Mr. Keith said in an interview he had to revise his 1964 predictions for the industry made last fall following the report earlier this year of the U.S. surgeon-general linking smoking and lung cancer. His 1963 year-end report predicted a three-per-cent sales rise in 1964. \$2 Million Lawsuit Filed On Deformed Twins Behalf

CLEVELAND (AP)—A \$2,200,000 lawsuit was filed Monday on behalf of twin Canadian boys who were born deformed after their mother allegedly used the drug thalidomide.

Richardson-Merrell Incorporated of Cincinnati was named defendant in the suit filed in Common Pleas Court by the Cleveland law firm of Sonnenberg, Hasenflue and Shibley. The company held U.S. and Canadian manufacturing rights to the drug that was developed in West Germany.

Coal Output Shows Drop

OTTAWA (CP)—Coal production in the first two months of 1964 was 2,145,564 tons, a decline of 2.2 per cent from the same period last year, the Dominion Bureau of Statistics reports. Coal imports were 214,365 tons, off 36 per cent.

Fish freezings in February amounted to 11,544,000 pounds, up 14.4 per cent from the same month a year ago. Stocks at the end of February were 50,599,000 pounds, up 14.5 per cent.

Compensatory damages of \$1,000,000 was asked for each of the twin boys and \$200,000 damage for the parents for loss of service and subsequent medical attention for the twins.

Traci said five other lawsuits, seeking between \$7,500,000 and \$10,000,000, will be filed here within the next two weeks on behalf of one Canadian boy and four more girls, all deformed.

In Cincinnati, officials of the drug firm declined comment.
