

SIR JOHN McDONALD, sailed for Canada on the 16th inst.

The Governor General is attending the Montreal Exhibition.

PRINCESS LOUISE will visit Scotland before returning to Canada.

The rising of the Nile, several weeks later than usual, excites anxiety in Egypt.

UNHARVESTED crops in various districts in England have been greatly damaged by recent heavy rain, gales and floods.

"LA CANADIAN" is authority for the statement that Hon. Mr. Langevin will soon be made a baronet.

The Employers on the Canadian Pacific Railway, Manitoba, are on the strike, and the newspapers say this is a sign of advancing civilization.

QUEEN VICTORIA, is now at her Scotch Estate. She paid a visit to the pensioners there, who received her with exclamations and tears.

DAVIS, (Republican) has been re-elected Governor of Maine, notwithstanding all the fuss made by Democrats on the Maine victory. The Boston Traveller is of opinion that the Maine Electoral vote, will be cast for Garfield and Arthur.

The French political wheel has again turned. DeFeyciaent, the Premier, has resigned and Jules Ferry has been asked to form a new Cabinet. Ferry is well known as a journalist, statesman, diplomatist, a former Prefect of the Seine, &c.

The first mass meeting of the Republicans of New York city was held on Friday last. Senator Conkling was the orator of the occasion. He made one of his ablest speeches in review of the political situation.

The Odd Fellows of St. John, N. B., are a live, active and progressive body. They have a thirty thousand dollar building, and also a twenty thousand dollar mortgage upon it. Finding it undesirable to hold so much property, they wish to retain the former by sacrificing the latter. With this end in view, they have organized a gigantic bazaar, concerts, &c., to take place during exhibition week and, numerous attractions being promised, they feel confident of that success which they so well deserve.

MAUD S. TROTS A MILE IN 2.10 1/2.—The performance of Maud S., at Chicago on the 18th inst., in face of numerous disadvantages, is set down as the most remarkable in the history of the turf. It was nearly six o'clock and growing dark when Maud S. was brought on the track, the sky cloudy and a south wind blowing. A the first send off Maud S. soon left her feet, and her driver, Phair, turned her back for a fresh start. She then trotted to the starting point square and level, and as her driver nodded for the word quickly lengthened her stride and got to the quarter in thirty-four seconds. It was then believed impossible for her to do better than 2.16 or 2.28, but when she got down to the second quarter at 30, the fastest quarter on record, there was breathless interest and expectancy. It was feared, however, that the strong head wind when she turned would slacken her speed materially and render it still impossible to win. She kept straight forward, however, without break or skip, and marked the three-quarters pole in 1.36. Phair urged her gently with voice and whip and she responded gamely, and the multitude was breathless as she went to the final quarter and thundered down the homestretch in 2.10 1/2. Time by the quarters: first, 34 seconds; second, 30 1/2 seconds; third, 31 1/2 seconds; fourth, 34 1/2 seconds. Loud cheers greeted the mare, her driver and manager, as they went to the stable.

ACADEMY OF MUSIC.—The Two Orphans was played last evening. The piece is one of those heavy melodramas that requires the most elaborate stage settings and scenery, and is consequently ill adapted for general presentation. The manager has certainly strained every nerve to put the piece on well, as regards scenery and effects. The first scene looked particularly good and the other sets were fair. There were necessarily a few hitches and contretemps which, as it was a first night, should be ignored. The piece achieved a decided success. As regards acting, it was generally good. Miss Louise Forster was full of pathos as the Blind Girl. Miss Violet Campbell sustained a double role, well. Miss Cutler was simply immense as La Frochard. Mr. Morris is too slow for the Chevalier, as his sentences are long drawn out, and there is no contrast with Pierre. Walsh was better than ever as Jacques. We noticed a member of the Press as one of the characters, and he played admirably. The whole cast was efficient. Mr. Lindley announces a repetition of Two Orphans this evening, and he may congratulate himself on being able to place a latest success satisfactorily before a Charlottetown audience. Dion Boucicault's "Inshavogue"—an Irish drama, in which the rock, set, and rescue, is pronounced the most sensational on the stage.

