Strict Silence Follows Reports Search Spreads

By BERNARD DUFRESNE
Canadian Press Staff Writer

GAZPE, Que. (CP)—While provincial police maintained strict silence, reports persisted Friday night that their investigation into the gruesome slaying of three American hunters has spread to Montreal and other centres.

The reports topped a busy day that left a new slaying for police solution and had its usual quota of rumors about imminent arrests and sensational developments, which were left to conjecture.

From every official source came prompt statements that the clubbing to death and robbery in New Richmond of Edgar Audelet, owner of a co-operative store, had no connection whatever with the slaying of the three bear hunters from Hollidaysburg, Pa.

Equipment Missing

Reports that the investigation into the triple slaying had taken on new importance in areas near from Gaspé went without official comment. Informants said at least one phase of these investigations might deal with the whereabouts of valuable equipment the American hunters carried, particularly two unaccounted for rifles and two expensive pairs of binoculars.

The most general place to look for them elsewhere, said informants, would be in pawnshops. No trace of the rifle and binoculars, as well as other equipment and \$700 in cash, has been found since the partial skeletons were found of Eugene H. Lindsey, 45; his 17-year-old son, Richard and Fred Clair, 20.

The elder Lindsey's remains were found last week, those of the younger men Thursday, scattered along the banks of a small stream deep in the bush.

New Developments

More positive developments Friday were: A high-placed official in the attorney general's department at Quebec said representatives of the Lindsey and Clair families will be asked to come to Gaspé from Hollidaysburg next week to identify the remains of the younger victims.

Dr. Jean-Marie Rousset, provincial medico-legal expert, was en route from Montreal to examine the remains.

Solicitor-General Antoine Rivard at a press conference in Quebec said a sweater of one of the youths—believed to be young Lindsey—bore a bullet hole. He is believed to have been shot in the heart or near the heart. Marks of another bullet were found on the rifle strap used by the elder Lindsey. Near the older man's remains was his rifle; it contained six bullets and the safety catch was on.

Mr. Rivard also showed pictures that had been developed from the hunters' camera, found near the elder Lindsey's bones. Mr. Rivard said one picture showed three truckers who helped the hunters when the Americans' small truck stalled at a stream.

Informants in Gaspé said the truckers were bush workers, employed by a paper company, who were travelling through the bush country. The informants said this was June 9, the day the Americans set out for the bear-hunting area from Gaspé.

After helping the Americans, the bush workers then went on to their jobs, said the informants.

So far as corps were learned here with a corps being learned here had questioned no one during the day. Capt. J. Alphonse Matte, who arrived from Quebec Thursday to take charge of the investigation, remained in town.

Reds Use Russian Style Rockets Attacking Hills

BY GEORGE A. McARTHUR

SEOUL (AP)—Chinese Reds, supported by Russian-style Katyusha rockets, battled hand to hand with Allied troops early today for three outposts northeast of Panmunjom—the town where a truce is reported about to be signed.

A Red battalion, about 750 men, stormed to the crest of outpost Ether shortly before midnight and set up a machine-gun but was driven off two hours later by a counter-attack.

Gun butts and bayonets were used in the fighting. Katyusha rockets were used in the Red attacks and also in a smaller fight on the central front.

Police Ordered In Strike Area After Violence

TIMMINS, Ont. (CP)—Squads of provincial police, "ready for any situation," were ordered into the Porcupine gold-mining area Friday night after a sudden outbreak of violence by hundreds of striking miners.

Police from three Northern Ontario detachments headed for the district to prevent any further fighting at the strikebound Broulan Reef gold mine where 50 miners beat up 30 workers in a pitched battle Friday morning.

One non-striker said it was an "attack by savages." Although everything was quiet by nightfall, police said they were moving reinforcements because the "whole situation is like a powder keg."

The fight, which lasted 30 minutes and left at least 40 miners with smashed teeth, cuts and bruises, was the biggest show of force by strikers since wage walkouts hit three Porcupine camp companies two weeks ago.

It came shortly after 7 a.m. when 50 angry hard-rock workers rushed into the Broulan property, attacked 30 miners who had crossed picket lines and forced some of them outside the gates. Some workers said they were pummeled and kidnapped; others claimed they were beaten into unconsciousness.

Three shots were fired by a Broulan security officer as seven strikers, members of the United CIO, sped from the property after the fight. No one was hit.

Union and company officials declined to comment on the incident. Both parties said they would "have to think things over."

U. S. Surgeon To Treat Cardinal

NEW YORK (AP)—A United States surgeon and a blood specialist left by plane Friday for Yugoslavia to treat Aloysius Cardinal Stepinac for a rare blood disease. The cardinal, released from five years imprisonment in 1951 after Communist Yugoslavia's break with Russia, is suffering from Polycythemia, a sort of "reverse leukemia" which causes an over-supply of red blood cells.

Reds Use Russian Style Rockets Attacking Hills

Censorship prevented pinpointing the distance of the fighting from Panmunjom, but it is known that the lines are so close that artillery fire can be heard in the town.

