

ASSEMBLY LINE HARVESTING

Combines on a Hutterite colony farm eight miles south of Lethbridge, Alta., harvest

between 15,000 and 20,000 bushels of wheat a day. The 10 combines cover 90 acres in one

trip around a half-section field. The farm has 3,750 acres sown with wheat and is

expected to yield an estimated 100,000 bushels. (CP Photo)

Police Chief Issues Warning

Police Chief Storms Webster announced yesterday that instructions have been issued to members of the force to step up action against both motorists and pedestrians, and that they should take heed of the warning. Chief Webster said members of the force have been ordered to pay particular attention to jaywalkers following notice from City Council recently issued for the almost complete disregard for traffic lights displayed by pedestrians. It was also noted pedestrians were failing to observe the rule regarding crossing streets only at intersections and

thereby creating traffic hazards. The police have also been notified to take action against people littering the streets with papers, wrappers and similar refuse. At the same time the police chief stated the drive against speeders would be intensified with radar being set up and warned motorists to exercise care.

Fisheries Brief Ready

On Thursday afternoon Provincial Fisheries Minister Leo Rossiter will present a brief from his department to federal Fisheries Minister Hodget Robb, Walker R. Shaw will be in Ottawa Thursday for the presentation. Mr. Rossiter is now in Ottawa

Prov. Gov't To Certify Federal Loans

Acting Premier J. David Stewart said yesterday the provincial government which that body has certified as being in order. "We have decided to participate in the fund to the extent that we will certify that municipal borrowings are in accordance with federal regulations," he said. At one time the province was considering "contracting out" of the federal agreement. If this had been done, the province would have had to set up machinery to administer the fund. "In view of the number of projects envisaged," said Mr. Stewart, this would not have been practical. A separate department of government would have had to be created to handle the administration.

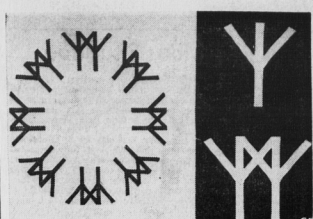

Trawlers' Case Is Postponed

ST. JOHN'S, Nfld. (CP)—The case against two Spanish trawlers, charged with fishing inside Canada's three-mile territorial limit, has been postponed until Oct. 28. The ship, the Estorion and the Estorion, were arrested earlier this month by the fisheries patrol vessel Cape Free in the Trepassey Bay area.

Pope Appeals For Unity

VATICAN CITY (AP)—Pope Paul has appealed for all Christians seeking unity to turn their backs on the past and look to the future. "Our attitude hides no snare," he told a non-Catholic audience. The Pope made his appeal at his first audience for the group of 66 Protestant, Anglican and Orthodox observers from 21 churches attending the Vatican ecumenical council. The Pope told the observers that in view of doctrinal differences still unresolved the move toward unity would be long and hard, adding: "No one today can tell how long it will take." But he said: "For us the best method is to look not to the past but to the present and above all to the future... we prefer now to fix our attention not on what has been but on what ought to be."

WORLD'S FAIR SYMBOL

The figure of a man (top right hand corner) is represented as a vertical line with diagonally outstretched arms, and two such figures are joined together to represent friendship. The arrangement of eight double figures into a circle will be the symbol of the 1967 World's Fair in Montreal. Suggesting the shape of the world but giving priority to man instead of the earth the symbol was created by Julien Hebert, a Montreal industrial designer. (CP Photo)

New Seating Bid Fails For China

By JIM PEACOCK UNITED NATIONS (CP)—Another in a series of annual attempts to seat Communist China in the United Nations in place of the Nationalist Chinese was defeated Monday in the General Assembly, this time by a vote of 57 to 41 with 12 abstentions. A similar move last year was beaten 56 to 42 with 12 countries abstaining. The voting pattern followed the same basic lines as last year with the United Kingdom, India and several Asian and African nations again voting with the Soviet bloc in favor of seating the Peking government. Canada, which did not participate in the week-long debate, and the United States, which again led the opposition to the proposal, voted against.

