Nine Carloads Of Livestock Leave For Royal

AMHERST, N. S. Nine carloads of prize livestock representing some of the best in the Maritimes, were scheduled to leave Amherst Friday night via Canadian National Railways to be exhibited at the Royal Winter Fair in Toronto. They are all prize-winners in the Maritime winter fair being held here.

There are eight cars of dairy and beef cattle and one car of sheep. A car of sheep has already gone forward. And another car of dairy cattle is being forwarded from Prince Edward Island. Several horses are also included in the shipment from here. The cattle consist of Holsteins, Short-horns, Guernseys and Jerseys.

Among the exhibits will be some from the Deep Cover farm in Lunenburg County, Nova Scotia, of the famous American industrialist, Cyrus Eaton, a native of Pugwash, N. S., who also maintains a herd of fine cattle on his Acadia farm, located some 20 miles from his headquarters office in Chicago.

The livestock will be accompanied by a caretaker in each car. J. E. McIntyre, agricultural representative for the C. N. R. at Moncton, will be one of the judges for the 4-H garden clubs at the Royal.

2,000 Blood Donors Needed Early In Dec.

The third and last of the 1955 series of Red Cross blood donor clinics will be held in this province during the week of December 4th with an objective of 2,000 donors. While 2,336 donors registered at the clinics held in June and September, the province is still in debt by 400 bottles. At least another 2,000 donors will be required to cancel this debt and establish a credit which will carry the service for the next six months since no more clinics will be held until next June.

Active committees are already a work making plans in each of the centres in which a clinic will be held, — the R. C. A. F. Station, Summerside, Crapaud, North Rustico and Charlottetown.

The Charlottetown committee with Mr. F. A. S. Jones as its chairman, met with such an excellent response to its appeal to clubs, organizations and unions for the June clinics that it has decided to carry out this plan for the December clinics when Charlottetown's objective will again be at least 1,000 donors. All clubs, organizations and unions have been written and asked to appoint enthusiastic representatives who will attend a meeting at Red Cross headquarters next Thursday when methods of increasing the donor panels will be discussed and finalized. The committee would appreciate being informed of any other groups that have not as yet been contacted.

Card of Thanks

Mr. and Mrs. William Rogers, Freetown, wish to acknowledge with grateful thanks the many kindnesses shown them by their friends and neighbors also the numerous and beautiful cards of sympathy which helped to ease the burden during their hour of sorrow.

Island Ayrshire Breeders Score At Amherst Friday

AMHERST, N. S. (Special) — The herd of a MacRae and Son of Central Royalty, P. E. Island, won the Premier Exhibitor's Award in the Ayrshire show completed Friday at the Maritime Winter Fair. Shown by Major and Arthur MacRae, the herd won more prizes than any other, but their winnings in herds and group do not count toward the premier awards. The Premier Exhibitor's Shield went to S. C. Oland, Bedford, N. S.

The Premier Breeders Shield goes to the breeder who had won the most money with animals he bred in his own herd. The Premier Exhibitor's Award goes to the man who has won the most prize money with his cattle regardless of where they were bred. The Olands had purchased a considerable number of their top winners at this fair.

The MacRaes were very strong in their females and especially in their mature animals. They had a four-year-old cow Fairvue Molly 3rd, won the reserve senior and reserve grand female championship. She completed an honor roll record of 11,886 lbs of milk, 483 lbs of fat some two months before she freshened for her present lactation. She is now milking close to sixty pounds a day. The honor roll record is made in 305 days of milking with the stipulation that the cow must calve within 405 days of her last previous freshening.

A hurried and an unofficial check indicated the MacRae herd had won seven firsts, five seconds, three thirds, four fourths, three fifths and several lesser placings. The herd of Keith Boswell and Sons of Victoria wound up with two firsts, two seconds, six thirds, four fourths, one fifth and three old show ring winners Leland Roy and Victoria. The sixteen-year-old cow was sick at the show time and was left in the barn.

PERCENTAGE RECORD

Perhaps the best percentage record at the entire show was that of Col. F. I. Andrew of Charlottetown. He took seven animals to the show and wound up with one first, four seconds, one third and one seventh. He was particularly proud of three of his seconds. He had a second in the junior get of sire class with the get of Galgarray Bit of Fashion. He had a second in the junior herd in strong competition. One other second was scored in the very strong class of dry two year old heifers. His Royalty Lady Charm finished second to the MacRae's Fairvue Bright Lass 2nd in very close decision. The two heifers were easy tops in this class.

Included among the MacRae ribbons were ones indicating reserve senior and reserve male grand championships reserve senior and reserve grand female championships and the junior female championship.

A check of other dairy breed shows indicated that Courtney B. Lusby Crestland herd of Amherst, 1900.

Then it was purchased by Mrs. Ella B. Harris for \$15,000. She had been left wealthy by her first husband, an American iron millionaire, and her money and hospitality made the old house a beautiful, glittering centre for Ottawa society. She died in 1924 and her second husband, Charles Harris, lived there until his death in 1930.

At that point the Earncliffe story almost took a different path. Conservative Prime Minister R. B. Bennett became interested in buying it either as the prime minister's official residence or as the home of the Conservative party leader.

But he decided instead on the convenience of a suite in Ottawa's big Chateau Laurier hotel and the British government bought the house for \$90,000—nine times the price Sir John Macdonald paid for it.

ur Hogan, Misses MacLennan, MacKay and Mrs. MacLure, Grade V teachers, were in attendance, while also as guests were the teachers and pupils of Grade IV.

