Negus Has 10,000 To Defend Capital

Strategic Points Along Route To Addis Ababa Fortified—Italian Forces Close In On Sasah Baneh.

(By Guardian's Special Wire)
ADDIS ABABA, April 28.—(C. P.-Havas)—Ras Nasibu and General Wehib Pasha, Turkish soldier of fortune, who are Haile Selassie's lieutenants in the south, tonight were reported to be holding their positions at Sasah Baneh, although dispatches admitted General Rodolfo Graziani's Italian forces were closing in on the Ethiopians in a giantincer-like movement.

The Negus has mustered 10,000 men for the defence of the capital. They have set up machine-gun nests and fortified positions at strategic mountain points along the route, the government announced.

Express Concern Re Schooner

(By Guardian's Special Wire)
ST. JOHN'S, Nfld., April 28.—Fishermen expressed concern tonight for the 25 members of the crew of the 125-ton fishing schooner Partanna, unreported since she left the Grand Banks the second week of March for the western banks. The Partanna, a staunch eight-year-old vessel, was the second ground-farnd craft reported missing 24 hours. Reports reached here yesterday that wreckage of the schooner Julia A. Anderson had been washed ashore at Port-Aux-Lasques. Her master and crew of three were missing.

Fishermen said there was a chance the Partanna had been driven off her course in recent gales.

SENTENCED TO PENITENTIARY

(By Guardian's Special Wire)
TORONTO, April 27.—Herbert E. Wilson, of London, Ont., was sentenced to six years and Donald T. Gillard, Toronto stock salesman, to 2 1/2 years in Kingston Penitentiary by Judge James Parker in General Sessions Court today. They are convicted of conspiracy to defraud E. A. Ames and Company, Ltd., Toronto investment brokers, of \$348 by sale of counterfeit bonds and of uttering.

Chief Of Staff

General Sir Cyril Deverell is shown arriving at the war office in London to take up his new duties as new chief of the Imperial General Staff. He succeeds Field Marshall Sir Archibald Montgomery-Massinberd.

Describes Diet Of Quintuplets

(C. P. By Guardian's Special Wire)
CALLANDER, Ont., April 28.—Solid foods and liquids containing needed vitamins and a minimum of starch made up the diet of the Dionne quintuplets, 23 months old today.

Dr. Allan Roy Dufoe, their physician since birth, told of the rigid routine and feedings of the five daughters of Mr. and Mrs. Oliva Dionne. Fruits and vegetables and their juices, milk, cereals and bread and butter play a large part in the daily menu.

The quintuplets' parents yesterday suggested the diet be changed to one containing soup from fresh meat, mashed potatoes with a little gravy, carrots as the main vegetable, rice and all the milk and children want.

The physician pointed to the excellent health of the sisters, their firmness of flesh and playful activities. Today he gave in detail their present diet.

Here is a typical day in the life of the Dionne quintuplets:

- 6 a. m. — Cod liver oil in fruit juice, usually orange.
- 7 a. m. — Bath.
- 8 a. m. — Breakfast: Egg, bread and butter, milk and arrowroot or similar biscuit; or above five ounces of milk each.
- Two hours or so of play, indoors or out, depending upon the weather. Milk or water freely as the children desire.
- Noon—Midday meal: Soup containing ground pulps of vegetables; vegetables, usually green vegetables such as asparagus tip, which the parents described as "greenish"; custard desserts; milk. When available fresh vegetables are used; otherwise homogenized canned vegetables and fruit.
- After this meal, a sleep till 2:30 p. m.; then play indoors or out.
- 3:30 or 4 p. m. — Cod liver oil; more play, and milk or water as desired.
- 5 p. m. — Sun bath for half an hour in the nursery under mercury lights, particularly on dark days.
- 5:30—Second bath.
- 6—Dinner: Oatmeal and other cooked cereals; bread and butter; milk.

(Each of the three main meals is preceded by a feeding of acidophilus milk for a total of about 20 ounces a day for each child. Consumption of ordinary milk is about three quarters of a quart a day for each.)

- 7 p. m. — Lights out in the play room; get ready for bed.
- 8 p. m. — All five asleep. It is seldom one wakes for water.

Would Limit Appeals From Supreme Court

(C. P. By Guardian's Special Wire)
OTTAWA, April 28.—Limitation of appeals from the Supreme Court of Canada is the object of a motion, notice of which was given in the Upper House tonight by Senator J. P. B. Casgrain (Lib. Mont-real). The motion will be debated either this week or next, it is expected.

Motion of Senator Casgrain reads: "That in the opinion of the Senate a judgment of the Supreme Court of the Dominion of Canada when unanimous shall be final, except in constitutional cases."

The bill of Senator James J. Hughes (Lib. Prince Edward Island) to prevent remarriage of guilty respondents in divorce cases will come up for second reading May 6.

