That Wearing Tearing Maddening Headache
is often the result of eye strain instead of drugs, in such cases the only reasonable and effectual remedy is
A pair of properly fitted eye-glasses or spectacles, which relieve the muscular strain and therefore cure the headache.
We have made a special study of fitting glasses, and would be glad to have you call on us if troubled in any way with your eyes.

Local and Other Items.

CONDUCTOR UPHAM tomorrow afternoon and evening.
GOSPEL MEETING.—Railway men's Gospel Meeting in Wright's Hall Sunday afternoon at 3.45. Strangers always welcome. Conductor Upham from Halifax, will give a short Bible reading. Come and hear him.
SALVATION ARMY.—To night and tomorrow, Brigadier Margetts, the travelling representative of commissioner Eva Booth will conduct special meetings in the local Salvation Army Barracks. A public reception will be given the Brigadier to-night, Mayor Dawson in the chair.
EVANGELISTIC.—Conductor Upham, travelling secretary of the R M C A, will hold meetings tomorrow as follows:—Sunday afternoon at 3.45 in Wright's Hall, Sunday evening at 7 o'clock in Kensington Hall. Open air meeting, near Kensington Hall at 6.30. The public are cordially invited.

FALL EXCURSION TO MONTREAL.—Arrangements have been made to sell return tickets, Charlottetown to Montreal, at \$16.95, September 16th to 19th inclusive, and at \$13.55 on September 20th only; all these tickets to be good for return until September 2nd, 1898. Be sure to ask for and get your tickets via St. John, N. B., and the Canadian Pacific Short Line.

PATENT REPORTS.—Below will be found the only complete report of Patents granted this week to Canadian Inventors by the Canadian and United States Governments. This report is especially prepared for this paper by Messrs Marior & Marion, Solicitors of Patents and Experts New York Life Building Montreal: Canada Patents—609,62—Clafur Johnson, Glenbor, Man, Wire tightening device; 609,76—Ferdinand Roy, Montreal Valve; 610,32—L Girard et L Godin, Three Rivers, Coffin handle; 610,40—Alexis, Arthur and Delphis Chicoine, St Mare Butter Press; American Patents.—609,330—William Driscoll, Brockville, Can Sash balance; 610,048—Samuel H Haycock et al, Iroquois Apparatus for mining in frozen ground; 609,825—Patrick A MacDonald Winnipeg, Voting Machine.

ATHLETICS.—A letter received here by the friends of Mr. William Doyle, from Vancouver, has a programme of sports which took place on the 27th of August, in which several of our Island boys had a prominent part. William Flood, a young athlete from Charlottetown, takes a foremost position, taking first prize in the 16lb shot throwing, the distance being 34ft, 10in, and second in the 440 yds foot race. He also received a medal as first prize for dancing the Irish Washerwoman. Mr. Doyle speaks of Flood as "quite a hustler" and a credit to the Island. From the same reliable source we also learn that Mr. Charles Reardon is winning honors in the West having taken first place in the pole vaulting "dead easy" 9ft 4in. A young man named Reuben Watts, also from the Island, won first prize for dancing the Highland Fling with William Doyle second, winning a pipe, a very appropriate prize for him. We extend them all congratulations and encourage them to keep up the reputation of the Island in the Far West as it is in almost every quarter of the Globe.

A STRIKING ISSUE.

The tendency of educated Canadians to study and write upon important subjects is clearly proven in the September Canadian Magazine. It contains four illustrated stories and a beautifully illustrated article on Jamaica. But the rest of the issue is taken up with learned, though brightly written, articles as follows: The St. Lawrence Route and the Manitoba Grain Trade by Edward Farrer; Canada's international Status by Sir Charles Hibbert Tupper; Failure of the Australian Federation Bill by W. H. Fitchett; The Members of the first Dominion Parliament (with portraits and autographs) by Sir John G. Bourinot, A Review of R. G. Haliburton's Scientific Discoveries by Norman Patterson; The Champlain Monument, with full page picture, by Arthur G. Doherty; Great Britain and Russia by Charles Frederick Hamilton; and Current Events Abroad by John A. Ewan. The quality of each of these articles is beyond criticism, and the matter is exceedingly important. The Frontispiece is a splendid reproduction of a copyright photograph of the late Archbishop Walsh. The whole number is beautifully illustrated and printed.

DYSPEPSIA CLUTCH.—Dr Von Stan's Pineapple Tablets are nature's most wonderful remedy for all disorders of the stomach. The digestive powers of the pineapple can be tested by mixing equal parts of pineapple and beef and agitating at a temperature of 130° Fahrenheit, when the meat will be entirely digested. Pineapple Tablets relieve in one day, 35 cents. Sold by S. W. Dodd and G. E. Hughes.

Three reasons why you should put down your pickling cucumbers now. First, because they are now plentiful and cheap; secondly, because they are now better shaped, right size and tender; and thirdly, if you put it off much longer, you will be in the position of many last year—too late. Orders filled in rotation; also small white silverskin onions, cauliflower, green tomatoes, ripe tomatoes.—J. J. Gay & Son, market, Ch'town, and head of Prince St. Telephone 180.

Grand races are assured at the Ch'town Driving Park on Wednesday and Thursday next. Admission only 25 cents.

Almost every man in America has some digestive trouble. When men meet, the greeting usually is, "Well, how are you?" That develops health talk. The man who has no bowel or stomach trouble is almost a curiosity. Trouble is men take no care of themselves. They eat as though they had copper stomachs and bowels of brass. By and by, over-worked nature rebels. Then come headaches, nervousness, bad blood, liver and kidney troubles. Dr. Pierce's Pleasant Pellets furnish help for constipation and torpid liver, sick and bilious headache, dizziness, sour stomach, loss of appetite, indigestion, or dyspepsia, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Accept no substitute.

Roman Catholic Priests in Quebec are speaking in favor of prohibition.

NEW JACKETS
Direct from London

One Hundred and Seventeen.

Sample Jackets including all the new Styles and Colores, for fall, 1898.

Metallizing Wood.
A method of metallizing wood, by which it becomes very solid and resistant and assumes the appearance of a true metallic mirror, is described in the Paris Monde with much detail. Briefly, the wood is first immersed for three or four days, as may be its degree of permeability, in a caustic alkaline lye, and thence passed immediately into a bath of hydrosulphite of calcium, to which is added, after 24 or 36 hours, concentrated solution of sulphur in caustic potash. The duration of this bath is about 48 hours, and its temperature is from 55 to 50 degrees. Finally the wood is immersed for 30 or 40 hours in a hot solution of acetate of lead. The wood prepared in this manner and after having undergone a proper drying at a moderate temperature acquires under a burnisher of hard wood a polished surface and exhibits a very brilliant metallic luster—a luster still further increased in its attractiveness if the surface of the wood be rubbed thoroughly, in the first place, with a piece of lead, tin or zinc and afterward be polished with a glass or porcelain burnisher.

At TRACADIE.—The laying of the corner stone of the New Church at Tracadie and a grand tea party will take place on the 20th September. Extensive preparations are being made for the enjoyment and delight of an immense gathering. Train arrangements will appear later in advertisement. l w d & w.
