THE DAILY EXAMINER.

OCTOBER 12, 1880.

FIGURES for the fiscal year ended June
30, 1880, just now published officially show
that in the United States there are 104 free
delivery post offices, employing 2,688 car-
riers. New York city has 470 carriers,
Philadelphia 300, Chicago 187, Boston 186,
St. Louis 117, and Brooklyn, 110. The
number of pieces of mail matter handled at
at these 104 offices was 932,121,843. The
total cost of the free delivery service was
\$2,343,693. The service was self sustain-
ing at only four offices.

At St. John, His Honor Lieut. Governor
Haviland proposed that there be held an
Exhibition of the productions of all the
Maritime Provinces. The suggestion is
undoubtedly worthy of serious considera-
tion. The more the people of this portion
of Canada see of each other, the more they
see of each other's productions, the greater
the respect they will have for each other,
and each other's resources and capabilities,
while the wholesome emulation which an
Exhibition will excite, cannot but be
beneficial to all.

The St. John Sun says: "A very good
exhibit of sheep came from Prince Edward
Island, Mr. Albert Boswell, of Lot 49,
showing 10 fine Leicesters. Mr. Long-
worth exhibited 10 Leicesters, 9 Shrop-
shires, 3 Southdowns, and 3 Cotswolds.
These sheep were much admired, and they
were reported on in highly complimentary
terms by the Judges." The Sun also says,
"Prince Edward Island was well repre-
sented in its vegetables, all of which were
very fine, "the biggest beet" belonging to
it.

We are indebted to Mr. Lydiard for the
following statement of exports from
Queen's and Kings' Counties during the
month of September:

Lobsters, Colonial,	\$26,570.	
Foreign,	19,087.	\$45,657.
Other fish, prin- cipally macker- el, Colonial,	\$ 2,640.	
do, Foreign,	48,156.	\$50,796
Miscellaneous, Colonial,	3,705.	
do Foreign,	50,017.	\$53,722
Total,		\$150,175
Exports for quarter end. Sept. 1880,	\$55,776.38.	
Do do 1879,	33,851.94.	
Bal. in favor Sept. q'tr., 1880,	\$21,924.44	

An influential class of Washingtonians
will from this time forward insist on a pas-
sage by Congress of a law prohibiting the
sale of intoxicating liquors in the district of
Columbia. The movement has assumed
shape. An enormous meeting was lately
held at Lincoln Hall, and measures deter-
mined on which will result in bringing
before Congress the most powerful lobby
interest, without cash support, ever known.
The figures given by a speaker at last night's
meeting were as follows "there are in
Washington, 600 restaurants, 60 hotel bars,
120 drug stores, 1200 grocery stores, at all
of which liquor is sold at retail." The effort
to be made at the next session of Congress,
and, if unsuccessful then, to be repeated, is
said to be such as the total abstinence
people of the neighborhood never dreamed of.

The "Haggas elevator," for supplying
locomotives with water, has recently been
added to the plant of the Island Railway.

It seems to be a marked improvement on
the tanks with which the railway was at
first supplied. It does away with the
necessity of pumping water into frost proof
tanks. The water is kept in a tank under-
ground, into which it flows by the law of
gravitation; and a pipe leads from this
tank to the side of the railway track.
When the locomotive comes up to take
water, all that has to be done is to connect
the pipe leading from the tank with a pipe
attached to the engine. Then let on steam,
which exhausts the air in the pipe, and the
water comes up at once. The primary ad-
vantage the Haggas Elevator has over the
tank, into which the water has to be
pumped, is that the first cost and the cost
of maintenance are both less.

M. Tirard, French Minister of Agri-
culture and Commerce, has ordered the
translation and circulation of Messrs.
Read and Pell's report on American
farming.

A fire on Wednesday night, in a worst-
ed mill in Greenock, caused damage to the
extent of £50,000. Nine hundred per-
sons are thrown out of employment.

Speech of the Lieutenant Governor.

HE PROPOSES A MARITIME EXHIBITION.