Outpost Ether is in the area where the Allied position was weakened Sunday night when Chinese attacks rolled United States Marines off outpost Berlin and East Berlin.

While one battalion hit outpost Ether, another attacked two nearby outposts, AP correspondent Forrest Edwards said. Front line Allied officers sharply scaled down first reports that the Chinese were using 5,000 men in the attacks.

To Draft Recommendations For September Meeting Of Potato Shippers In Ottawa

MONCTON, (CP)—Appointment of committees in the St. John valley and Prince Edward Island to prepare recommendations for a national meeting of potato shippers in Ottawa in September was proposed at a special meeting here Friday.

The Ottawa meeting will consider ways of facilitating the sale of potatoes and will also assist in the planning of surveys to be conducted in conjunction with the railways and government departments.

New Brunswick shippers will hold a meeting in Andover Aug. 25, while Prince Edward Islanders will meet at a date to be announced.

The meeting here was attended by representatives of the Maritime government, agricultural departments, potato shippers, railway officials and members of the Maritime Transportation Commission. Discussions ranged over a number of topics pertaining to the handling and shipping of potatoes.

(Returning last night to this Province from the above meeting were Messrs. W. R. Shaw, Deputy Minister of Agriculture, D. A. MacDonald, manager of the P.E.I. Potato Marketing Board, William MacLeod, fruit and vegetable branch, and Henry MacLaren, seed certification branch, Federal Department of Agriculture.)

(They report that among the matters discussed at the meeting were present loading and shipping methods for potatoes, as well as freight rates, particularly refrigerator car charges.)

Appointed N. S. Fisheries Chief

HALIFAX (CP)—Donald H. Sutherland of Pictou, N.S., has been appointed chief of the fisheries division of the Nova Scotia department of industry, it was announced Friday.

A former executive director and member of the fisheries research board, Mr. Sutherland also served from 1940 to 1949 as assistant deputy minister of fisheries at Ottawa.

He replaces Dr. D. LeB. Cooper who resigned in 1951 to become fisheries consultant to the fisheries department of Newfoundland.

Scout Jamboree Will End Today

SOUTH MARCH, Ont. (CP)—The week-long Canadian Scout Jamboree ends here today but there was no indication of any let-up in enthusiasm Friday among 2,500 scouts who watched displays by the Quebec and New Brunswick contingents.

KENTVILLE, N. S. (CP)—The 40th annual conference of the Maritime Fire Chiefs Association will be held in Sydney next July. The invitation from Sydney was accepted at this year's annual meeting here.

Island Woman Injured in Crash Near Saint John

SAINT JOHN, N. B. (CP)—Mrs. James Cochrane of Summerside, P. E. I., and Mrs. Donald Thurber, Deer Island, N. B., were admitted to hospital here Friday after a two-car collision near the city. Mrs. Cochrane suffered a broken arm and facial lacerations and Mrs. Thurber facial cuts. Their husbands, the drivers, were treated for minor cuts and bruises.

One Missing Ship Located

HALIFAX (CP)—One of two ships missing off the Nova Scotia coast was located Friday but the fate of the other remained shrouded in fog.

The 38-foot fishing craft Dynamite, missing out of Shelburne, on the southwestern shore, was picked up by the RCMP cutter Slideout.

Her two crew members were reported safe and the Slideout started the tow to port. Details were not available but it was presumed the Dynamite's engine had failed.

The search for the pleasure yacht Gwenman, meanwhile, continued although bad weather kept planes grounded Friday. They will be out today along with search vessels, weather permitting.

The Gwenman, on her maiden voyage, was en route from Newfoundland's south coast to Sydney when last reported. It carried four persons under Mrs. Gwendolyn Cameron, 30, of Springhill, N.S., the skipper.

New Quarters For Infantry Brigade

HANOVER, Germany (CP)—Brig. J. E. C. Pangman, commander of the 27th Canadian Infantry Brigade group stationed here, announced Friday that the brigade would move into new quarters at Soest, Westphalia, in mid-October. The transfer, which would be completed by mid-November, affects 5,000 officers and men. Soest is about 30 miles east of Dortmund. The quarters into which the brigade will move are newly-constructed barracks.

Will Hold Meeting On Cruise Vessel

QUEBEC (CP)—Forty-third annual convention of the Retail Merchants' Association of Canada will be held aboard a St. Lawrence River cruise vessel Sept. 13-16. Theme of the convention will be employer-employee relations.

Churchill Will Convalesce At Country Home

WENDOVER, England (CP)—Prime Minister Churchill, looking his old robust self again, returned to his official home in the English countryside Friday after about a month's rest ordered by his doctors.

His office said the 78-year-old statesman will stay at Chequers, the prime minister's official country home, for two weeks. Apparently he will take over there more and more of the arduous duties which felled him late last month.

Chequers has communications equipment linking it to Whitehall, seat of the government. So Churchill can keep his experienced hand in all the important doings of his government before taking over completely again.

