A TURKISH VIEW

Turkish Minister Says United States Claims Are Groundless—Counter-Claims May Be Presented.

WASHINGTON, October 15.—In conversation with a reporter the Turkish minister who has just returned to Washington, said that he had not heard from his government anything to confirm the rumor that the United States government had instructed its minister to insist on the payment of the claim for \$100,000 as indemnity for losses in Armenia.

"My opinion in the matter," said the minister, "is that a great deal of fuss is being made about nothing. I have said already, and many times, that the Turkish government is not responsible for the riots in Armenia. As to the claim for \$100,000 I can say that it will be treated as similar claims from other governments have been. The Sublime Porte used every means to protect its own citizens as well as the citizens and property of other countries. That it could not accomplish its good intention is not the fault of the Sublime Porte.

"I also think that the plaintiffs' in the case have not been entirely blameless. We have stated that three ministers have caused most of the trouble. The Turkish government never wanted them in its territory. They came against our desire, and the consequence has been constant friction. They have never yet made a single Mohammedan convert. I think we could well dispense with all the foreigners in Asia Minor."

It was stated at the Turkish subjects recently had been assassinated in this country, and that the authorities were now investigating the case. It is estimated that as soon as the particulars should reach the Sublime Porte, a counter claim would be instituted against the United States to offset the indemnity claimed by the United States because of the destruction of the American property in Turkey.

ENGLAND WANTS AN ANSWER

From France Regarding Fashoda.

FRANCE IS WAITING FOR MAJOR MARCHAND'S REPORT

Which is Expected to Arrive in Paris on Wednesday.

[SPECIAL TO THE EXAMINER.]

LONDON, Oct. 17.—Sir Edwin Monson, the British Ambassador at Paris, has notified M. Delcasse, the French Minister of Foreign Affairs that the British Government will require a definite reply as to whether Marchand is to be withdrawn from Fashoda or not.

Upon the receipt of Marchand's report, which is expected on Wednesday next, it is expected that France will find some means of extracting herself from the difficulty.

MONCTON, Oct. 17.—The appointment of Chief train Despatcher George M Jarvis, of Moncton, as Divisional Supt. of the I. C. R. on the Saint Flavia and Moncton District, and Rennels' transference to Truro has been changed.

H. H. Flemming will probably succeed Jarvis as chief train despatcher.

The above changes will take effect to day.

Our New Steamer's Name.

Troublesome Indians.

OTTAWA, Oct. 15.—There is reason to fear that unless some new means is found of controlling the Indians of Yukon they may yet make themselves extremely troublesome. They hold it as part of their religious belief that where an Indian has been killed by a white man the blood of two whites must be taken to pay the penalty. This unfortunate creed to which the Siwash are firmly attached, has already led to the murder of one white man and the execution of his murderers at Dawson may be the signal for further trouble of the same kind. The light of christian influence has hardly yet penetrated to any great extent among the Siwash, and their paganism renders the problem of their handling all the more difficult.

A STRANGE PEOPLE.

Gigantic Inhabitants of an Island of the Solomon Group Described.

VANCOUVER, B. C., Oct. 15.—Australian papers received here per steamer Warrimoo give further interesting details of the cruise of H. M. S. Mohawk in the Solomon islands. They are made public by an officer of the warship, who says:

"One of the most interesting features in connection with our cruise was the visit to Tocupia. This island is without history. Its people certainly are not Kanakas, woolly haired nor stunted in stature. The whole island certainly seems to give color to the Darwinian idea of a submerged continent, in so far that the formation is mountainous with valleys and has 800 people on it. They are gigantic in stature. One we measured was 6 feet 10 inches tall. The women are proportionately large. They have long, straight hair (the men), which they dye a flaxen color and which in thick folds hangs over their copper tinted shoulders. The women, on the contrary, have their hair cut short. They may be related to the Samoans or Maoris, but they certainly differ so much from the Polynesian as to make their history most interesting. Strange to say also they have no weapons of defense at all. It is a remarkable fact that they marry only once, the superstition being that if a married man or woman dies, no matter how many children there may be, the deceased spirit has gone ahead and is waiting for the other half."

A Contradiction.

FREDERICTON, October 15.—Referring to a despatch from Aldershot camp, which appeared some time ago, in which General Hutton was made to denounce the infantry school at Fredericton as a failure, Colonel Vidal, the commandant, says today that the despatch was an unmitigated lie, having not even a semblance of truth. General Hutton neither criticised the school nor upbraided the officers or men.
