

Reporters Swarm After Hero Of Game

By PAUL RIMSTEAD
DETROIT (CP) — Reporters and spectators gathered in the Detroit Red Wing dressing room Sunday night, all looking for the same guy, Stanley Yankowski, Newfoundland's No. 1 product.

But "Newfie," as his teammates call him, wasn't there. He was taking bows on the ice having been selected as the star of the game as the Wings dumped Toronto Maple Leafs 2-1 in Sunday night's Stanley Cup playoff game.

"Atta boy Newfie," yelled his Bill Gadsby as Faulkner returned to the room. The reporters closed in on the native of Bishop's Falls. He scored two goals for the Wings, including the winner, and was having his finest night.

In the semi-final series against Chicago Black Hawks, Faulkner scored two winning goals—both also scored in Sunday night games.

"I just wanted to see the reporters," "that we're around long enough to get a score another one next Sunday."

Holds forth in lobby
Punch Imlach, whose Leafs have had their lead cut to 2-1, said he would not be in the dressing room to see the reporter who had scored another one next Sunday.

Does Imlach think Faulkner is an NHLer now? "I would say yes," answered Punch. "He's one of them in the playoffs."

Detroit manager - coach Sid Abel, who answered the bulk of reporters' questions, said that Wings' two losses, didn't have much to say Sunday night. He let his players do the talking.

HIT HORTON
"That second goal," said goaltender Terry Sawchuk, "hit Horton (Tim) while he was standing in the crease and bounced in." Referee Frank Howard was to be signalling that Horton's goal would be allowed but was actually waving the red wings away. The goal stood.

Yv Stasiuk, who missed the last Toronto game and games in the Chicago series with a bruised forehead, returned to the lineup Sunday night and scored a goal.

Asked how his shoulder held up, he said: "I wasn't doing any bombing myself," he answered. "But I was bombed a couple times and I'm all right."

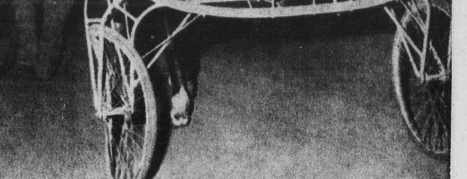

Frank Mahovlich, Leafs winger sidelined in the first game, returned Sunday night. He had been out with a damaged knee and appeared to be strong again.

And Howe had only two shots in the goal of the Scottish Foot. "God it's great when we can win with Gordie having only two shots," said Abel.

GLAD SLIP SHOWED Three Women Rescued After Nine Hours in Car

SUMMERSIDE BUREAU OF THE GUARDIAN
A ladies' slip fluttering from a coat hanger above a snowbank that almost completely obscured a 1963 car containing three elderly women, may have averted a tragedy near Muscouche during Thursday's storm. The car was stuck within a few yards of a garage and a snow-covered short distance east of Muscouche.

The three women, formerly from Conway, and now residing in the United States, were rescued by several Muscouche residents after spending nine hours awaiting assistance. They were rescued by a plow operator but which never came.

SAIL CHANNEL ON BEDSTEAD

DOVER, England (AP) — Keith McKenna, 19, one of two Liverpool University students who sailed across the English Channel on a motorized bedstead, returned from France Sunday night—aboard a ferry boat.

The bedstead remains in France. It has been given to a Frenchman as a souvenir of the 22-mile crossing from Dover to Calais accomplished in three hours to shove the motorized vehicle out of the wind-driven water.

Decimal Currency For Britain Sees

LONDON (Reuters) — Britain may soon swing into line with Canada and the United States in adopting a decimal currency system based on 10 instead of 12 pennies to the English shilling.

Within the next two months, a special committee headed by Robert Temple, this year's Conservative Party leader, will report to Prime Minister Macmillan's conservative government on the possibility of Britain going over to decimals.

The committee, composed of five men and one woman, was appointed in January 1962. If, as experts predict, they advocate British change to the decimal system—used in more than 200 of the world's 237 countries—the government may well start the first phase of conversion by the end of this year.

The most popular decimal coinage system for Britain would be to make 10 shillings the major unit, equivalent to having 10 dimes in a dollar.