Appointments To Field Work

(C. P. By Guardian's Special Wire)
TORONTO, April 28.—Appointments to field work have been made by the United Church of Canada through its Home Mission and Christian Education executives.

Rev. W. S. Godfrey, of Saskatoon, N.S., is named Home Mission Superintendent of Religious Education for the Maritime Conference. Mr. Godfrey relinquishes the post of student pastor at Mount Allison University.

Rev. J. W. McConnell, D.D., of Amherst, N.S., previously home mission superintendent, is retiring.

Rev. D. T. L. Forsyth, of Mon-

BUDGET WILL BE BROUGHT DOWN FRIDAY

Deficit Expected To Be Around 140 Mil- lions.

(C.P. By Guardian's Special Wire)
OTTAWA, April 28.—Canada will have another May-day budget. Finance Minister Dunning announced today he would make his budget speech on Friday. Six years ago May 1 he brought down his last budget, a few months after he had succeeded to the Finance portfolio following the death of Hon. James A. Robb.

In his last budget Mr. Dunning was able to show a surplus of about \$80,000,000 which was applied to reduction of the public debt. He was able to cut the sales tax and what were termed nuisance taxes. He was not called upon to make a provision for Canadian National Railway deficits.

The financial sky this budget will not be so bright. A deficit is expected of around \$140,000,000 of which \$47,421,464 will be to cover interest on Canadian National securities held by the public. While the minister will probably be able to show a slight surplus of ordinary revenue over ordinary expenditure the extraordinary expenditures including relief are expected to pile up the total deficit.

The budget this week will cover seven months under the Conservative government headed by Rt. Hon. R. B. Bennett and five months under Premier Mackenzie King. The most important change during the year was the effect of the trade treaty with the United States which became operative Jan. 1.

The Liberal government came into power committed to lower tariffs. The trade treaty was a long step in that direction because it extended to imports from United States the intermediate tariff. They formerly had to meet the much higher general tariff.

Strong pressure has been exerted on the minister to increase the intermediate tariff to protect Canadian producers and only when the budget is made public will it be known to what extent he has complied with such requests.

In preparing the budget review the minister has had before him recommendations of the tariff board on four important references. One concerned the tariff on crude oil and gasoline, a second protection extended to the automotive industry. The furniture dealers asked that the intermediate tariff on furniture of 27 per cent be jacked up. It was 45 per cent under the general tariff before the treaty came into effect.

The tariff board also asked for lower duties on cotton fabrics, cotton yarns, and artificial silks. The board held an inquiry into that request.

The trend of revenues during the past year has been upward and many believe that the increase in revenue will further increase customs revenues this year despite the lower rates of duties imposed. Whether such anticipated increases or will seek new avenues of taxation is a closely guarded secret.

Unemployed Occupy State House

(A.P. By Guardian's Special Wire)
TRENTON, N. J., April 28.—New Jersey's embattled unemployed ended a week's occupation of the State House today as legislative leaders met in an all-day conference in a desperate effort to break a four-months' deadlock on emergency relief financing.

The state stopped relief aid 12 days ago and returned the relief to the municipalities, which protested they could not carry it alone.

The unemployed, charging the Republicans and Democrats were using them as a "pushball," decided to form a Farmer-Labor party. Today, using the assembly chamber for a political hall, speakers exhorted the group of 40, which continued in control of the chamber, to conduct a militant campaign in the next election.

STRIKE ENDS

(C. P. By Guardian's Special Wire)
MONTREAL, April 28.—Return of 450 garment cutters to work today brought an end to a strike that had threatened to disrupt the entire Montreal dress manufacturing industry.

Last Wednesday 500 men, members of the dress cutters' union of the international garment workers' union, went on strike in a demand for a collective contract with employers.

King Dead

KING FUAD I OF EGYPT
Who passed away yesterday from
an illness due to throat infection.

Two Halifax Women Killed At Long Beach

(A.P. By Guardian's Special Wire)
LOS ANGELES, April 28.—Miss Alice De Wolfe and Lillian B. McClair were to have started Thursday for their home in Halifax, carrying the ashes of Miss De Wolfe's father to be placed there in a family crypt.

But the journey will not be made, for the two young women were killed late last night, victims of an automobile collision.

It was the third time within less than five months that death struck in the De Wolfe family. On Jan. 11, Edwina De Wolfe, who came here from Halifax to care for her ailing father, James E. De Wolfe, died. Then on April 11, the father died. Miss Alice De Wolfe arrived here to care for her father shortly before his death, and planned to leave with her friend for Halifax Thursday.

The two women were riding with Mr. and Mrs. Lewis G. Archibald on the outskirts of Long Beach when their car crashed into a truck and trailer driven by Roy Wiley, 23, of Compton. Mr. and Mrs. Archibald were injured seriously.

Communists Seize Spanish Brewery

(A.P. By Guardian's Special Wire)
MADRID, April 28.—A fresh welter of labor difficulties, featured by Communists' seizure of Spain's largest brewery, broke out today and the menace of another general strike threatened the government.