Costs And Shifting Markets Complicate Paper Problems

By DAVID DAVIDSON NEW YORK (CP)—The giant circulation New York Mirror died last week after the apparent failure of Hearst Corporation promotional surgery to restore its economic health. The post-mortem on The Mirror is raising questions about the general health of newspapers in the United States. Does the demise of the second largest newspaper in the country with a circulation of more than 800,000 reflect a condition common to the industry? Most observers say the industry is expanding but problems of raising costs and shifting markets are making the growth often painful. The trade magazine Editor and Publisher said last week that since the Second World War both the number of dailies in the U.S. and their circulations have increased. In 1948 there were 1,749 dailies with a combined circulation of more than 48,000,000 compared with 1,700 this year selling nearly 60,000,000 copies every day. PAPERS DO WELL E. and P. set out figures showing that in 1962 newspapers did better financially than they had in the last few years. Last year was one of the few since 1945 in which income, on the average, showed a larger percentage gain than expenses. Newspapers in the 25,000-50,000 category last year recorded the largest gain in circulation. The composite increase for all papers was 8.9 per cent.

Produce more Australian wheat production totalled 307,000,000 bushels in 1962-63, nearly 60,000,000 bushels more than the previous year.

PM TO VISIT HALIFAX OTTAWA (CP)—Prime Minister Pearson will visit Halifax next Tuesday and Montreal next Thursday, his office announced Friday. At Halifax he will address a dinner meeting of the Atlantic Provinces Economic Council. At Montreal he will speak at a branch of the United Nations Association of Canada. Of these, 26 became

New low fares enable everyone to see Canada from a scenic dome.

2881 miles of train travel for \$43

Read how Canadian Pacific's **FARESAVER PLAN** makes train travel incredibly inexpensive 7 days a week—even on **The Canadian**

Starting Oct. 27th you can travel nearly 3000 miles on one of the world's great trains for \$43. And you can do it any day of the week. This is just an example of the economy of the **FARESAVER PLAN**. And it applies across Canada on Canadian Pacific.

How the plan works:
If you travel over 520 miles you enjoy low fares 7 days a week. (We show some sample fares below).
If you travel under 520 miles the lower fares are in effect 5 days a week (fares are slightly higher Fridays and Sundays for travel under 520 miles).

That's the plan. Now look at what it gives you on **The Canadian**.
The Canadian, one of the world's great trains. The Canadian is a destination itself. It's the only train in Canada with Scenic Domes, soft music to travel by, and reclining coach seats with full-length leg rests.
Seats in Coaches are reserved without charge, and porter service is provided. The Canadian also features refreshment lounges, coffee shops and dining rooms as well as a wide choice of accommodation. *One way coach—Montreal—Vancouver.

It offers adventure, fun, relaxation and rest. The Canadian travels daily between Montreal/Toronto and Vancouver. Check the fares below and plan a trip. For further information and reservations, call your Canadian Pacific Office or Travel Agent.

Temp. Records Are Unbroken
Despite the temperature rising to 72 degrees Saturday and a mere 49 on Sunday, no new records were established by the warm, summery weather of the weekend.
Neither of these readings, however, could match the 80 degree mark set Oct. 19, 1950, in the weather office at the Experimental farm reported yesterday. The province has had above average sunshine so far during the month, and very little rain. The week of warm weather coming after a spell of unusual cold weather probably allowed for speculation that new temperature records were in the making.

Preparing New Acts

Municipal Affairs Minister J. David Stewart announced yesterday that the government is planning a new Municipal Affairs Act for the province and also a new Highway Traffic Act. The new Highway Traffic Act is being prepared for introduction at the next session of the legislature.

There is no over-all municipal affairs act at present for the province, and municipal affairs are carried out under provisions of at least three acts: the Village Services Act, the Municipalities Act and the Town Planning Act. Commenting on the need for a revised or new Highway Traffic Act, Mr. Stewart said "the act has to be brought up to date in keeping with the enlarged use of our highways. Many sections of the act are now out of date." Mr. Stewart said the committee is now working on a draft of the new act. "It will be examined," he said, "by the Law Society and members of the Supreme Court Bench, before it is ready for legislative action."
