Is it that nagging backache again? Advertisement for DODD'S KIDNEY PILLS.

chevrolet '65

The best buy ever built—even by Chevrolet!

And that's saying something! Styling, for instance. There's literally nothing to touch the '65 Chevrolet. That Sweep-line roof and jet-age rear deck — don't they say, right off, here's something very, very new? So of course you won't be at all surprised — just delighted — when we tell you that Chevrolet's famous ride is even Jet-smoother; new front and rear coil suspensions see to that. Then there's something new and great called Wide-Stance chassis design — helps to make Chevrolet even easier to handle this year. Inside is the sort of luxury and quietness that makes higher-priced cars turn a "how-does-Chevy-do-it?" green. Finally, we'll just mention self-adjusting brakes, long-life exhaust system, Delcotron generator, new Girder-Guard frame, curved side window glass, choice of six engines, three transmissions and 15 Magic-Mirror colors... Hey, where are you going? To your Chevrolet dealer's? Must be something we said!
