## Pine Hill Professor Discusses Problems Of The Middle East

"We shouldn't be so much interested in where the blame lies or in any recriminations at this time. The problem of how to ensure stability in the Middle East or 'where do we go from here', should be our chief concern", said Dr. John B. Hardie, professor of Old Testament History, Pine Hill Divinity Hall, speaking at the December meeting of the Prince Edward Island Canadian Club last night.

Dr. Hardie in an analysis of the Middle East gave his hearers a comprehensive picture of the area from the standpoint of geography, religion, politics and its social structure.

Dr. Frank MacKinnon presided at the meeting which was attended by His Honor, Lieutenant-Governor Prowse and Mrs. Prowse, Premier A.W. Matheson, His Worship Mayor Stewart and Mrs. Stewart. Other head table guests included Brigadier G.G.K. Peake and Mrs. Peake, Mrs. Frank MacKinnon, Rev. and Mrs. T.H.B. Somers.

"The Middle East is suffering from a bad case of growing pains", said Dr. Hardie. "This problem of being pitchedforked from the middle ages into the twentieth century during the last 48 years has made it difficult for them to establish a democracy. Men who can run a democracy just cannot be produced in that short period of time."

The speaker pointed out that Turkey went from despotism through dictatorship to democracy and expressed the hope that other eastern countries might follow her example.

"The Middle East is the heartland of 400,000,000 people of the Muslim World stretching from Morocco to Indonesia. It holds the land bridge between Asia Europe and Africa", said the speaker. "It also holds the great Persian Gulf oil basin containing two thirds of the world's proven oil resources."

**KEY TO RUSSIA**  
"It contains the key to the Southern borders of Soviet Russia between the Black and the Caspian Seas", continued Dr. Hardie, who stated that the four hundred million is the only block which is uncommitted to the Soviet Union.

Dr. Hardie said that at present the Middle East is disturbed by three factors: (1) An immature nationalism which is negative in its outlook and petulant in its expression. As an example he cited the closing of the Iranian oil fields and the blocking of the Suez canal. (2) Establishment of the State of Israel which is regarded by Arabs as a new Imperialistic threat. (3) The Russian expansionist ambition directed towards gaining a foothold in the Middle East.

"So far the Russian threat has been warded off by a natural religious antipathy to Communism", said Dr. Hardie, "Arab countries however have played Russia against the West in the balance of power and the danger, as in Syria today, is that this policy may result in Russia outflanking Turkey by a penetration of some of the Arab countries farther south."

Speaking of the Arab as an individual, Dr. Hardie described him as a talkative, pugnacious but nevertheless very likeable person. He is strictly a traditionalist and will not change his ways easily. He recalled that during his stay in the Middle East where he left nine years ago, the Arab still continues to use the same methods of tilling the soil as were used by his ancestors before Christ. Threshing is still carried on in the primitive manner of that day.

**SLIM GROUNDS**  
"The Arab is the patriarch of his own home. He expects and receives complete obedience from all members of his household", said the speaker. "Divorce may be legally obtained by repeating one word three times in a public place, and may be sought on such grounds as a burned dinner, slighting remarks about his parents or the fact that his wife would look at another man."

"An Arab is proud of his honor but it does not necessarily follow that he is honourable", said Dr. Hardie who went on to describe

him as one of the cleverest thieves in the world. "Not only will he take what is in your pocket, he will take your pocket and all".

On the other hand, Dr. Hardie pointed out that the Arab will treat a guest with the highest honour. "When you are his guest you are in a different status and he would literally die to protect you".

**POSSIBLE SOLUTION**  
As a means of bringing about a solution to Middle East problems, Dr. Hardie outlines three suggestions: (1) The West has to make the sacrifice of learning to treat Arab countries as equals not as inferiors. (2) There must be concerted Western action generally to evolve a coherent Middle Eastern policy and particularly to settle the Israeli question authoritatively. Both Egypt and Israel must be told what they are expected to do if they are to continue to exist and they must be made to adhere to these orders. (3) Strengthen the already existing Baghdad Pact not by trying to drive Arab countries into it but by letting them be attracted to it by their own advantage.

**BIRTHS**  
**LARTER**—At the P.E.I. Hospital on December 5th, to Mr. and Mrs. Allison Larter, City, a son. Weight 8 lbs. 5 ozs. George Henry Smith.

