Well, Rick Tocchet is in Pittsburgh. At least he is with a talented team. Flyers fans will remember him for his past good years and not for his bad 91-92 season. Rick was fine as an assistant captain but he just couldn't handle the ship all by himself. Why did he ask for a trade? Wendel has played for the Leafs without complaint and Bobby Clark played his entire career in the same city. I have more respect for Wendel but I wish Tocchet well; he played some dandy games for the Flyers.