Pupils of the Model School joined Prince Street School for the service there. Miss Mabel Matheson, principal, expressed here appreciation of the value of this MacKinnon Mrs. Ian Burnet, Mrs. Carl F. Burke and Mr. Reginald MacNutt represented parents. Teachers whose pupils received the testaments, Miss Fullerton and Mrs. Bryant, attended, as did teachers and pupils of Grade IV.

R. R. 2 won both the Premier Exhibitor's Shields in Holstein. Frances W. Bishop of Clarence, N. S. won the Premier Exhibitor's and Breeders shields in Guernseys. In Jerseys the herd of Campbell MacKay of Rothesay easily topped all others in total winning for the Premier Exhibitor's Award.

The Furdy Jersey Farm, Harvey Station, N. S., won the certificate for Premier Breeder in the jersey show.

GAELIC COLLEGE

MacKenzie observed that George has been a summer student at the College for the past two years and had shown exceptional promise as a piper. Young Fraser was among the group of pipers which crossed the Canso Causeway last summer and as a token of appreciation from Premier Hicks of Nova Scotia was presented with an embossed certificate by Mr. MacKenzie.

The youthful artists who performed last night to an almost capacity audience left no doubt of their ability in the field of Celtic art. The strains of music gave the audience the impression that "that is the way the pipes should be played." The timing was perfect and the blending was sweet and very pleasing to the ear.

The dancers proved that they were in a class by themselves and each performer whether dancing individually or in groups executed the dance in a flawless manner. Two Gaelic numbers by a chorus of girls were heartily applauded and while only a minority of their audience understood the words there was something touching about the simplicity of the airs which for the moment transported the listeners to the Highlands which for so many years echoed to such music.

Two little girls aged eight and nine stole the hearts of the audience last night. Sharon Robertson an eight year old piper who has been one of the pupils at the Gaelic College for three years showed, that she is fast becoming

a master of the pipes. There is little doubt that much more will be heard from her in the years to come. Little nine year old Gwen Jones was heartily endorsed for her singing of several Scottish comedy songs. Given performed like a veteran and her applause was well deserved.

Rev. Mr. MacKenzie gave a brief history of the school. He said that it was conducted for four weeks each summer at a cost of five dollars registration and \$1.10 a day for board to the students. The children are well supervised and he expressed the opinion that any boy or girl who attends is bound to improve their technique in Celtic Art, whether it be piping, dancing, Gaelic Singing or Scottish Folk Singing. He invited parents to avail themselves of this opportunity to give their children instruction under masters of the Art.

Mr. George V. Fraser extended a welcome to Rev. Mr. MacKenzie and his visiting artists who will give a repeat performance, tonight. Patrons at last night's performance termed it the best that they have ever attended and no doubt another large crowd will be on hand to greet this fine group of performers.

Constable Gordon Humphrey, R. C.M.P., Charlottetown, identification section, said that he arrived on the scene on the night of October 20, and had taken some photos and measurements. He also took more photos and measurements on the morning of the 21st. Const. Humphrey showed the photos and a sketch made of the area and explained them to the jury.

Homer Moar, New Perth, mechanic, said that he examined the truck and found it considerably damaged. The right and left front wheels were smashed. Grill and radiator smashed. The left door would not shut and windshield was shattered. On question he said that such damage would be caused by such an accident. He stated that the tires were all inflated.

The Crown Prosecutor instructed the jury and Dr. Inman explained the meaning of the autopsy report, after which the jury retired to bring in the above verdict.

Members of the jury were: Louis Cantelo, foreman, Norman MacKenzie, Frank Fogarty, Walter Conohan, Joseph MacLellan, Daniel Acorn, Earl MacDonald.

War Memorial is rapidly nearing completion and will be ready for the Armistice Day Services. New curbs, walks, hedge and turf have been laid around the monument. On each side of the monument two steel flagpoles have been erected, from which will fly the Union Jack, Navy, Army and Airforce ensigns. The Navy and Army will take alternate months to hoist and lower the flags daily. On the occasion of a funeral of any member or

member of the forces or government the appropriate flag will be lowered to half mast. At night the area will floodlight.

This work was carried out by the Public Property Committee and was supervised by Mr. Joseph Costello and Mr. James Fullerton, City Clerk.

It is hoped that any would-be vandals will remember that this area is considered hallowed ground and will refrain from any damage.

other activity has been planned and the executive is now working toward this end.

The Students' Union seems to be having more than its just share of troubles in its efforts to clothe the backs of the students in college colors. After considerable correspondence with various firms last year, a manufacturer was located who was able to supply that subtle shade of red (Elizabethan) needed for the production of suitable sweaters in the college colors. This lead proved to be a short fuse, however, for within a few days after the order was compiled and submitted, this company was burned to the ground, so now the original problem seems to have arisen again, like the Phoenix, from the ashes. Far from being discouraged, though somewhat harassed by the prospective buyers of the sweaters, the executive is now busily pulling every tangible string in an effort to rectify the situation.

Another project being currently advanced by the Students' Union is that of establishing a barber shop on the campus. Till now, a select few, who seem to have a mad madness in their eyes, skill in their fingers, have been using their own quarters as impromptu tonsorial parlors in addition to the already-diversified uses they now have as lodgings, libraries, and perhaps even record stores. The plan is to transform some of the vacant spaces that remains in the basement of Main Building into more fitting quarters for the practice of the art that is at least remotely responsible for that clean and refined appearance that the students of Saint Dunstan's characterize.

Through the efforts of moderator of the Students' Union, an arrangement was made with the National Film Board whereby we were supplied with a series of very informal, active short features and several travelogues with which to startle the spools turning on our entertainment program. It is the hope of the Students' Union that there will be a feature-length movie available to the students once a week, on a night for which no
