MINING

TORONTO, July 14 —(CP)—Trading interest was decidedly low today on the Toronto stock market and prices tapered down as buying dwindled. Only 168,000 shares changed hands in the session and the volume was only about 25,000 shares above the low record for recent years. Both mining indices and the industrial weakened .25 to .46 and the western all finished the day with a minor gain.

Preston East Dome looked like a feature for an hour or more around the noon period as it pushed up to 1.00 on the news that the Diamond Drill had cut a new ore body in the mine's southern territory. After a few thousand shares had changed hands however interest slackened and the close at 1.56 was up only 4 cents net.

The bid was raised to 41 for Lake Shore, involving a gain of 5-8 and other senior golds, including McIntyre and Dome finished the day unchanged. Profit-taking was again in evidence in Anson and Conlaunum, two recent trading favorites, and they closed down 1/8 to 5 cents.

Noranda and Hudson Bay posted gains of 3-8 and International Nickel and Smelters chalked up declines all trading in small volume. The cheaper metals practically held their group and Coast Copper firmed 10 cents to 1.85. The silver share market was lifeless.

Home Oil dropped 4 cents and the close was up 2 for Calmont and Calgary-Edmonton.
