LATEST NEWS FROM CHINA

Splendid Progress Towards Pekin'

HOW THE ALLIES FOUGHT AT YANG TSUN.

Ministers Ready to Communicate with their Ministers.

[SPECIAL TO THE EXAMINER.]

LONDON, Aug. 10.—In the capture of Yang Tsun the losses of the allies were 200, the majority being killed.

The allies marched on Yang Tsun at dawn on Monday.

The position held by 1500 Chinese was well entrenched to the East of the river.

After four hours fighting the Chinese were driven from their defence works.

The editorials this morning generally incline to view the progress towards Pekin as thus far splendid, but one which cannot be maintained at the present rapid rates at the concentration of supplies and the establishment of bases will cause inevitable delays.

CYPHER MESSAGES.

WASHINGTON, Aug. 10.—Consul Fowler wires that the Tsung Li Yamen announces that all the ministers at Pekin have cypher messages prepared for transmission to their governments. The messages will be sent without delay.

Apprehension at Washington.

WASHINGTON, Aug. 9.—The gravest apprehensions are felt here in official circles for the safety of the imprisoned ministers in Pekin. The alleged statement of Li Hung Chang that it is absolutely impossible for the allies to enter Pekin to escort the ministers to Tien Tsin adds greatly to the seriousness of the situation. It clearly implies the purpose of the Chinese government to resist the advance movement of the allied forces to the full extent of its power, coupled with the further implication that further hostile demonstrations on the part of the allies may jeopardize the lives of the ministers.

So far as known there is no present purpose of calling a halt in the allied movement against Pekin. It is acknowledged that the relief column is not strong enough to maintain war against the Chinese kingdom for any great length of time, but heavy reinforcements are en route to China. Their arrival on the scene may alter the situation entirely and bring the obstinate Chinese to their senses. It is the present situation, however, that worries the administration, and there is general chagrin that it is not in a position to enforce its demands and bring the Chinese authorities to instant terms. In the course of the next two months there will be about 6,000 American troops on Chinese soil, not counting many thousands more that could be transferred from the Philippines in case of necessity. The Chinese will be held to a strict accountability for any injury that may be sustained by American interest in the present crisis. What should be done for the immediate relief of the ministers is the problem now confronting the administration, and it is the subject of anxious conference between the officials in this city and telegraphic correspondence with the president at Canton, and the secretary of state at Sunapee, N. H.

WASHINGTON, August 9.—The navy department has received the following cablegram from Admiral Remy:—
