

Lumber Exports Deals Stressed

MURRAY HAY, Que. (CP)—Forestry Minister Hugh John Fleming pointedly told an American wood-products group Tuesday that Canada has to export to buy from abroad and that her forestry sales abroad are vital.

His speech followed the announcement last week by President Kennedy of proposals that could sharply curtail Canadian lumber sales to the United States. Canada's main export outlet. Sales to the U.S. last year exceeded \$250,000,000.

Forest products account for nearly 30 per cent of total Canadian exports. Mr. Fleming told the U.S. National Wood Box Council of Washington, D.C. Mr. Fleming said Canada consistently buys more from the U.S. than she sells that country and added that "trade . . . must be a two-way flow. Without the income which we earn from our exports, we would be poor customers for other nations."

LOOK FOR EXPANSION

"In our own self-interest," he said, "we are looking for an expansion of trade but this is a long-term goal. We must first look for our economic well-being and increase our purchases of the things that others wish to sell here."

His remarks were contained in a text of his address issued to the press before delivery. He said in 1950, Canada had bought more from the U.S. than did Asia, as much as central and South America and twice

as much as the United Kingdom. The excess of Canadian purchases from the U.S. over sales there had averaged a yearly \$750,000,000 in each of the last 10 years.

Mr. Douglas was defeated in Regina City in the federal election June 18. Mr. Regier was elected with a majority of more than 9,000 votes.

He said also that British Columbia's exports must be protected; that a voluntary quota asked for recently by the United States on Canadian lumber exports "could be disastrous for B.C."

A nominating convention, where Mr. Douglas is expected to be unopposed, will be held in Coquitlam Saturday. The Liberal and Social Credit parties have announced their intention to run against Mr. Douglas, along with an independent. So far there has been no announcement from the Progressive Conservatives.

as much as the United Kingdom. The excess of Canadian purchases from the U.S. over sales there had averaged a yearly \$750,000,000 in each of the last 10 years.

Reds Blame Agent Of U.S. For Flareups

HELSINKI (Reuters) — The Communist-backed World Youth Festival had its first day free of riots Tuesday with the Russian side claiming a "victorious" U.S. intelligence agent might have organized the disturbances during its opening three days.

Finland police braced for more violence after moving in with clubs and tear gas Monday night to break up demonstrations staged by anti-Communist youths. But no more trouble was reported.

'Your Problem' Mother Warns

TORONTO (CP)—Young parents are facing the problems of bringing up children deformed by the mother's use of drugs during pregnancy, said Mrs. Annie Angus. "It doesn't matter what the government does. You're the ones who have to learn to live with your problem."

When her son was born 37 years ago his legs were bent the wrong way and there were no joints in his arms, legs, hands or feet. One foot had no toes.

Mr. Douglas was defeated in Regina City in the federal election June 18. Mr. Regier was elected with a majority of more than 9,000 votes.

He said also that British Columbia's exports must be protected; that a voluntary quota asked for recently by the United States on Canadian lumber exports "could be disastrous for B.C."

A nominating convention, where Mr. Douglas is expected to be unopposed, will be held in Coquitlam Saturday. The Liberal and Social Credit parties have announced their intention to run against Mr. Douglas, along with an independent. So far there has been no announcement from the Progressive Conservatives.

It has been estimated that more than 25,000,000 persons in the U.S. are without their natural teeth.
