

THE DAILY EXAMINER.

NOVEMBER 2, 1895.

QUEBEC POLITICS

The Liberal-Conservative Government of Quebec is chiefly concerned in matters relating to the development of that Province. Lieutenant-Governor Chapleau's speech at the opening of the Legislature on Wednesday last is made up for the most part, of statements concerning the dairy industry and agricultural progress. For three years past the Government has been paying bounties to encourage winter dairying and the production of butter of the very best quality. It is now announced that the quantity of butter manufactured in winter has more than doubled during the three years that these bounties have been granted, and that the results of shipments to Great Britain have been "most satisfactory."

THE FISHERY AWARD

We are glad to note that the Patriot has no sympathy whatever with the unwarranted attacks of the Farmer's Sun upon the Government in respect to the payment of fishing bounties and the assistance that has been given to establish the dairy industry in this Province. The Patriot ought now to condemn those sound Liberal politicians and journalists in the West who have all along been saying that which the organ of the Patriots has recently said. The Patriot does not, of course, approve the payment of the fishing bounties, for it says:

"As far as this Province is concerned the damages by Americans to our fisheries was inflicted when the Island was out of Confederation; and this Province should have had our share of the damages—about \$1,000,000—paid into our Local treasury. Well, who are we to blame because the money was not paid into the local treasury? If we mistake not, Mr. L. H. Davies was Premier of Prince Edward Island when the damages were awarded, but he was in the employ of the Dominion Government at a very large fee. If we mistake not, too, there ought to have been at Ottawa about that time, a gentleman rejoicing in the name and title of Hon. David Laird, who ought to have been in a position to put in a good word for P. E. Island, but he had been shunted into the Governorship of the Northwest. So it happened that while Newfoundland got its share of the award, the share belonging to P. E. Island went to Ottawa. Having gone there, it could hardly be expected that the influence of Ontario and Quebec would permit it to come back to this Province in a lump. Indeed, we think that Sir Leonard Tilley did well to secure the annual payment of the bounties by which our fishermen have been aided and encouraged to excel. It seems but right that money which came from the fisheries should go to the fishermen."

NOTES AND COMMENTS

—Brampton Conservative: The farmer's wife, under "Reform" rule from 1874 to 1878, had to give ten dozen eggs for five yards of cotton. Now, under the National Policy, she can get ten yards of cotton for five dozen eggs. —A legal commissioner, in Quebec, has lately codified laws of court procedure. It is to be hoped that work of codification will be carried to conclusion by the Legislature, and not left incomplete as it has been by Mr. Attorney-General Peters. —The Fishing Gazette of New York reports that the fish business is not improving, the scarcity of stock preventing a satisfactory execution of orders. Boston and New York are both suffering from this cause. It is noted, however, that cod will be a luxury that can be indulged in only by the wealthier classes if the supply does not increase.

—Seattle Post Intelligencer: Marysville, in Snohomish county, is setting a pretty good example in municipal economy. The Mayor and Council have decided they can run things for the next year without levying any taxes, the cash on hand and the prospective revenue from licenses being estimated as sufficient to meet the year's municipal expenses. —The German Emperor has been congratulating a Stettin firm on securing a contract for building two fine North German Lloyd steamships. The Montreal Gazette remarks that Wilhelm is evidently a protectionist. A free trader, as we have them in Canada, at any rate, would never think of congratulating anybody on making at home what can be had abroad. That kind of thing, they think, is not developing trade.

—In the course of his discussion with the Liberal leader, the proprietor of La Patrie says: "Good heavens, no! I am not the organ of the Quebec men. It is Paquet, with his 'Eclair', who remains what he has always been a loyal fighter in the days of trouble, but the pursuer of the jam pot in the glorious days of champagne buckets, of golden turrets and of all that, you know." Mr. Beaupre winds up by expressing his deep contempt for certain men who have strayed in the ranks of the Liberals after certain events which he does not wish to qualify. —Montreal Gazette: As Mr. Laurier has undertaken to define what papers do not correctly represent the views of the party of which he is the head it might be in order for him to deal in the same way with persons. Does he think, for instance, that a man when the election court judges have three times reported as a personal briber or intimidator, who, when a minister of the Crown, took money for personal and political expenses from a public contractor, and who gave heavy contracts to political favorites without tender, is a fit person to represent the Liberal party, as in a constituency like Montreal Centre? If he does not think so, does he intend to say so, and if not, why not?

A Silent Mince Worker For while you may be thinking of a pleasant beverage merely which it undoubtedly is, Wilson's Invaluable Port Wine is making its silent way through your system, and giving new blood. All may drink it with enjoyment for it is a fine rich wine, but it is especially intended for invalids, for it is to them an invaluable help in restoring lost strength, stimulating flagging energies, and making them feel strong and young and hopeful. This makes it unique. A rare old wine and an incomparable tonic, and not a drop of medicine in it. Sold by all dealers at \$7.50 per case of 12 quart bottles, half case \$4.00 or 25c. per bottle. Address—Bordeaux Claret Co., 30 Hospital Street, Montreal. dC246

—Gentlemen! See Moore & McLeod about winter underwear to night. They have the article you want at the price you want to pay. —Miss Nettie Seller has opened a dress-making room on Kent St., near Prince, where she will be pleased to see her old customers and others who may require her services. —Good Reading.—Parkman's works, S. O. S. works, Shakespeare's works, complete sets in neat cloth binding, good large type and prices away down.—Hazard & Moore.

FROM ALL POINTS OF THE COMPASS.

