Spring Expected To Boost Retail Sales Across Canada

By KEN SMITH
Canadian Press Business Editor
Spring and the Easter season should be putting some sparkle back into retail sales across Canada after a slower-than-usual start this year.
A cross-country survey by the Retail Council of Canada, which speaks for retailers in all parts of Canada, shows business expected a five- to 7 1/2-per-cent increase compared with the similar four-week period last year.
Some retail sales records are kept on a calendar-month basis, it is difficult to get an accurate review of last Easter's performance, but sales in both March and April last year topped the \$1,500,000,000 mark. That represented a 5.5-per-cent climb over the comparable 1963 period.
The Council says sales of electrical appliances and home furnishings have been strong this season, with some retailers reporting greater gains in those fields than in the traditional Easter goods such as clothing.
Retail sales for so far this year have shown little improvement over the comparable 1964 period, with stores blaming unusually harsh weather in most major shopping centres for the slow start.
Hope for an upturn lies in the continuing strength of the economy generally.
NEW CAR SALES RISE
One aspect of the retail trade that is stronger than ever is new car sales. Production in

the first quarter was 193,000 cars, up five per cent from the record set last year.
A Toronto dealer reported business so good he had booked enough sales of one model to last him through to the end of the model year.
To try to keep up with demand, all major companies reported production lines working at record or near-record paces in March.
Meanwhile Ford of Canada announced it is exporting 400 cars a month to upstate New York state, taking advantage of the new auto tariff-exemption plan.
Earlier Chrysler of Canada said it plans to build 80,000 cars in 1965 for export to the United States.
The Ford report added to the controversy surrounding the plan, signed last January by Prime Minister Pearson and President Johnson but still awaiting ratification by the U.S. Congress.
Prime Minister Pearson told the Commons he would investigate whether the made-in-Canada cars are being sold more cheaply in the U.S. than they are in Canada.
Elsewhere on the business scene, the Southern Building Guide reported the dollar volume of construction contract awards in the first quarter of this year was a record \$50,304,000, an increase of \$86,835,000 from 1964's first quarter when the previous record was set. Despite the over-all gain, two

Cooling Cancer Is Investigated As Treatment

ATLANTIC CITY, N.J. (AP) There may be a way of attacking some cancers—at least in

animals—by a simple formula one can call "warm tumor, cool heart."
Hamsters have been cooled down to 40 degrees Fahrenheit for periods of 10 hours, researchers say their tumors kept at normal body temperature with a heating device.
The tumors began to recede and disappeared in 15 days, report Dr. Mojib Popovic and Dr. Roberto Masironi of Emory University's school of medicine, Atlanta, Ga.
For up to 200 days of follow-up, the tumors did not reappear and there was no spreading or seed cancers elsewhere in their bodies.
They also achieved the same results in hamsters by reducing the body temperature to 72 degrees—keeping the tumor temperature normal—for periods of 24 hours. Humans can tolerate these lower temperatures for brief periods of time, Popovic says, but more work is required to determine whether they can stand drastic temperature reductions for 10 or 24 hours.

FEE STANDS FIRM
The United States patent office reports that the fee for filing a patent, \$50, has remained unchanged since 1793.

cards are unknown to you as declarer. What should you do? In other words, what is the percentage play, the nine or the queen? Which play will make the contract most often in the long run, the nine or the queen?

The bidding:
South West North East
1 Pass 1 Pass
INT Pass 3NT
Opening lead—Jack of spades
Let's say you're declarer at three notrump and West leads the jack of spades, which you take with the king. Obviously the suit to attack is hearts, so you lead the ace and another heart. West plays the five followed by the seven, and there you are, faced with the question of whether to play the nine or the queen from dummy. It is certainly clear that if you could see the East-West cards in this hand you would play the queen, catching the jack, and then continue with the ten to make the contract. But suppose the East-West

Grid for the Daily Crossword puzzle with numbers 1 through 44 indicating starting positions for words.

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y D L B A A X E
S L O N G F E L L O W
One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
