

Delicate Surgical Operation.

Some months ago we referred to the removal, by Dr. J. R. McLean, of a diseased eye from a little girl. As we predicted at the time, the result has proved most satisfactory although the case was one of the most critical known to oculists.

Among the many cases Dr. McLean has treated since—his patients some weeks numbering nearly 200—was that of Mr. Thomas L. Wood, Port Elgin, a blacksmith, who, about 8 months ago, received a piece of steel in one eye, which penetrated the outer coating as well as the colored part, lodging well inside the eyeball. A slow, chronic, inflammatory process set in which has caused pain ever since, with gradual failure of the sight.

Dr. McLean was consulted a few months ago when he predicted the loss of the eye, and as the steel was past recovery, advised removal of the organ to prevent the sympathetic inflammation of the other, which would otherwise result, depriving him entirely of sight. The patient delayed until Thursday night of last week, when he was awakened by unusual pain in the eye, and in the morning found it sightless. He came immediately to Dr. McLean, who, with the assistance of Dr. Carrite, after the administration of either by Dr. E. P. McLean, removed the eye. The surgical operation occupied but seven minutes, while the whole treatment was concluded in 17 minutes. On Sunday morning Mr. Wood rode home—a distance of 20 miles—in a carriage, feeling but little the worse, and has since been doing exceedingly well.

Since the Dr. has so thoroughly established his reputation here as fully competent to deal with all cases in which the eye, ear and throat are involved—specialties in which he has successfully practiced for years in the United States—he has been besought on all sides to remain here and abandon his intentions of returning to that country; and we do not believe he could adopt a more humane and patriotic course than to yield and settle down in his native country.—*Amherst Gazette.*

Sitting Bull and his entire herd is now, it appears, south of the boundary, and in communication with the United States authorities on the question of surrender. Canada rejoices to be rid of him and his, though, upon the whole, they have behaved themselves tolerably well while sheltered on Canadian territory. Should the United States Government effect a satisfactory settlement of its Indian difficulties, Canada would feel greatly relieved thereby.

Hanlan is confident of success in the coming race with Trickett. A letter which he recently addressed to a friend in Montreal concludes as follows:—"Trickett thinks he can beat any man that sits in a boat, but when I get him along side of me on the water, and the word 'Go' is given, it will be a race from the start to the finish all the way, if he beats me. I think I am sure to win, if I keep well, and I can assure you that I will do my best on that day to get there first, not only for my sake and for the sake of my friends, but for the honor of the Dominion across the water that I love so well."

The American People.

No people in the world suffer so much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduction of Green's August Flower we believe there is no case of Dyspepsia that cannot be immediately relieved. 50,000 dozen sold last year without one case of failure reported. Go to your Druggist and get a sample bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

Remedy for Hard Times.

Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple pure remedies, Hop Bitters that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

EDWIN BOOTH IN RHEUMATISM.—Edwin Booth suffers terribly sometimes from rheumatism, and if he were not one of the most amiable of mortals, would, doubtless, indulge in vigorous Anglo-Saxon expletives. He takes refuge, however, in a well-smoked corn-cob pipe when the attack is on him, using no other medical treatment than a preparation originally tested by his brother-in-law, J. H. Magonie. This affords him almost instant relief and in place of indulging in profanity when the rheumatism nips him, he calls for Giles' Liniment Iodide Ammonia, which he buys by the gallon. Giles Pills cure Erysipelas. Send for pamphlet to Dr. Giles, 120 West Broadway, N. Y. Sold by W. R. Watson. Trial size 25 cents.
