreement
Now that the potato agreement has been signed by the appropriate Federal authorities and five new members added to the Potato Board, planning will no doubt go on rapidly to iron out the details of operation.
The person who negotiated the agreement with Ottawa did so with the interest of the growers in mind but also assumed the responsibility of insuring that the agreement is administered in a spirit of fair play so far as the government is concerned.
The government in signing the agreement recognized the fact that potatoes could at certain periods sell below the guaranteed initial payment, but has every right to expect that the Board will provide for the marketing of the crop in a manner that will keep losses to a minimum. The agreement should not be looked upon as an umbrella by the Government when the weather is bad, with the growers free to get from under it when conditions improve.
The year 1953 will not be the last one when Island potato growers will require assistance and for this reason it is important that necessary that all concerned play the game fairly in the common interest in order that the Federal government will have reason to hold a high opinion of P. E. Island producers.

Initial Payment
Most potato growers are by now aware that initial payment is guaranteed to growers of 45 cents per bushel for the fall months, 50 cents for January, February and March, and 55 cents for April, May and June.
This payment does not necessarily represent the price, or Government idea of the value of the product, but rather represents the amount of risk which the government is prepared to take in the potato crop. Potato growing is of a highly speculative nature and most growers recognize the risk involved and fair-minded ones will be prepared to admit that their risk is substantially reduced by the terms of the agreement.

Liability Insurance
The annual meeting of the Federation held last January, considered a resolution dealing with the problem of responsibility on the part of those involved in automobile accidents, the question was referred to the Board of Directors for further study, and already much information has been gathered on policies in effect in other Provinces.
By the time the county annual meetings are held, the directors will be well enough informed to discuss the various factors involved and thus provide members an opportunity for discussion.

Power Troubles
We can sympathize with the City Council in its concern over power failures, but not with the viewpoint that the City is being neglected in favour of rural areas.
Power stoppages are annoying either in urban or rural areas, but in the latter the most common complaint is the one that service has never started. We see little grounds to justify the opinion that the city is being discriminated against to the advantage of rural areas.

Farmers Meetings
Evidently a great many farmers look upon time spent at meetings as being wasted and are skeptical that such meetings can or do produce results.
As an example of the chain reaction which can be started by a small group we are thinking of a Farm Forum Meeting in Nova Scotia, that was puzzled by the fact that tractors equipped with tires came into Canada duty and sales tax free but that when the tires entered by themselves the duty was 20 per cent plus 10 per cent sales tax. The question came up through various farm organizations and eventually was brought by the CFA to the attention of the proper authorities with the result that the duty and sales tax were removed. But for the fact that a few farmers at-

MESSRS ERNEST DUNNING, Andrew Johnstone, will sing in North Granville Church, Sunday, September 20th, 7:30 P. M.
tended a meeting in Annapolis County all farmers might still be paying the additional cost on tires.
Implement Employment
Possibly no urban industry is more susceptible to changes in farm purchasing power than is the farm implement business. Since the first of the year there has been a steady decline in employment by implement manufacturers amounting to 20 per cent.
While the situation reflects a decline in farm purchasing power it is also the result of decreased exports.
If the farmer is plentifully supplied with dollars many urban industries can continue to face the future with confidence.
New Brunswick Pool
The potato growers of New Brunswick have finally decided that P. E. I. is on the right track and are now preparing to enter into negotiations with Ottawa. New Brunswick has much to profit from such an agreement and much to lose in its absence, with an umbrella now being held over the Island grower.
Dairy Booth
Maritime Federation of Agriculture are planning for the Maritime Winter Fair a dairy booth to advertise and promote the industry and in addition provide visitors to the Fair, the opportunity of sampling, and purchasing, choice Maritime dairy products.
In order to make such a project a success the assistance of the various dairy associations and Departments of Agriculture will be sought and with such assistance, it is likely that the project can be one of real value to the industry.

NEWLY WEDS HONORED — An enjoyable evening was spent recently at the home of Mr. and Mrs. Hedley MacPherson, Hampshire, when the many friends and neighbours from the surrounding districts assembled at their home to tender newly-weds Mr. and Mrs. Wendell MacPherson a miscellaneous shower. To the strains of the Wedding March played by Mrs. Winslow Watts, the bride and groom were escorted to the seats of honor by Mr. and Mrs. Elmer Larter. The Misses Jean MacLean and Mary Proud brought forward the decorated baskets of gifts. The ribbons were cut by Miss Florence Proud and Marina Ward. The names and verses were read and presented by Mrs. Robert Craswell and Audrey Kitson. The gifts were arranged by Mrs. Errol Stewart. All joined in singing "For They Are Jolly Good Fellows". A bounteous lunch was served by a number of the ladies present. The remainder of the evening was pleasantly spent in social intercourse.

AIR FORCE DAY

SATURDAY, Sept. 19th

A program educational and entertaining has been arranged in which the public can view a cross section of the activities on a RCAF Station. There will be exciting ground displays, spectacular parachute jumping and a thrilling fly past by screaming jets. Attend this "open house", the boys in blue will welcome you!

The public is invited to visit
**RCAF STATION,
SUMMERSIDE**
2 p. m. To 5 p. m.

SEE YOUR AIR FORCE IN ACTION!

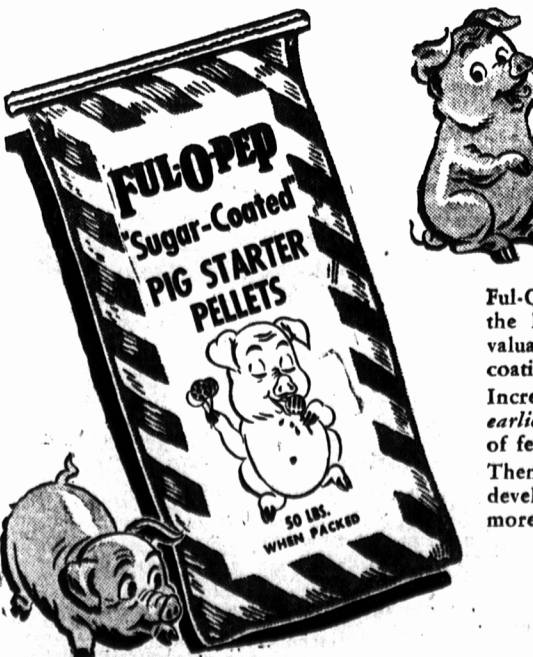

**SENSATIONAL NEW STARTER
INCREASES
WEANING WEIGHTS!**

Introducing
FUL-O-PEP
"Sugar-Coated"
**PIG STARTER
PELLETS**

**NEW "SUGAR-COATED" PELLETS
OFFER BIG BENEFITS**

- ✓ Pigs start eating solid feed much sooner
- ✓ Pigs grow much faster
- ✓ Increases weaning weight approximately 10 lbs.

**NEW FUL-O-PEP
PIG STARTER
PROMOTES
RAPID GROWTH!**

Ful-O-Pep Pig Starter, built on oatmeal and containing the latest scientific balance of ingredients including valuable antibiotics, is now further improved by the coating of sugar.
Increased palatability results in pigs eating more at an earlier age when bigger gains are made on less pounds of feed.
Then, too, pigs build up greater resistance to disease... develop into healthier pigs that weigh up to 10 pounds more at weaning.
