WILL GIVE LEGAL AID

TORONTO (CP) — Attorney-General Arthur Wishart says Ontario's new legal aid plan should be in operation by the end of this year. The plan, passed at the last session of the legislature, provides for government payment of lawyers' fees for persons who can't afford them. Mr. Wishart told representatives of the Law Society of Ontario Tuesday that a provincial director will be appointed within the next few days to run the scheme.

One thing about daily newspapers:

they give you the whole story

Television and radio are fine for immediate news bulletins. But when you want the whole story, you reach for the daily newspaper. And you're in good company, because most people do exactly that. In a recent survey, validated by the Canadian Advertising Research Foundation, 55% of the people interviewed chose daily newspapers as the source of most complete information. Further, 31% regarded television, and 49% regarded radio, as media from which "you must be missing a lot when you get things in such a condensed version."

Yes, whether it's news of events in Southeast Asia . . . Chamber of Commerce meetings in your home town . . . or Sally Winter's wedding . . . you reach for your daily paper to get all the details. And you get them.

The same holds true for advertising. Because they're not time-bound, newspaper ads can tell you more, and you can read them in your own sweet time. Two good reasons why so many people like newspaper advertising. And people do. 83% in the survey said they use newspaper ads as a shopping guide. And 41% find them reliable, as opposed to only 16% who find television ads reliable, and 5% who rely on radio ads.

Most advertisers are aware of these facts. Which is why so many use daily newspapers to tell you about their products and services. Smart move, when you consider it. Using daily newspapers, they can give you the whole story.
