We learn that during the coming summer season the train service will be increased on the Cape Traverse Branch of the Island Railway. Instead of the arrangement heretofore existing, a train will leave Cape Traverse every Monday, Wednesday and Friday morning, connecting at County Line with morning trains for east and west; returning, will leave County Line for Cape Traverse every Tuesday, Thursday and Saturday evening, on arrival of trains from Charlottetown and Summerside. It will be seen that this arrangement will give the section of country traversed by the Cape Traverse Branch largely increased accommodation during the coming season. We also note by advertisement in to-day's issue, that until change of time a train will leave County Line for Cape Traverse every Monday evening, returning to County Line on following morning.

The Myrtle Navy tobacco is not priced with the usual cost which swell the price of most articles to the consumer; the firm employ no travellers whatever, their orders come to them instead of being sought by them. The merchant does not require to keep a large stock on hand swelling its price with interest, for the factory is an immediate source of supply to him, at the cost of a postal card, or at most a telegram. He loses nothing, therefore, from being overlooked. The article is a staple one, for which there is as constant a demand as for wheat or flour, and the merchant can therefore, sell it at a minimum rate of profit.
