THE INDUSTRIAL EXHIBITION.

Having promised so to do, I will try and give you a brief description of the Exhibition, for if I were to go into details it would take many more than this sheet of paper to contain them.

THE NEWS.

The English reformers are far from being satisfied with the very large measure of reform gained at the last session of the Imperial Parliament.

The expedition to Abyssinia has been very properly called a "leap in the dark." It seems that those who were expected to know most about the country and the manner of carrying on war in it, are almost as ignorant of the state of the country as those who make no pretensions to superior knowledge.

The origin of this quarrel is rather singular. As usual a woman is at the bottom of it. The black king Theodore, hearing the most favorable reports of her Majesty Queen Victoria, and being also informed that she is a widow, had the modesty to "propose" to her through the British Consul, Cameron we think his name is.

Turning to the opposite side of the passage way, some specimens of fancy work in the shape of card cases, paper cutters, boxes in two pieces of statuary in marble, a head and a fancy ornament, Tinware, &c. I was much pleased with some specimens of stereotype plates, by Mr. G. Bremner, the first attempt of the kind on P. E. Island I suspect, and the more to the credit of Mr. Bremner.

Turning to the right of the entrance, our ears were saluted by the various and somewhat discordant noises of the Poultry, exhibited in coops. The arrangement for the show of them was not what it might have been. They did not shew to advantage. The appointment of the old maxim "never sell your hen on a rainy day" was here exemplified.

I must not pass over a new vegetable production, I mean new for the Island, broom corn, grown and ripened in the open air. I shall be glad to see the growth of it increased. Among the vegetables were specimens of willow work, woven as well, and of as good material as any ever imported. I was more especially pleased with the show of fruit. The apples, pears, and plums, were far finer and in greater numbers than I ever remember seeing produced at any of the horticultural exhibitions.

way in which I could show better than by words my fervent sense of the friendship which has rescued me from my horrible prison."

Mr. Rawson silently pressed his hand. "I am only too happy," he said, with a little formal politeness, as if to check any further outpouring of thanks. "I was perplexed at first," he went on, in a more genial tone, "to account for your disappearance. I feared you had been entrapped by robbers, and murdered. The visit of the government officials to inspect your baggage threw a clear light on the matter. I remembered the unfortunate freedom of some of your political remarks to myself, and feared you had been equally unguarded with others."

(To be Continued.)

As an evidence of the extraordinary growth of vegetation in Florida, it is mentioned that a single tomato plant, spreading like the banyan tree, has entirely covered a bed eighteen feet square. It had produced about six bushels of fruit up to the latter part of August and was still producing a bushel or more being on it sometimes at once.

CAUTION TO FARMERS.—On Monday last, John Tobin, Esq., of Sebastopol, lost a valuable young horse. The cause has been solely attributed to leading "second crop," which produced inflammation, and the driving to Luenburg in this state caused his death in five minutes after gaining the stable. Doctors and Veterinarians account for it on scientific principles.—Bridgewater Times.

It is estimated that 8,600 of the business men of New York live in the neighboring towns and enter and leave the city daily by the cars. The neighboring towns call this kind of population New York Boosters.

England has imported twice as much wheat this year as last, and three times as much as in 1865. But 8 per cent. came from the United States, though the amount this year was nearly five times as much as in 1866.

Latest by Telegraph!

London, October 11th. Admiral Farragut was the guest of Prince de Joinville at Clermont yesterday. The United States squadron, with Admiral Farragut on board will visit Portsmouth this week, after which the whole fleet will proceed to sea.

Livepool, Oct. 11th, (eve). The firm of Campbell & Sons, brokers, have suspended payment.

London, Oct. 11th, (eve). Judge Blackburne and Mellan have been appointed by the Crown to sit as a special commission for the trial of the persons implicated in the riots at Manchester.

Ghent, Oct. 11th, (eve). A well-informed journal of this city says that Cardinal Antonelli addressed a note to the European powers in which he charges the Italian Government with actual concurrence in the revolutionary movements against Rome.

London, Oct. 11th. Reports from Paris say that Napoleon complains of delay of the Austrian Government in completing the military organization of the Empire.

Consols 94; 5-20's 61 1/2. Breadstuffs and provisions quiet. Gold, (N.Y.) 144 1/2.

London, Oct 10. The excitement about Fenianism in the north of England is unabated. The Government continues its precautions against an outbreak. Another detachment of regular troops are under orders to leave by railway for Cumberland, to garrison the castle.

Orders have been issued from the Home Office that all memorials belonging to the Volunteer forces be guarded, and placed in a condition of defence.

It is generally believed that the Government will call Parliament together on the 17th of November.

Florence, Oct 10th. There was another battle yesterday between the Garibaldians and Papal forces near Montalella. It is reported that the invaders were defeated, but no reliable account of the repulse is given. Men of the party of action here assert that the invasion will soon break out in the city of Rome itself. They say preparations for this purpose are complete, and the leaders of the movement in Rome are acting in concert with the invaders in Viterbo and elsewhere.

A large amount of counterfeit seventy-fifty bonds have been discovered recently upon the market. They are well executed, and liable to deceive.

Vienna Oct. 10. The Municipal Government of this city have presented a petition to the Emperor praying for a revision of Concordat.

Toronto, Oct. 10. The first meeting of the Government of Ontario was held in Rossia House yesterday; all the members were present. It is understood that nothing of special interest was before the council.

London, Oct. 11. The Emperor says the Pope is confident of the ability of his forces to successfully resist the struggling parties of the invaders. He greatly fears that the Italian Government will yield to the popular outcry, and order its troops concentrated on the Papal frontiers to march upon Rome and occupy the city.

The Standard of to-day published a letter which it declares to be genuine, addressed by the Emperor to the Marquis de Lavallette, his Minister of the Interior, and written in August 1866. In this letter the Emperor distinctly declares that he had no desire to interfere or profit by the reconstruction of Germany.

The insurgents and invading parties in the Province of Viterbo have concentrated at Tormose, where they have thrown up entrenchments, many other places in the Roman territory have been occupied by Garibaldians. Several detachments of Pontifical troops have been sent out to dislodge them, and the Garrison of Rome is very small. A strong Papal force had left Rome to prevent a junction of Meriote Garibaldi and the parties under his command with the insurgents at Tormose. The plan of the Garibaldian leaders seem to be to draw the soldiers of the Pope away from Rome, and thus give their party in that city an opportunity to rise.

Arrangements have been completed for a meeting between the Emperor Napoleon and the King of Prussia at Biarritz, and the city of Baden has been fixed upon as the place where the interview will be held.

There is trouble in Italy. Garibaldi has been sent home, but his admirers and followers are full of fight, and are bent on making Rome the capital of United Italy.
