**GREAT MEETING AT
 VERNON RIVER BRIDGE**

Enthusiastic for A. Martin and the Old Flag.

The hall at Vernon River Bridge was crowded to overflowing on last evening. Mr. Duncan Matheson occupied the chair. Mr. A. Martin was the first speaker, and his speech, which was listened to with great attention, was an able and exhaustive review of the great Liberal-Conservative policy that has converted Canada from a few weak scattered provinces in 1878 to be the greatest colony and pride of the British Empire in 1897. The Liberal Conservative party had spent millions of dollars; but they had built up a great country, supplied it with railways, deepened its canals, taken in the great Northwest, developed the farming industries, and added to the wealth and prosperity of the farmer and the artisan, economical in times of adversity and prudent in times of plenty. The Dominion of Canada stands to-day the monument of the grand old Liberal-Conservative party. How very different has been the record of the Liberal party. Extravagance and bungling mark their regime for the last four years, as it did that of the McKenzie administration from 1874 to 1878. Mr. D. A. McKinnon, the next speaker, strove vainly to bolster up a bad case. He thought he ought to be looked upon as the giver of the Southern Railway and Hillsborough Bridge. He kept aloof as far as possible from the great issues of the day. He did not feel equal to an apologist of broken pledges, scandals and disgraceful deals.

Mr. A. A. McLean followed Mr. McKinnon in the ablest speech we have ever heard him deliver. His arraignment of the Liberal policy was most convincing. He completely denuded Mr. McKinnon of every point he had attempted to make. Mr. George Forbes was called upon. But he preferred to keep his seat and interrupt, in the most ungentlemanly way, Mr. McLean, while he was speaking. Age does not seem to mature some men's behavior. Mr. Weekly followed Mr. McLean in a Rip-Van-Winkle speech. It was light and amusing. Mr. Henry Wood was the last speaker. He made an excellent impression on the audience and was well received.

After a vote of thanks to the chairman the meeting broke up with hearty cheers for Mr. Martin.

AN ELECTOR.

"Take care of the pennies and the pounds will take care of themselves. Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make. Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, some day, the majority of the people have to take care of their stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heart burn, flatulence, indigestion, palpitation, dizziness, cold extremities and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.

OUR BOYS UNDER FIRE.

"Our Boys Under Fire," is the title of a vividly written and most interesting book, just issued from the press of THE EXAMINER Job Print. The writer, Miss Annie Elizabeth Mellish, of Charlottetown, has compressed into the 122 pages of her work a surprising amount of information, valuable to all who are interested in the P. E. Island and New Brunswick volunteers who have served, and are now serving their Queen in South Africa. The book gives in detail the history of "G" Company, from the time the first men were enrolled until the departure of the Idaho from Capetown. Every incident is related, and most graphically are described the battles and other serious events that were confronted and overcome by our brave Island boys and their comrades from the other provinces of the Dominion. We compliment the authoress on having succeeded in giving to the public a book so worthy to be read and to be kept as a record of achievements of which all Islanders will ever be proud. The book is adorned with forty-two illustrations, and, in addition to the regular narrative, there are biographical sketches of the officers, and of many of those who were killed, as well as a list of the casualties, and the full muster roll of the companies. Miss Mellish has succeeded admirably in giving us a graphically-written account of the adventures of "Our Boys," and has at the same time gathered together so much statistics and other detailed information as to make her book valuable as a work of reference. The price of the book, which is very neatly printed and bound, is fifty cents per copy. It is for sale at all the bookstores.

Meeting at Georgetown.

A joint meeting was held at Georgetown last night. Mr. W. W. Jenkins was chairman, and Mr. Harold Macdonald, Secretary.

Mr. J. J. Hughes was the first speaker. He received a respectful hearing, but nothing like the applause that greeted Mr. A. C. Macdonald when he rose to his feet. He made a powerful speech and received much applause.

Mr. H. J. Palmer followed but did not charm his audience. Then Hon. D. Gordon made an eloquent address which was listened to eagerly and greeted by hearty cheers.

Dr. Robertson then spoke for the government but was completely obliterated by Mr. John Dewar of New Perth.

CLOTHING

Our Clothing Business has increased to such an extent that we are compelled to move into larger quarters. We've rented part of the London House, and intend cutting an archway between the two buildings for the purpose of doing a first class Gents' Clothing and Furnishing business. Everything kept on the ground floor. We expect to move our clothing in about the 10th of November, and before removing we must reduce our large stock.
