# CWL Speaker Expresses Women Suffrage Opinions

Men or women should not be appointed to the senate just to fill a vacancy, nor should women be considered a watered-down version of a man," Senator Josie Quaintance told the Catholic Women's League national convention here yesterday.

"If women are obliged to pay taxes and to obey laws," she said "it was only just that they be given a share in the making of them. The state, like the home needs a woman's viewpoint to create a well-balanced society."

Senator Quaintance expressed her personal view that she has never recognized any difference between women men in public life. It was decided in 1829, she said, that women were "persons" under the terms of the British North America Act, and were therefore eligible to be appointed to the senate. Since that time eight women have been appointed. Senator Quaintance was appointed in 1960.

She expressed the opinion that suffrage here did not produce any dramatic acts of violence. Opponents of the movement raised a tremendous number of arguments which "seem nonsensical today," she said. They quoted the bible and claimed that suffrage would raise the divorce rate, lower the birthrate and cause general discord between husband and wife.

Manitoba was the first province to grant suffrage—in 1916. Quebec did not grant it until 1942.

# KINGS COUNTY

(Continued from page 1)

crayle system of selling based on the amount of land to be sold is loaded in favor of the purchaser to the detriment of the vendor.

The price agreed on potatoes between grower and producer was \$1.25 per bushel. Mr. Kitcham. He said some sales had arrived at \$1.50 per bushel, but a greater percentage of the amount the consumer pays.

Mr. Kitcham said "at one time, our potatoes were sold to consumers in Ontario at 10 cents per bushel. Now they are receiving one cent per bushel."

Mr. Kitcham said that a marketing and distributing organization for potatoes be set up in Kings County. He said the organization, consistent with potential market requirements, would be a "full fledged one-deck selling agency" would be for the P.E.I. Potato Marketing Board to arrange for a "one-deck quotation authority" to be set up.

He said "it is desired to be publicly announced over the radio a given time in the early morning the price each dealer or dealer, would quote for that day, and thereby insuring a uniform price to all outlets; prohibiting unreasonable gambling with the early sale of potatoes or contracts."

Mr. Kitcham said that "to bring the compliance with the plan, dealers would be subject to inspection of their daily invoices, if and when the board deemed it necessary."

Referring to a one-deck selling agency "set up a few years ago under the authority of the potato marketing board," Mr. Kitcham said "it is desired to give it an opportunity to prove its worth, an agitation sponsored by dealers opposing the agency led to its sudden termination."

Pointing out that the agency had been set up under the provisions of the federal and provincial Co-operative Marketing Act, Mr. Kitcham said "when farmers are members of a properly constituted co-operative organization, they become eligible for financial assistance in the purchase of fertilizer and so on so that there is no cause for the financial assistance that if farmers organize they may find themselves without fertilizer, etc."

"The facts are that when a dealer supplies fertilizer to a farmer, he takes said farmer's promissory note and it is on the strength of these notes that the bank furnishes the credit to the dealer."

Mr. Kitcham said he has considerable experience as a licensed dealer shipping potatoes and burrito to Canadian and other markets and "if he were to make a success of a marketing plan, we should have the full co-operation of both farmers and dealers."

**OTTAWA (CP)**—Import quarterback Mike Mosolf walked out of an Ottawa Rough Rider practice session Monday but returned Tuesday, apparently after a change of heart.