Several Monks Die of Fright. MONTREAL, Oct. 31.—A bomb was exploded today in the monastery of Forjuel, in the province of Biscaia, resulting in great damage. Several of the monks have died from fright caused by the explosion. A Money Making Concern. MONTREAL, Oct. 31.—The report of the Street Railway Co., issued today shows the net earnings to be \$1,101,204.60. The net earnings are \$143,392.86, and the operating expenses about \$974 per cent.

The First Instalment Paid. LONDON, Oct. 31.—It is reported that the first instalment of the Chinese war indemnity, \$5,000,000, was paid to Japan by the Bank of England today. Representatives of China and Japan present at the bank formally witnessed the transfer of the money from one account to the other.

Shocked by Earthquake. ST. LOUIS, Oct. 31.—At 5:12 this morning a distinct earthquake shock was felt here. Buildings trembled and the people ran excitedly into the street. The shock lasted three minutes. About the same time slight shocks were also experienced at Three Rivers, Mich., Wheeling, Va., and Gallipoli, Ohio.

Two Mile Pacing Record Broken. LINCOLN, Neb., Oct. 31.—Today saw some of the greatest racing in the history of the turf. W. W. P., owned by Hubois Bros. of Denver, broke the world record, held by C. J. Hanning's Nightingale, in the two mile pace. He did two miles in 4:22 1/2, lowering the world's record 91 seconds. Nightingale's record being 4:32.

The King at Ashantee Wants to Fight. LONDON, Oct. 31.—Information has been received here that Captain Stewart, who conveyed the British ultimatum to Ashantee, has returned to Accra, in the Gold Coast colony. King Premphah, he reports, has rejected the ultimatum and prefers to go to war, for which he is prepared. The time allowed for a reply to the ultimatum expires today.

Compulsory School Law in Halifax. HALIFAX, Oct. 31.—This city has a compulsory school law. Seventy-nine summonses were handed in at the police court today for parents of children who have not been attending school. There are two classes of offences under the school law, in which children are truant, and where parents have neglected to send them. There are said to be nearly a thousand reported in all. The cases will come up next week.

Mr. Sattoli's Elevations. WASHINGTON, Oct. 31.—Mr. Sattoli is to be created cardinal of the consistory assembling about the middle of November. He will not go to Rome. Cardinal Gibbons will be delegated to act for the pope in conferring the berretta, and Mr. Sattoli will act as papal legate at the ceremony, consigning the berretta to Cardinal Gibbons for its imposition. The berretta will be brought from Rome by one of the Noble Guards. The ceremony will take place early in December at Baltimore.

An Invasion in China. ST. PETERSBURG, October 31.—Novoe Vremya has information of the Japanese evacuating Liao Tung territory. The paper is informed that large detachments of Manchurian insurrections combined and captured the town of Lan Chau F., capital of the province of Kan Su, defeating the Chinese and scattering them in all directions. It is asserted to be the intention of the insurgents to form an independent kingdom in the territory they have taken possession of. Numbers of secret societies in central China joined the insurgent Manchouans.

It Looks Bright for Demers. QUEBEC, Oct. 31.—Attorney-General Casgrain says that after having made a careful and long study of the case of Napoleon Demers, of Montreal, he has come to the conclusion that the prospects of obtaining a conviction in a fresh trial are not sufficient to warrant putting the province to more expense in the matter. Mr. Casgrain said that the first trial of Demers cost over \$10,000 to the province, and a second trial would cost about as much. His decision is based upon the fact that the provincial finances are in too poor a state to afford such an expense.

A Son Kills His Mother. PROVIDENCE, R. I., Oct. 31.—Mrs. Mary McDade, of the town of Johnston, was shot and killed to-night at her home by her son, Thomas McLanolin. She was sick in bed at the time and was being nursed by her daughter. The boy was kicked and beaten before a bullet through her temple put an end to her sufferings. She was married two weeks ago to James McDade, blacksmith, and was 56 years of age. The motive for the crime is believed to have been the crime. After killing his mother, McLanolin made an unsuccessful attempt to kill himself. He succeeded in wounding himself severely, however, and may die.

After the Newfoundland Smugglers. ST. JOHN'S, Nfld., Oct. 31.—Parties in this city implicated in smuggling are paralyzed with terror at the action of the magistrate at Burn, who today convicted three smugglers there, and sentenced each to six months' imprisonment. One was willing to pay a fine of \$1,000, but the authorities decided on the imprisonment on the only penalty in each case. Ten other arrests have been made at Burn. The customs inspectors are aware of extensive smuggling on the north and east coast by means of the large fishing cargoes from the upper mines. Important disclosures have also been made from Fortune Bay Harbor, Briton and other points along the south coast in proximity to St. Pierre.

Great Britain's Foreign Policy. LONDON, Oct. 31.—Lord Salisbury at Waterford last evening said: "My speech is rather tightly closed upon foreign affairs, but if you are asked to judge of the foreign policy of the government, I exhort you to remember that we inherited that policy. We did not originate it, but for the sake of having a continuous policy in the face of foreign nations we are expected to do our best to carry it loyally to an issue." The Duke of Devonshire, speaking at Leeds yesterday, said: "It is to be regretted that the fact that in both Eastern Europe and Eastern Asia events are occurring and questions are arising which will affect the greatest interests in this country and in time may be approaching here, will be necessary for us to appeal to all political parties for sympathy."

We have so much confidence in our prices on men's, boys, and children's clothing that we feel confident that ours is the lowest, and we know that our assortment is the largest and best.—Prosser Bros.
