Worlds Fair Participation Atlantic Area Meeting Topic

Representatives of the Atlantic Provinces will meet in Halifax today to discuss the participation by the provinces in the 1967 Montreal World's Fair.

Representing Prince Edward Island will be acting premier J. David Stewart, who said yesterday, the world's fair organization has invited the provinces to participate and Nova Scotia has made a feasibility study of its possible participation in the fair.

This study will be presented today, Mr. Stewart said.

Mr. Stewart said there is a possibility that the firm Robin Bush and Associates which made the study will suggest that the four eastern provinces combine on an exhibit for the fair.

This idea was mentioned some time ago by Premier Walter R. Shaw who said that world's fair exhibits are of such magnitude that this small province may find it more convenient to participate with other provinces in the area in an exhibit.

Mr. Stewart said he will have an open mind on the matter until "I see what is suggested by the Nova Scotia study."
