

CHINA - Summerside

For many years Holman's has been one of Prince Edward Island's leading suppliers of fine English China of all types. Those who marvel at the design and the quality of the merchandise in this department of the store will be interested to know that Holman's imports all its china direct from England. This was a policy which was established many years ago and one which assures the Island firm of the highest standards of merchandise. The United Kingdom has always been the main source of supply for Holman's china items. In Summerside the china department has been located in the same spot since 1914. However, the merchandise has been modernized every step of the way and only the newest display ideas are used to show off items. Holman's buyers are also constantly on the alert in their efforts to make the best selection of items. This year the china department of the Charlottetown store has been moved from the first to the second floor. This has been done as a service to the customer. It was felt the shopper would be given a better opportunity to browse around and make their selections without being hindered by general store traffic.
