

VAST THROG ANNUALLY TESTIFY TO ATTRACTIONS OF DUNDAS EVENT

## Dundas Event Stirs Peak Interest; Maritime Plowing Crown At Stake

Excitement will run high at the big Provincial Plowing Match at Dundas Thursday when the Island's pride, provincial champion Glen Morrissey, matches skill with the best in the seaside area in the Maritime Champion class. Glen won the right to represent the Island this year in the class when as a last minute entrant he topped the Esso Special Provincial Plowing Championship at the Dundas event last year. He won it

on other occasions, but had not entered in recent years and had not done any competitive plowing prior to the match last year. He will be a doubtful starter in the Provincial event this week as he has been having trouble obtaining a plow which can be adjusted to his liking. The one he will use in the Maritime championships belongs to another plowman who will not be in that class but may be a starter in the provincial title quest.

**CONTEST ROTATES**  
There will be two starters from each of the three Maritime Provinces in the event which will be

staged following the Esso Special on Thursday. Last year the Maritime Championship plowing was held in Nova Scotia and the year before in New Brunswick. By rotation it returns here this year. President of the Provincial Plowing Match, L. S. Hunter, Bridgetown, said yesterday that entries in all plowing events were expected to exceed those of last year and that livestock entries would probably set a new record. He also expressed the belief that the splendid showing of handicraft work of other years would

be surpassed. Mr. Hunter stated there would be top entertainment as well, as "our entertainment committee has been working hard on the job and think they have the best obtainable". **VAST CROWDS**  
The plowing match is rapidly taking on the form of a large-scale exhibition in Eastern Kings and annually attracts tremendous crowds on both days. Though the plowing is the basic attraction the (Continued on page 14)

### New Variety Of Potato For Growers

FREDERICTON, N.B. (CP) — A new variety of potato, named Fundy, is being released by the Canada Department of Agriculture, through the National Potato Breeding Project, Experimental Farm, at Fredericton. It will be released for distribution in New Brunswick, Nova Scotia and

Prince Edward Island. The Fundy is a smooth white potato of the Irish Cobbler season, about equal in that variety in yield. It is of high cooking quality and can be marketed both as an early and late crop. It has the same resistance to late blight as the Keswick. Official application forms are available from the superintendents of the Experimental Farms at Fredericton, Kentville, and Charlottetown or from local potato certification inspectors. These completed forms to-

gether with remittance covering the cost of the seed ordered will be received from regular foundation or certified potato seed growers by the superintendents of the three farms on or before September 30. Should the demand exceed the supply, applications will be filled in the order received.

**ONE SLUG TOO MANY**  
RIDGEWOOD, N.J. (AP) — Irwin Liebowitz, 52, nabbed by a telephone company investigator and charged with using slugs in a public phone, was fined \$200 Thursday.

### Issue 'Serious Warning To U.S. Over Warships

HONG KONG (Reuters) — The Chinese Communist government Sunday denounced the United States for sending warships into her territorial waters and issued a "serious warning." A brief statement broadcast by the Communist New China news agency said: "Four U.S. warships intruded into China's territorial waters which extend for 12 nautical

miles, in the Quemoy and Amoy areas from 1445 to 1900 hours this afternoon, and conducted activities there. "A spokesman of the ministry of foreign affairs was authorized to make the following statement: "Such an act infringing on our country's sovereignty is dangerous; the Chinese government issues a serious warning on this."
