Appreciation

I would like to express my appreciation and sincere thanks to the many friends and neighbours for gifts, visits and the other acts of kindness extended to my family and me during my illness. I am especially grateful for the radio given me by the school children and women of the district. This token of goodwill made many an otherwise dull hour bright and cheerful. Only when laid aside can one appreciate such bountiful kindness.
As this joyous Christmas Season approaches, my thoughts shall be with you, and while I am not able to contact you personally, I do wish all my friends a bright and joyous Christmas Season.
Selina O'Halloran, Rice Point.

KEEP THESE IN MIND!

Some of the early signs of cancer are:
A lump in the breast. Unnatural bleeding from a body opening.
A sore that does not heal, particularly of the skin, face, mouth or lips.
Any persistent change in bowel habits such as diarrhoea or constipation.
Many Canadians are enjoying life today because they found that early cancer can be cured.
Keep these danger signals in mind and see your doctor if one appears.
DIFFERENT MEASURES
The freezing point of water is at zero on Centigrade and Reaumur thermometers, compared with 32 degrees Fahrenheit.

He sat up in bed, and the effort produced a shooting pain in his head which surprised a groan out of him.
At the sound, a chocolate-coloured maid, very neat and trim, appeared, displaying a set of flashing white teeth in a generous smile.
