A Hard Profession.

Old Dr. Johnson once said, addressing a class of medical students, that the study of medicine was a most arduous undertaking; that the most comprehensive mind and the most industrious student could scarcely do more than explore the portals to medical knowledge during the brief time allotted to study before commencing practice, but that throughout his whole life the responsibilities of his profession should rest upon him like a nightmare.

He should explore every avenue of natural knowledge, must become familiar with chemistry, natural philosophy and natural history, but, above all, he must learn the construction of his own frame, the means by which he lives, moves and has his being. He must understand the nature of all these influences by which health is broken down and restored, and by what means disease, suffering and death may be averted. Dr. Johnson further says that nothing contributes so much to the support of quackery as the present insufficiency of medical knowledge. Men do not, he says, easily abandon hope but as readily put faith in ignorant pretenders as drowning men catch at straw.

"The good that men do in this life lives after them." During the life time of old Dr. Johnson he invented what he knew as Johnson's Anodyne Liniment, a standard family remedy of surpassing merit. This liniment is both for internal and external use and it is safe to say that no single remedy ever discovered has done so much good as has this one. It is inexpensive, ready at a moment's notice night or day and may be used with absolute confidence in the thousand and one ailments that afflict humanity. In the cure of severe cramps or pains in the stomach or bowels, dysentery, diarrhoea it is certainly worth its weight in gold. It has been known to cure cases from ten to fifteen years standing after the sufferers had been given up.

"Just think," said Mrs. Fullish, "the young man who has been in jail six months on the charge of murdering his wife by beating her head to a jelly with a poker, has been tried and declared not guilty." "Not guilty!" echoed Miss Krangle, a tone of keen disappointment; "and here we have been sending him flowers day after day, in the belief that he was a genuine murderer! It is too discouraging for anything!"

Physician Heal Thyself.

TORONTO, June 5th.—A physician of the County of Leeds has written to a friend in this city about his complete cure of an aggravated form of diabetes by Dodd's kidney pills. The doctor in question would not for the world have his learned brothers of the Ontario Medical Council know that he had given countenance to a patent medicine. He humbly admits that some of them would deem it unprofessional conduct for him to take the pills; and to be cured by them—why that is the grossest breach of professional etiquette. But cured he has been, and he is now prescribing them to his patients. Modern physicians admit that diseases such as dropsy, diabetes, bright's disease, neuralgia, rheumatism, female weakness, and kindred blood troubles are caused by the deranged action of the kidneys, and that these diseases are only to be cured by an agent that acts directly on the seat of disorder. This is why Dodd's kidney pills have proved a certain cure to all who have tried them.

The Telephone Company

P. E. ISLAND.

PARTIES using the Telephone could find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you speak loud enough. It is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.

JOHN A. KIMBALL

Neuralgia, St. John, N. B., October 11, 1892.

GENTLEMEN: For twenty-three years I have never been free from suffering until now. Since I began to take Groder's Syrup, my distress from the heart of twenty years standing has entirely disappeared. My distress from a severe constipation has been an unending torture, but your remedy has restored healthy action of the stomach and bowels. Rheumatism of long standing has ceased to trouble me. I am no longer a gloomy, melancholy dyspeptic. There is no ache or pain in any part of my body. My food digests readily, and causes me no distress whatever.

GRODER'S SYRUP, Your remedy, is the first of the kind I have tried that has ever given me any relief, say nothing of a cure, such as I have experienced. I am ready to answer any inquiry concerning this statement. I make this declaration believing the same to be true.
