Among the many things he mentioned were: Canada's first potatoes; the Island's first airplane flight in 1912; the Maritime's first aerial flight between Charlottetown and Truro in 1919; the first submarine cable and the first YMCA building in North America; the first silver black foxes and the first microwave telephone system in the world.

"The Bank's" 1964 Financial Statement in PLAIN WORDS

Annual Statements and Balance Sheets sometimes seem as though they were drawn up only for the trained eyes of accountants and financial experts. For those of our customers, shareholders and friends who are neither of these, we present the highlights of our 1964 operations in plain, straightforward terms:

Funds entrusted to us:

| | |
|--------------------------------------------------------------------------------------------------------------------------|-----------------|
| In personal accounts used mainly to accumulate savings | \$1,066,584,092 |
| In business accounts to meet payrolls, purchase materials, pay taxes and other obligations | 1,408,688,987 |
| Total of customers' deposits | \$2,475,273,079 |
| Commitments made to assist customers in their foreign and domestic transactions and miscellaneous accounts payable | 71,094,630 |
| Funds supplied by shareholders to provide banking offices and equipment and as a reserve to protect our customers' funds | 133,064,927 |
| Total funds available for investment | \$2,609,432,636 |

These funds were employed as follows:

| | |
|-----------------------------------------------------------------------------------------------------------------------------|-----------------|
| Cash resources to meet the daily withdrawal of funds by customers | \$400,310,982 |
| Call loans and Government of Canada securities available to provide additional cash at short notice | 651,718,800 |
| Funds lent to provinces, municipalities and corporations by investing in their securities | 198,818,237 |
| Funds lent to enable customers to acquire their own homes under the provisions of the National Housing Act, 1954 | 96,710,246 |
| Loans made to our customers to finance their business operations and for their personal needs | 1,209,671,882 |
| Lands, buildings and equipment needed to provide our customers with convenient and efficient facilities at our 640 branches | 46,509,201 |
| Other assets—mainly customers' commitments to "The Bank" covering foreign and domestic trade transactions | 65,693,288 |
| Total funds employed | \$2,609,432,636 |

That in simple terms sets out our position as at October 31, 1964. A measure of our progress is the fact that total assets increased by \$207 millions or 8.4 per cent. Profits after taxes and all charges amounted to \$9,080,360, equivalent to \$3.03 per share as compared with \$2.92 a share in the 1963 fiscal year. This amounts to less than 0.4 per cent of the total funds employed. It was a good year for our customers and our shareholders, to whom we extend our thanks for their continuing confidence. It was a good year, too, because of the devotion and teamwork of our thousands of employees across Canada... good reason for us to feel assured that...