## For Geology Chair At Acadia

**WOLFVILLE, N.S. (CP)**—Acadia University President Watson Kirkconnell says part of a \$250,000 contribution made to the college by Toronto mining executive Carl J. Saunders will be used to establish a chair of geology.

Dr. Kirkconnell said some of the money will also be used to underwrite salaries and expenses of the geology department. It has not been decided how the balance will be spent.

Mr. Saunders' donation to the university last week was described by him as "an unsolicited, unrestricted gift." He is a former president of Canadian Minerals Ltd.

## 487 Donors Required Today To Reach Prov. Objective

Both the afternoon and evening sessions of yesterday's Red Cross Blood Donor Clinics held at The Clover Club in Charlottetown were exceptionally well attended. A total of 354 of the expected 400 registered bringing the results of the first three days to 1,013 which is 87 behind the number required. This deficit can be made up at today's three sessions if the same rate of attendance as yesterday's can be maintained between 10:30 and 11:30 this morning when there will be a Special Session for representatives of Retail Merchants, between 2 and 4 this afternoon and between 7 and 9 this evening.

Helpers at yesterday's Clinics included the Ladies' Auxiliary of the Charlottetown Branch of the Canadian Legion the St. Elizabeth's Aid, the Charlottetown Business and Professional Women's Club, the Association of Nurses of P.E.I. and the Queen Charlotte High School Red Cross.

Music was supplied by Burke's Lads and Lassies Pipe Band.

## STARTS TRUST FUND

**FREDERICTON (CP)**—Wendell H. McGeathy, whose six-year-old son hasn't heard his parents' voices since he was six months, said Monday he has started a "better world fund for dear children." Mr. McGeathy said he deposited an initial contribution in a bank here and hoped others would support his project. The money will be held in trust until formation of an association to use the money to educate and assist deaf children in leading normal lives.

## Successful Campaign By Welfare Bureau Reported

Over \$8,400 has been realized by the Protestant Welfare Bureau campaign, with some amounts still to be received from certain areas. This information was reported to the regular monthly meeting of the Bureau held at the U.M.C.A. last night. The President, Edwin C. Johnstone presided.

The Board expressed their satisfaction with these results. It was noted that the women's canvass produced \$2,000 of this amount.

Mr. Johnstone stated that due to financial reasons, and because of the small staff of the agency, the bureau would be unable to carry

out an extensive Christmas program, but would devote its efforts to coordinating the Christmas-giving of all Protestant groups.

Mr. Walter Baker, the executive director, announced that 23 new cases had come to the Bureau during the month of November, an increase on nine over the previous high month. He stated also that 91 counselling interviews were held with clients, an increase of 44 interviews in comparison with the October figure.

## Judgement In Chancery

Decision in the affirmative was given by vice-chancellor George Tweed in the Court of Chancery in dealing with two questions arising from the release of interests from a trust by one of its tenants, William Whitney Straight, of London, England, and New York.

The trust had been created by Mr. Straight's mother under the will of Edward and Anne Straight by a deed dated December 3, 1936. Action yesterday dealt with the two questions created by the release.

(1) Has the said William Whitney Straight by the instrument in writing under his own hand and seal, dated June 18, 1956 and on that day delivered to Luke B. Lockwood and the United States Trust Fund, as trustees of the said separate trust for his benefit under the said deed dated December 3, 1936, effectively and irrevocably released and surrendered to the said trustees his life interest in the said fund as described in the said instrument.

(2) Has the said William Whitney

ney Straight by the said instrument dated June 18, 1956 effectively and irrevocably released whatever power he may theretofore have had by virtue of the said deed dated December 3, 1936 over the released fund.

It was left with the Court to decide who and in what order the future beneficiaries would be.

Mr. J.O.C. Campbell appeared as solicitor for the plaintiff, Mr. Luke B. Lockwood and the United States Trust Co. of New York. Appearing for defendants William Whitney Straight, Kathryn Dorothy and Marian Beatrice Ash, and Ruth Whitney Ash, was Mr. Somerset Trainor, in the stead of Mr. H.P. McPhee Q.C. who was absent due to illness. Appearing for Camilla and Amanda Straight were Mr. F.A. Lerge Q.C. and Mr. R.R. Bell, Q.C. Mr. M.A. Farmer Q.C. represented the infant defendants David, Micheal, Susan and Diana Straight, Gary and Anthony Cookson.