THE speech of His Honor the Lieutenant
Governor, at the dinner given in the Royal
Hotel, St. John, is thus reported by the St
John Telegraph:—

Governor Haviland, while protesting that
members of his Government should do so,
replied in a happy speech. He would sink
the Governor and speak as a citizen of this
Canada of ours and as a man. He was
proud of the success of this partially Mari-
time Exhibition; he was astonished with
what he had seen in our manufactures of
iron, wool, cotton, leather, wood, etc. It
was clear that we had the elements of inde-
pendence within ourselves, and could have
most of the comforts and even the luxuries
of life without going elsewhere. (Applause.)
Still, continued the Governor, speaking as
a man, and not for any Government, he
would say let us have a bona fide Maritime
Exhibition (cheers); one which the Govern-
ments of Nova Scotia, New Brunswick
and Prince Edward Island should jointly
sustain by grants of money; one in which
their industries, arts and agriculture could
enter into competition (cheers); so that it
might be seen what each could
do best (cheers). At the risk of offend-
ing or being thought invidious, he would
say, let it be held in the ample buildings
and grounds of the Exhibition now in pro-
gress in St. John. (Great Applause.) He
thought in that case Prince Edward Is-
land would do her share. (Applause.)
Turning to general topics, he said he be-
lieved that the Maritime Provinces had
greater influence, more power and wealth,
as part of the great Dominion than when
they were so many separate Provinces,
with so many different tariffs and any
number of petty Custom House restrictions.
Some particular interests might suffer, but
there was a gain on the whole, and our
object should be to develop a national
spirit, utilize our resources and consolidate
this great Dominion. (Cheers.)

Senator Miller spoke for Nova Scotia,
and complimented Governor Haviland, re-
ciprocating his expression of national senti-
ment.

It appears, in regard to the tunnel con-
nection between France and England, that
the boring operation undertaken some time
since at Sangotte, on the French side, is
not the beginning of the shaft from which
the tunnel is to be bored, but is simply an
experimental bore-hole, some 500 or 600
yards above the village, and about 100
yards from the shore. It was found neces-
sary, however, to suspend the work be-
cause of the too rapid infiltration of water,
rendering essential the construction of a
new pump, of double the capacity of the
first one—that is, one capable of raising
some 700 gallons per minute. The actual
shaft for the tunnel, when it is definitely
begun, is, according to the plan at present
contemplated, to be sunk in the village
itself, and to such a depth as the experi-
ments made shall show to be requisite.
The preliminary shaft is to be sunk to a
depth of 260 feet, the diameter of the bore
being eleven feet.

Later details from the North-West
would seem to indicate that a severer
struggle than at first supposed has taken
place between the Canadian and American
Indians. The trouble took place at Mis-
souri Coteau, a range of hills extending
from the international boundary in a
northwesterly direction toward Old Wires
Lake. The Canadians were from Ocean
Man's and White Bear's band, near Moose
Mountain, seventy miles north-west of
Fort Ellice, where they went down the
international boundary in pursuit of
buffalo. The Americans, comprising Man-
dan and Gros Ventres from Montana,
opened fire on the Canadian Indians with
Winchester repeating rifles. The fight was
kept up all day, all the small Canadians
being killed, as well as a number of women
and children. One American was found
dead after the combat. On their retreat
he was scalped, and a war dance took place
over it at Fort Ellice.

C. T. ACT.—At Woodstock, N. B., the
other day, a Mrs. Stephenson, was fined \$50
and costs—in all \$63—for violating the
Canada Temperance Act. Mr. B. S. Appleby
who appeared for the prosecution, has re-
ceived an anonymous letter, in which the
writer threatens to take Mr. Appleby's life
on account of his professional connection
with liquor prosecutions. He closed up his
missive with the following words:—"You'll
hear from me d—soon by a bullet as I'll
have revenge if it costs me my life."
Alliance Journal.

Fever and Ague.

Are you troubled with Ague, Chills and
Fever, Bilious Fever, Remittent or Inter-
mittent fever, Night Sweats or any disease
that comes from Malaria or disordered
Liver and Hot Suns? If so, procure a bottle
of Greer's Ague Conqueror, which is an
acetic extract of strong tonic roots, com-
bined with Sulphate of Magnesia, etc., and
positively contains no Quinine, Arsenic or
other poisons. It purifies the blood,
cleanses the liver, spleen and other secre-
tory organs so effectually that the chills will
not return. We have never found any case
of Fever and Ague it will not cure. Price
50 cents and \$1.00 per bottle. One large
bottle has cured as many as five in one
family. Sold by all druggists and dealers
everywhere.
