SOLICITORS.

MACMASTER & MCGIBBON, Montreal.

The Directors, who are now the owners of the entire Capital stock, have decided, at the request of numerous friends of the Company throughout Canada, to offer for sale, at par, ten thousand shares of one hundred dollars each, fully paid and non-assessable.

Payments are to be made as follows:—Five per cent. on application; fifteen per cent. on allotment; twenty per cent. each in one, two, three and four months from the date of allotment. Applicants have the right to pay in full on allotment.

Applications for shares will be received until February 15th, 1893, at any of the offices of the Canadian Bank of Commerce, at the offices of the Union Bank of Halifax, and at the head office of the company, N. Y. Life Building, Montreal.

Forms of application for shares may be obtained at any of the above places, or they will be sent by mail on request.

Should no allotment of stock be made to any applicant for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for, the surplus of the amount paid on allotment, the right is reserved of withdrawing the offer in whole or in part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first day of March next, allottees of stock will be entitled to receive a proportion of the quarterly dividend as declared, corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchanges of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Gorge Company was organized in June, 1890, with a Capital of one million dollars, and has since that time the largest Gorge and Blast Furnace in Canada. It, as first, operated these under lease, but its operations having been successful, the Capital stock was subsequently increased to three million dollars, and the leased properties were purchased.

The Company has no mortgage indebtedness; and, according to the law under which it was incorporated, none can be created without the consent of two-thirds of the shareholders, represented at a meeting called for the purpose.

The Company has placed in the hands of the Messrs. Macmaster, McGillivray, and Co., Solicitors of the Company, full statements of its affairs, certified by Messrs. Caldwell, Tait & Wilks, Chartered Accountants.

(b) The following letter from Messrs. Alberta, Campbell & Meredith, Advocates, Montreal, upon the legality of the incorporation, and the issue of the stock:—

MONTREAL, January 5, 1893. CONSUMERS GORGE CO., LTD., Montreal.—GENTLEMEN:—We have examined the books and documents connected with the organization of the Consumers Gorge Company, Limited, and are of opinion that it has been properly incorporated, and that its capital stock of \$3,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

We are, yours truly, (signed) ABBOTT, CAMPBELL & MEREDITH.

(c) A report from Messrs. Macmaster and McGillivray, Solicitors of the Company, that the titles to its Mills have been duly examined, and that no encumbrances exist. Applicants for shares may examine these returns, copies of which may be seen at the Company's offices, and at the various offices of the Bank mentioned above.

The Consumers Gorge Company is probably the second largest Manufacturer of Gorge and Blast Furnace in the world, and claims the following very material advantages over its competitors:—

1st. A high class of conduct its business which enables it—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most improved machinery, thus keeping its mills in the highest state of efficiency.

2nd. Economy in selling and distributing its manufactured goods.

3rd. The business covers so wide a territory (its manufactured goods go to almost every civilized country in the world) that it cannot be seriously injured by local troubles, and its manufacturing establishments are so scattered that the danger of severe loss by fire is very slight.

4th. Lower cost of production.

(a) By maintaining the sharpest competition between its several mills, it is enabled to introduce in all the best methods known in each.

(b) By spreading its commercial expenses over a larger output.

(c) By picking in one hand the purchasing of the raw material and Manufacturing supplies for the several Mills, thus securing lowest prices.

(d) By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the consumer, and since its existence the consumer has, upon the average, had a better article at a lower price than previously.

The Company does not intend to have any monopoly, or to earn monopoly profits; in fact, it has not done so. Since its organization it has been able, owing to the advantages above referred to, to earn a net return on its present capital of not less than 10 per cent. per annum (as statements in their Bankers' hands will show), and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The Dividend for the year ending 31st October, 1892, was at the rate of 5 per cent. per annum. The past record of the Company and its present position in the hands of the Directors is believed that quarterly dividends of one and three-quarters per cent. can be paid had should the profits for the present year be as large as the outlook promises, the next quarter's dividend might be increased.

Any further information may be had at the head office of the Company at Montreal.

The McLean Case.

SHELBURNE, Feb. 6.—The case of Mr. Les, of Herring's Mills, as published last week is still the talk of the vicinity, and many people have taken the trouble to go to Herring's Mills to see him. Mr. Belfry, the druggist here, who sold Mr. McLean the pills, vouches for the truth of the statement, as also does Mr. Wm. Jolly, Ex-M. P. for District in County. Dodd's Kidney Pills are indeed a wonderful remedy, as they cure the most deadly as well as the most prevalent diseases that affect humanity, namely, Bright's disease, as well as all forms of kidney troubles, dropsy, diabetes, stone in bladder, and most especially rheumatism.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Ly.
