Grain

WINNIPEG, Nov. 17—(CP)—All grain prices showed declines in active trade today on the Winnipeg Grain Exchange. The lower trend was in response to declines in United States markets. Another factor in the trade was a Dominion Bureau of Statistics report showing coarse grain yields would not be as low as the market expected. Fair commercial demand in oats was met by liberal offerings. Processors were buyers of flax, which showed some resistance to the trend. American houses were on the selling side in rye, which declined sharply. Only export business reported was a small parcel of Canadian wheat allocated to the United Kingdom. Class two wheat and I.W.A. prices were down 1-4 cent from yesterday. Oats: Dec 92 3-8, May 87 1-8A, July 83 1-8B, Dec 1.37 1-2, May 1.27A, July 1.20 1-2, Rye: Dec 1.53 1-8B, May 1.58 1-8—3-8, July 1.58A, Flax: Dec 3.81B, May 3.78 1-2A, July 3.75 1-4B.

Coal Production Down, Imports Up

OTTAWA, Nov. 17—(CP)—Canada's coal production decreased and her coal imports increased in the first 10 months of this year, the Bureau of Statistics reported today. Domestic production in the 10-month period amounted to 15,060,755 tons compared with 15,213,381 tons in the corresponding months of 1949. Imports totalled 23,008,882 tons compared with 17,036,638.
