Speaker Tangles With MPs

Over Question Of Noise

OTTAWA (CP) - Speaker could revert to the bill only by unanimous consent.

When Mr. Lambert asked if there was unanimous consent, back-bench Conservative MPs chorused "No."

Gilles Gregoire (SC-La-pointe) complained that at the outset of evening sittings, some motions are passed before many members get to the chamber.

Speaker Lambert said he was sorry for the evening sittings until there is a quorum of 20 members, and then the House proceeds without waiting for latecomers. He said this has always been the practice of the House, which should get on with its business.

Then, David Lewis (NDP-York South) objected, saying there was so much noise in the chamber he did not hear the speaker's call.

There was no reason for the Speaker to rush the business through the House, and members of Parliament should not have to race with their chairmen, he said.

Mr. Lambert said he was only following the practice of many predecessors as Speaker, and there had been several times when the House had been called to order during the week-end. The debate was held at Mr. Allison's suggestion.
