LIFE-GIVING SUN

We expect young people today to take full advantage of the summer weather and get off to tennis or golf with hiking or cycling week-ends. It is not necessary to give whole week-ends or even whole evenings to sport, in order to get fresh air and sun.

And odd ten miuutes or so which we can manage will make all the difference. As a nation we are only just learning the eating-out-of doors habit, but there are wise people nowadays who go to the nearest park or square, and eat their lunch in the sunshine.

We may only have a strip of garden or a balcony, but sewing and knitting can be done there, or sitting down jobs like shelling peas or peeling apples.

It may seem a bother to go out for a few minutes, but it is really worth it. If you have only one tree, take your vegetables and sit under it to prepare them.

It is surprising what a feeling of calm and refreshment comes as a result, so different from doing the same jobs at a kitchen table.

It is nearly as restful to take them into the sitting room, throw open the window, turn on the wireless and so get rest, sun, and music while working.

Many women past their first youth badly need the life-renewing sun and air, yet have neither energy or time to engage in healthgiving sports. It is they who should seize odd half-hours and fit them into the day's routine.

Morning Stock Letter

(Received over Pitfield and Co's Private Wire)

NEW YORK, June 12—The strike situation in France is still a most uncertain one and although it has improved in the north part of France. Governor Landon received the nomination of President on first ballot and the vice-president will be nominated today. It currently looks as though Senator Vandenberg will be the nominee if he will accept. No platform can satisfy everyone, but the Republican platform will probably satisfy the Conservatives and it also has an appeal to these liberally inclined. Dividend meetings scheduled for today are—General Electric and Westinghouse Air Brake. We believe the market will get off to a go l start today but whether it will carry through into new high ground without some profit taking before the end of the week is problematical in view of the five day advance. We do believe, however, it is in for higher prices, and as stated yesterday seems only a question of timing purchases. Stocks which we would favor are General Motors, Chrysler, U. S. Steel, Bethlehem Steel, J. C. Penen, General Elec., Elec. Pr. and Light, Elec Bond and Share and Montgomery.

TORONTO, June 12—McWatters Kow milling one hundred tons mine ore and 75 tons tailing daily with production approximately $60,000 month. Preparing to sink winze below 40 level to develop ore indicated on level and by drilling below. Also preparing diamond drill east section from surface.

Porcupine Crown—Annual report Porcupine Crown states Gomak Mines mill subsidiary to Porcupine Crown is operating and now producing at capacity being fed from underground stopping operating grade about $20 per ton. Porcupine balance December shows current assets cash $64,000 and receivables $29,700 in addition investments other companies, no current liabilities.

National Park Project Discussed

The meeting was well represented by the Board of Trade West Prince and the public in general. A unanimous vote of thanks was extended to Senator McArthur in offering his historic property, known as the Warburton Estate to the Premier of this Province for a National Park.

Mr. A. A. Ramsay, the next to address the audience, entered into the subject very fully, stressing the many advantages and the practical situation for a National Park.

Messrs. James McLean and William F. Bryan of Foxley River district considered that the prominent and influential men of Prince County should avail themselves of the opportunity of establishing this large tract of land with salt and fresh water encircling as a National Park.

Mr. James Birch of Alberton urged Prince County's claims to the Park, alluding to how Freeland obtained its name. The prominent part which the Warburtons had played in the public life of this province as also Senator John Yeo, who purchased this valuable tract of land at a very large amount from the Warburtons.

The following committee was duly appointed to draft resolutions and interview the Premier and Federal members in pressing the claims of this site for a National Park, namely Messrs. A. J. Matheson, James Birch, George Barbour, John W. Palmer, Rev. T. Campbell, Dr. Champion and Lucas Allen, with authority to add thereto.

Says Disbarred Lawyers In Charge Of Relief Funds

(C. P. By Guardian's Special Wire)

OTTAWA, June 12—Three disbarred lawyers, who had been found guilty of embezzling trust funds were in charge of relief expenditures in Saskatchewan, Conservative leader Bennett charged in the House of Commons today.

He said they were not federal government employees but their presence in authority necessitated close supervision by the federal government over expenditure of federal relief grants to Saskatchewan. When the Liberal Government came into office it discharged the official appointed by the former government to supervise.

Hon. Norman Rogers, Minister of Labor, and Hon. Charles Dunning, Minister of Finance, said they knew nothing of the matter and Hon. J. G. Gardiner, Minister of Agriculture and former premier of Saskatchewan, asked Mr. Bennett for names and details.

These Mr. Bennett promised to furnish the Government although he thought it might be unfair to make the names public.
