Local and Other Items.

THE SEWERAGE.

Owing to a scarcity of certain sizes of pipe, we understand, that the contractors have decided to suspend the work of pipe-laying for a few days.

ANOTHER EXCURSION.

The Royal Templars of Temperance, of Picton, have engaged the Lunenburg for an excursion to Charlottetown on July 1st.

BROWN LOT SOLD.

The property known as the Brown lot an garden on Fitzroy Street, was sold at auction to-day by R. Bearisto, and was bought by M. S. George Stanley for \$1,270.

THE VICTORIA BRIDGE.

Mr. Forbes, of the Hamilton Bridge Company, and Government Engineer McMillan, visited the site of the proposed steel bridge at Victoria yesterday. The site was considered most satisfactory, and the work of building the bridge will be proceeded with as soon as possible. The bridge is to be 109 feet steel span. The approaches are to confine the water into 100 feet span, and are to be built three feet higher than the present ones. The steel span will be supported by crescent piles. It is expected that the bridge will be completed by the 1st Sept. The cost, it is thought, will not exceed \$10,000.

A HIGHLAND REGIMENT.

The Globe says: St John may ere long have a new militia corps—a kilted regiment. The idea has been long considered and now the movement in favor of the plan is taking shape, for nearly one hundred well-known young men have expressed a willingness to join such a corps. In Montreal, Toronto and other Canadian cities the kilties are the crack corps and no trouble is experienced in getting recruits. It is hoped the same will be the experience in St John and at least three companies can be organized. The Highland uniform is a very attractive one and no prettier sight can be seen than a kilted regiment drill.

PROLIFIC INVENTORS.

It will undoubtedly surprise many people who are inclined to under-rate the importance of patents, to learn of the great number of patents taken out by some of the brainiest and richest men of the world. During the past 25 years, the United States Government has granted 25 inventors more than 100 patents each, the whole number being 4894, and the average 195. Thomas A. Edison heads the list with 711. Next in order, Elihu Thompson, with 394; Francis H Richards 345; Edward Weston 274; Charles H. Schriener 248; Charles J. Vanderpoole 204, and George Westinghouse 217. The inventors of Canada are beginning to realize that the United States offers a vast field for the development of money making inventions. The following Canadians who have recently been granted United States patents are kindly reported by Marion & Marip, Patent Solicitors, New York Life Building, Montreal: Geo Chicholm, Sault St Marie, Mich—Children's carriage; Thos J McBride, Brimley, Mich, Car couplings; Richard C Goff, Charlottetown, P E I—Ice creepers; Samuel W Butterfield, Three Rivers, P Q—Wood sawing machine; Wm V Chisholm, Ashdale, N S—Wrenches; Joseph A Dion, Montreal, P Q—Cooking utensils; Wm McDonald, Halifax, N S—Duplicate design displays; J R Lavigneur, Montreal—Door stop and catch combined; Adelard Lapierre, Montreal, P Q—Sleeping Bags. Paul H. Trethewey, Muskoka Falls, Ont—Guards for freight cars. Aurele N. el, Father Point, P. Q.—Oar Lock; Arville Guilbault, Montreal, P. Q.—B-stand. Abram Brodsky, Montreal, P. Q.—Process of treating paper paris moulds. L. C. Henson, Eagle Bend, Minn.—Door checks Alexander Marengo, Montreal, P. Q.—Cigar Making machine. Onime Galarneau, Montreal, P. Q.—Ice Creepers

Earncliffe Notes.

The death of Mr. Stewart Mutch on the

22nd of May was one of the many sad events that have occurred here during the past few months. Mr. Mutch was in his 49th year, and leaves a widow and four young children to mourn their great loss. He was one of the most highly respected gentlemen in this Province, being honorable and just in all his dealings, courteous, obliging and kind to all, and with a cheerful disposition that made him a general favorite. One of his many virtues was his great unselfishness—a rare virtue nowadays, when so many people seem to be living in little worlds of their own, thinking little and caring less for the feelings of their fellow men. Mr. Mutch's funeral to the Baptist Cemetery at Lot 48, on the 24th inst., consisted of 84 wagons the last tribute of respect that could be paid him by his large circle of friends and acquaintances.

On the 3rd inst., Mr. Austin McGilvary,

of Cherry Valley, passed away after about eleven months of intense suffering, the result of an injury to his back received by being violently thrown from his wagon by a frightened horse. Mr. McGilvary was a very popular and talented young man, and will be greatly missed by all.

Our lobster factory under the skillful

management of Mr. Fred B. McRae, is doing good work this season, large catches of lobsters being taken every day. Mr. McRae is one of the most enterprising, talented and popular young men in the country and is looked upon by many as one of our next representatives from the district in the next Local House. Mr. McRae's nomination as one of the candidates of this district, would arouse great enthusiasm among our young men, and with a good colleague he would sweep the district.

The bridge which Mr. Thomas McPhee

placed across McInnis' creek is proving a great convenience to the travelling public who are no longer under the necessity of "swimming the creek" when crossing a high-tide. In view of the utility of this bridge as a public work, the opinion has been expressed that Mr. McPhee should get a small grant from the Government. Now would, doubtless, be a good time to make an application of this kind, when the "golden stream of blood money" is flowing into the treasury. But we doubt as to the success, seeing that, during the past eight years the Government have spent on keeping the roads and bridges in Earncliffe in good repair, the large sum of three dollars and ninety-one cents; and we must not achieve a reputation for wanting the earth, by asking for more money. We intend asking for a coal-mine or two, but not till the next election.

