

Air Routes Are Divided

OTTAWA (CP) — A major declaration of air policy dividing the globe between Air Canada and Canadian Pacific Air-liner was laid down here by Transport Minister Pickersgill.

In a 1,000-word Commons statement, he said the country's two major air carriers have been assigned exclusive zones of the world in which each will be designated the sole Canadian airline.

He also announced that the government will hire a special aviation consultant to study mainline air traffic in Canada and recommend what, if any, additional competition should be allowed between Air Canada and CPA.

Although this held out the possibility of additional cross-country service by CPA, the minister stressed that "there must not be the kind of competition which would put Air Canada in the red."

Political Youth Council Formed

OTTAWA (CP) — In an effort to get more young people educated and interested in politics, the youth groups of Canada's major political parties have buried their partisan hatchets to form a common assault force.

Seventy-six delegates from all 10 provinces answered the call to a weekend seminar here and they formed the Canadian Council of Political Youth—an organization designed to bring the political message to the young people of Canada without a party slant.

Spokesmen said negotiations toward the formation of the council have been going on for seven months. The weekend meetings here resulted in the establishment of a 12-member council—with representatives from most political parties—under the chairmanship of Joe Clark, president of the Progressive Conservative Student Federation. The vice-chairman is Ellen Clarke, representing the Liberal Student Federation.

Delegates from the youth and student wings of the Liberal, Conservative, New Democratic, and Social Credit parties. The Creditiste party was approached but it has no youth branch to participate.

UNIQUE CAR IS DESIGNED

LONDON (AP) — A designer today made public details of what he called the world's first repair-it-yourself automobile.

It will be seven feet long, cost about £200 (\$600), go 65 miles on a gallon of gas and seat five persons, a spokesman said.

"There is still a lot of design work to do," the spokesman said, "but we are already discussing the car with a manufacturer."

The designer is John West who helped turn out the Pacific and Orient liner Canberra. His spokesman said a prototype has been developed at West's design centre in Epsom near London.

"The worry of present day motoring service is the repair delays," said the spokesman for the company. "We aim to eliminate the need for these."

He gave these details: The engine will be sealed for life. When it wears out, it can be lifted from the car, thrown away and replaced by a new one.

This will take 10 to 15 minutes and can be done by the owner in his own garage.

The car will have a glass fibre body. Its color will be impregnated and it will never need polishing. Dents can be repaired with a do-it-yourself kit.

The spokesman said the car originally was designed to replace rickshaws and provide cheap transport in underdeveloped countries. But West now feels "the car can be marketed in Britain and other countries, primarily for use in cities where parking is a problem."

Canadians Urged To Take Trip Centennial Year

OTTAWA (CP) — Canadians should take a "sabbatical year" in 1967 and get to know each other better, State Secretary Lamontagne said here.

The nation's 100th birthday should be a time of reflection for all Canadians, the minister said in an address to the Canadian Museums Association and a time "for all of us to pause and consider how, as a nation, we have reached this present stage and where we hope to go."

Every Canadian should make it a point to visit another part of the country in 1967.

"But it is not good enough merely to take in the touristic highlights. What we must undertake is a real journey of self-discovery."

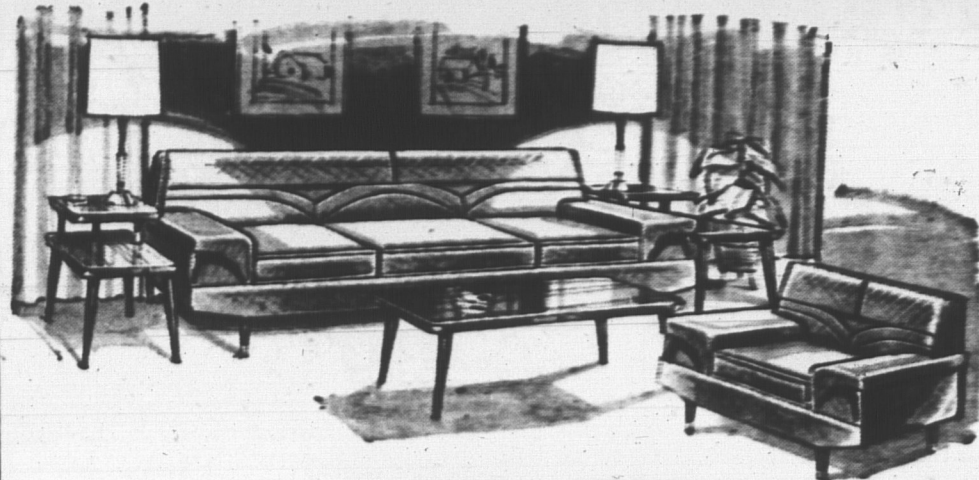

"This could mean for some an extensive trip of thousands of miles, for others a visit just past the next parish. What matters is the quality of our observation. For this we need a clear eye and an open mind."

JUNE FURNITURE SALE

10 DAYS - JUNE 9 - 19

2 PC. LIVINGROOM SUITE IN LONG WEARING NYLON FRIEZE

BROADLOOM CARPETS

WITH ACRILAN - THE FIBRE OF SUPERIOR PERFORMANCE

Broadloom carpets by Harding made with acrilan are the ideal choice. For carpets that must look their best day in and day out despite heavy traffic and soiling conditions. Acrilan resists soiling and staining because it is far less absorbent than other carpet fibres. Acrilan carpets wear longer, have greater resiliency, are moth and mildew proof and are non-allergenic. Here are 3 outstanding values.

COLONY BAY

The very interesting design is a combination of cut and loop pile which creates a two-tone effect. Twelve beautiful colours, all exceedingly fast to light and water, give a wide range of choice for decorating. 9 ft. or 12 ft. width.

Reg. 9.98

8.47 sq. yd.

TIKI

A hardwired texture which provides a compact yet resilient surface that is resistant to crushing and shading and is specially processed to hold its texture. Ten beautiful colours from which to choose. 9 ft. or 12 ft. width.

Regular 11.95

9.97 sq. yd.

HAWTHORN

A hard twist broadloom for the heavier traffic areas. Hawthorn has a compact yet resilient surface that is very resistant to traffic marks and crushing. It is easy to clean and stays new looking longer. Available in 15 beautiful colours, in 12 or 15 foot widths.

Service in the home. We would be pleased to bring samples to your home, measure your floors and give you the spot quotations in rug sizes or wall-to-wall installations.