Churchill drove up from Chartwell, his home in Kent, to Chequers, 60 miles away, accompanied by his frolicsome French poodle. By walking briskly to his car at Chartwell, coaxing poodle into a limousine and waving cheerfully to the crowd, Churchill personally laid to rest many rumors.

Many reports have suggested he was seriously ill, and a story published in France only Thursday said he was suffering from paralysis.

The drive to Chequers marked the first time Churchill has been outside Chartwell since his doctors announced June 27 that they had ordered him to rest because of overwork.

Beyond that bare announcement the government has never specifically stated what was wrong with the prime minister.

Sentenced To 12 Years In Prison

Twelve years in Dorchester Penitentiary was the sentence pronounced at Georgetown yesterday on Ezra Arnold, Bristol who was convicted of manslaughter a week previously. A jury had brought in a verdict of "Not guilty of murder but guilty of manslaughter with a strong recommendation for mercy" in the shooting of the accused's father the night of June 1.

Mr. R. R. Bell, Q.C., counsel for the accused, made a plea yesterday for a light sentence. Mr. J. O. C. Campbell, Q.C., Deputy Attorney General made a few remarks countering that proposal. Also representing the Crown was Mr. S. S. Hessian, Q.C. Sentence was pronounced by the trial judge, Mr. Justice M. R. MacGuigan, who also gave some of the considerations on which he based the 12-year sentence.

Violent Storm Hits Winnipeg

WINNIPEG (CP)—A violent electrical storm dumped more than one inch of rain on sodden Winnipeg Friday and lightning struck at three scattered points starting one fire that did \$40,000 damage.

It was the 39th day of rain in the last 85 days. Back lanes were flooded, disposal of damp garbage was held up, and low-lying market gardens were "drowned out." Some holiday excursions were cancelled. More showers were forecast for today.

One lightning bolt hit the Canadian Johns-Manville Co. building and the fire that followed caused damage estimated at \$40,000.

The rain raised the year's total to 21.5 inches. This compared with 14.8 inches up to July 24 in 1976, the wettest year in Manitoba history. Total for that full year was 29.7 inches.

Number Of Families In Canada Shows Increase

OTTAWA, (CP)—The number of families in Canada is growing but the number of persons making up a family hasn't changed, the Bureau of Statistics reported Friday.

The number of families in 1952 increased to an estimated 3,413,000 from 3,282,000 in the census year 1951. Average size of families was 3.7 persons, unchanged from 1951.

The bureau also said the number of households—a group of persons living in the same dwelling, whether related or not—also increased, to an estimated 3,561,000 in 1952 from 3,406,000 the previous year. The average size of households was 3.7 and British Columbia 3.4.

Discuss Role Of U. N. Assembly In Korean Peace

UNITED NATIONS, N. Y. (Reuters)—E. Pearson, president of the UN assembly said Friday a Korean armistice may be signed within a few days. He added that a meeting of the general assembly would be held two or three weeks after the signing.

"We have reason to hope that there will be an armistice signed very shortly," the Canadian external affairs minister told reporters after a luncheon meeting with top UN delegates and Dag Hammarskjöld, UN secretary-general.

August 12 has been mentioned as a probable date for the assembly session.

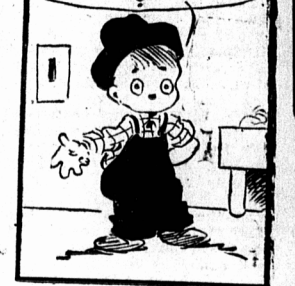

To Decide Representation

The assembly is expected to decide which countries will represent the UN at the political conference with the Communists to be held 90 days after the armistice.

Site of the conference has not yet been settled and views will be exchanged on this point. Geneva is favored by the United States while Britain has indicated a preference for Ceylon.

At the luncheon Friday, top UN delegates discussed ideas about when the assembly would meet and what it would set out to do. Among those attending was Henry Cabot Lodge, chief U. S. delegate. He was understood to have briefed Pearson and other delegates and officials on the latest information in the hands of the U. S. government.

Displays Impatience

Rhee expressed impatience with what he said was Washington's slowness in following up understandings reached in his talks at Seoul with Robertson. President Eisenhower's special envoy.

Rhee said his agreement with Robertson provided that "no troops from Indian or any other foreign nation will be landed in South Korea to guard prisoners of war."

Rhee cited Communist claims that the UN chief negotiator, Lt.-Gen. William K. Harrison, "has agreed that such troops will land in South Korea and that they will be granted police protection by the UN forces."

"I can only say that the Korean people will not permit this to happen," Rhee declared.

"My agreement with Mr. Robertson states flatly that Korean prisoners who refuse repatriation be set free in South Korea and Chinese prisoners who refuse to return to communism be sent to a destination of their choice.

"To our shocked amazement, the so far uncontradicted report from Panmunjom directly states that this will not be done.

"Instead, it appears as though the prisoners may be sent to some neutral country where they may be further intimidated by the Communists. This cannot be allowed to happen."