DRILL SHED.—No. 2. Co., G.A., meets at

the Drill shed to-night at 8 o'clock in uniform.

POLICE COURT.—One drunk—Angus

O'Hanley—figured before His Honor this morning. He was fined \$2 or 10 days.

THE PROBS.—Light winds, cloudy and

cool. Thursday light to moderate winds, fine weather.

Local and Other Items

DEATH OF AN ISLANDER.—James Shea,

a Prince Edward Islander, died at Somerville, Mass., on the 2nd inst.

THE DRAMA.—Hart Hall's Metropolitan

Stock Company, are enquiring for date at the Opera House in July or August.

LOB-TER.—The Journal says a falling

off in the lobster catch is reported in the Egmont Bay and Summerside districts during the past few days.

IMPORTANT MEETING.—The ladies of

Grace Church congregation are requested to meet at the par-sonage on Thursday evening at 7.30 for very important business.

ENTERPRISE.—It is pleasing to learn that

Mr. C. R. Dickie has a new store up already and is preparing for the erection of a new residence. Such enterprising and able men as Mr. Dickie are not greatly deterred by fires or like misfortunes.

GIRLS SCARC.—It is said that there is a

"girl famine" in Manitoba, and that domestics can easily get from \$16 to \$20 a month; cooks \$25. A number of Scotch girls were imported last year, but they nearly all got married.

CITY COURT.—The City Court was in

session this morning. The most important case was a dispute regarding the ownership of a bicycle, which was adjourned until Monday to enable both parties to the suit to produce further evidence.

TIGHER ANNIVERSARY.—The parish-

ioners of Tigher intend holding a grand festival and tea party on the 19th July next to commemorate the 100th anniversary of the founding of their parish. Special trains will run from Charlottetown and Summerside for the occasion at greatly reduced rates. For further particulars watch this paper.

UNFORTUNATE.—Mr. Joseph Perry had

the palm and thumb of his right hand badly cut and torn by a circular saw, in his mill at Muddy Creek, one day last week. The injury was a very painful one, and will lay him up from work for some time. Mr. Perry also lost a cow, a few days ago, in a swamp or bog.—Summerside Journal.

THE DRAMA.—On Tuesday night, June

22nd, in the old church building at Kinkora, the popular play of "Captain Jack, or the Irish Outlaw" will be performed by a capable company. There should be a good attendance as the night will be a moonlight one, thus enabling people from a distance to take in the show. Admission 15 cents, reserved seats 25 cents.

NATURAL HISTORY SOCIETY.—At the

meeting of the Executive of the Natural History and Antiquarian Society, last night, it was determined to have the annual "outing" at Gallas Point, on Saturday, 17th inst. Members and their friends may obtain particulars from the secretary, Mr. Watson, who would like those wishing to participate to make application to him at their earliest convenience.

RICH GOLD STRIKE.—A rich strike of

gold has been made at Montague, one of the best producing camps in Nova Scotia. The discovery was made in an entirely new quarter of the district, and there is much excitement in mining circles. Montague has contributed some millions to the total output of the province. The new lead is nearly two feet wide and shows free gold in large quantities. Rod McDonald, a well known Haligonian, spent \$11,000 in locating the lead.

CRICKET MATCH.—Cricket is apparently

going to boom this year. The first innings of the first match of the season was played at Victoria Park last evening. The match was between two boys teams, the Diamonds and the Junior Abegweits. The former scored 28 runs, and the latter 18 runs. For the Diamonds, Eric McLean made 16 runs and for the Junior Abegweits Wm Houle made 9 runs. A large number of the younger sports were out to witness the game. Mr. Eustace Haviland and Mr. J. M. Sullivan were the umpires. The second innings is to be played tonight at 6.30.

Are You Superstitious?

Some folks who believe in signs will tell you that it is unlucky to fall overboard on

MONDAY or to take hold of a buzz saw in motion on

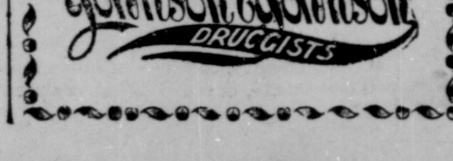

TUESDAY or to fall down stairs with a scuttle of coal on

WEDNESDAY or to sit down to dinner with twelve others, and only food enough for ten on

FRIDAY

But they all agree to the fact that it is unlucky to buy drugs that are not strictly pure, any day of the week.

We sell strictly pure drugs Don't be unlucky.

POLISH-OLOGY...

The plague of fine leather is thirst—The finer it is the drier it is, and the drier it is the more it needs fibre-food polish.

Any shoe polish that shines without brushing is a varnish—and varnish or waxy dressing must burn leather, seal up its pores and crack it.

SLATER SHOE POLISH is made to protect Slater Shoes, by people who know what leather needs and who dare not advise poor polish on the shoes they guarantee. It contains no wax or varnish, and is equally good for women and children's shoes.