THIEF OF \$7,000.—A Montreal despatch states that while J. A. Padden, paying teller of the Bank of Montreal, on Saturday, was momentarily absent from his desk, an unknown man stepped round it, picked up a package containing \$7,000 and quickly disappeared. The theft was discovered almost immediately, but the thief was still at large on Monday.

Prince Edward Island's Exhibit.

(Eye-witness in Montreal Gazette, 18th.)

One of the most pleasing features of the fair yesterday, to your Eye-witness, at least, was the collection of horses from Prince Edward Island. Too much praise cannot be given to the enterprising residents of this distant Province, which has been so justly called the Garden of Canada, for the show they have sent. It includes most of the cereals and other grains of the country, and specimens of the canned fish which has become so large and so valuable a branch of trade. But, most attractive of all, it includes, also, some splendid horses. The island province has long given special attention to the production of well-bred horses, and this has been fostered by the Government, who have established a stock farm for its encouragement. In order to improve the horses a good many valuable animals have been imported from England, and the result has been that Prince Edward Island possesses as fine horses as are to be found in the Dominion. Mr. Gardiner, who was appointed commissioner for the purpose of preparing this exhibit, has been at great pains to procure such a representation of the Island as shall do credit to the enterprise of this province, and he is very cordially to be congratulated upon the horses he has brought over. Your E. W., along with many hundreds of others had an opportunity of seeing the seven horses that have been sent here under the care of Mr. Gardiner. They were brought out for exercise, and notwithstanding that they had travelled in the cars for twelve hundred miles, they won golden opinions. Three of them were especially beautiful animals, with fine action and forms, that were as nearly perfection as can be attained. The others, cart horses, were of course, a great deal heavier, but there was a power and symmetry in the limbs that spoke volumes in their praise. Your eye witness noticed many practical men assembled round the ring for the few minutes that the horses were exercised and he gathered that he was by no means alone in the opinion he entertained of the quality of the animals. Indeed Prince Edward Island bids fair to bear away the palm for its breed of horses, and if it can merit it, why all the Dominion will be glad to award it to so plucky go-ahead a people.

(From the Gazette of the 18th.)

Yesterday afternoon the horses that have been sent up from Prince Edward Island as a portion of their contribution to the Dominion Exhibition, were taken out to exercise in the ring. The animals, seven in number, were a capital lot, and were the centre of attraction during their exercise, their fine points being carefully examined and warmly eulogised. They consist of the following: Suffolk Punch, an English horse, dark chestnut, seven years old, and weighing about 1,650 pounds, and standing 16 1/2 hands high. This animal was imported about four years ago, having before that taken three first prizes at agricultural shows open to all. It is the property of the Government Stock Farm, Dufferin, a four year old, is a beautiful thoroughbred bay horse, 17 hands high, and weighs about 1,150 pounds; its dam and sire were both imported from England, and he also belongs to the Government Stock Farm. Harry Morgan, a four year old grey, 16 1/2 hands; and 1,250 lbs in weight. Was bred and is owned by Mr. Thomas Rood of Cherry Hill Farm, P. E. I.; his sire was Royal Harry and dam by Walker's Morgan. Harry Messenger, a bay carriage horse, four years old, is 16 hands high and weighs 1,100. His sire was by Royal Harry and dam by Barb Messenger, and was bred and is owned by Mr. Henry Craswell of St. Eleanor's, P. E. I. General Matchfield is a bay stallion five years old; sired by the Cleveland bay horse Blucher, the dam was by the imported thoroughbred Sultan. It stands 16 hands high and weighs 1,300 pounds, and is owned by Mr. C. A. Mitchell of Village Green. Blackfoot, a black four year old, is 15 hands high, weighs 1,050 lbs; sired by Don Juan and dam by Deerfield. Was bred and is owned by Mr. Norman Macleod, of Belfast, P. E. I.

All of these animals are of wonderful symmetry, and although they had travelled so long a distance and had not been specially prepared for exhibition, they were a splendid representation of the Province.

Weather Bulletin.

Probabilities for the next 24 hours for the Maritime Provinces

TORONTO, Sept. 22.  
Fresh to brisk westerly to Northwesterly winds, fine cool weather.
