WRITING LAB

The Writing Lab has been set up to assist students with problems in writing with an emphasis on grammatical structure, paragraphing and expression. Faculty members may refer students who need help, but students may also enroll because they recognize their own need for assistance in writing.

Method: Stress is given to grammatical instruction and writing practice. This can be done on a one to one basis or as a small group.

Place: Student Services

Day and Time: Evenings - to be set up according to student's schedule.

If interested in this service, please contact Student Services for appointment with instructor.