More than 350 employees of La Gulla Brewery of Madrid took over the plant, refusing to leave until the management granted their demand that 40 alleged Fascist employees be discharged. They brought food and bedding to the brewery and announced they would camp there until their demand was granted.

As night fell the employees were busily engaged in reducing the brewer's stock of beer.

Fresh violence saw the slaying in Catalonia of two brothers, Miguel and Jose Babia, the former a strong political figure. They were shot down as they stepped into the street from Miguel's home.

Rail Rates Cut To 2 Cents Per Mile

(A. P. by Guardian's Special Wire)
NEW YORK, April 28.—Eastern United States railroads today accepted "under protest" the interstate commerce commission's order cutting passenger rates to two cents a mile, and pullman rates to three cents which will give the east the lowest uniform rate of rail transportation cost for this country.

The eastern road's protest, it was made known, is more than a gesture, for they intend to seek a judicial opinion on the validity of the commission's order. The new tariffs will be filed without delay and the reduced rates will become effective June 3, next.

With adoption of the new tariffs

AMENDMENTS TO LOAN ACT URGED

Need For Further Aid to Fishermen Stres- sed By Hon. Peter Veniot In Federal House.

(C. P. By Guardian's Special Wire)
OTTAWA, April 28.—Amendments to the Farm Loan Act to improve the facilities provided for loans to fishermen were urged in the House of Commons today by Hon. Peter Veniot (Lib. Gloucester). He said the act passed last year extending the provisions of the Farm Loan Act to fishermen had not been effective and could not be effective in assisting the fishermen.

He spoke on a vote of \$300,000 "to aid, in co-operation with the provincial governments concerned, in re-establishment of needy fishermen." Fisheries Minister Michael said the money would be used to supplement whatever amounts the provincial governments thought necessary to help re-establish fishermen who were unable to gain the necessary revenue from their occupation to carry on their operations and support themselves.

Under the 1935 act, said Mr. Veniot, fishermen could not borrow money to obtain new vessels except by giving a mortgage on real estate.

Defends Wheat Board

OTTAWA, April 28.—The new Canadian Wheat Board which took over on Dec. 9, was in office only a few days before it was attacked and accused of being under the domination of the Winnipeg Grain Exchange, James Murray of Winnipeg, Chairman of the Board, told the House Committee on wheat marketing here today. He defended the Board against this criticism as well as the criticism it had been too friendly to the "shorts" in the market.

The chairman of the Board did not think it was called upon to squeeze the shorts' interest in the market. The former chairman,

No Cave-in In Moose River Mine

(C. P. By Guardian's Special Wire)
MOOSE RIVER, N. S., April 28.—Manager F. D. Henderson of the Moose River gold mine today paused long enough in his work of "cleaning up" the scene of Nova Scotia's most dramatic mine rescue, to report there had been no cave-in since Dr. D. E. Robertson and Alfred Scadding were brought to the surface almost a week ago.

"Certainly not," the grizzled manager said. There has been no cave-in since Easter Sunday night. Absolutely none and no sign of any either.

"There was never any sign of any movement of the earth except where the original collapse had occurred, even while the market work was going on. It was dangerous enough all right while the men were working, but nothing happened. There's no sign of any cave-in other than the one which caught Dr. Robertson and the other two men. If there was any sign on the surface we'd notice it."

Robertson, Scadding Show Improvement

(C. P. by Guardian's Special Wire)
HALIFAX, April 28.—Alfred Scadding was responding satisfactorily to treatment, Dr. H. K. MacDonald, the attending physician, said tonight.

Rescued five days ago with Dr. D. E. Robertson after 10 days imprisonment in the Moose River gold mine, the Toronto man was still suffering from "trench feet" but hopes were held his feet would not have to be amputated.

Two "glass boots" from Montreal and electrical equipment from Toronto were being used by doctors to stimulate circulation in Scadding's feet, where his blood vessels had been damaged by cold and exposure during his prolonged entombment.

Dr. Robertson's condition was improving steadily, physicians attending the famous Toronto surgeon reported.

Death Yesterday Of King Fuad

16 - year - old Prince Farouk Succeeds To Egyptian Throne.

(C. P.-Havas)
(By Guardian's Special Wire)
CAIRO, April 28.—King Fuad I of Egypt died today and throughout the country people voiced their grief. Flags everywhere drooped at half-mast.

The sovereign of the land of the Pharaohs died shortly after noon and plans automatically went forward for the creation of a regency to rule until 16-year-old Prince Farouk reaches his 18th birthday.

The young prince was proclaimed king tonight. He will leave for Egypt Thursday from the school he has been attending at Kingston, England.

DEATH OF HON. WILLIAM CHISHOLM

Was Former Leader of Liberal Opposi- tion In Nova Scotia Legislature.

(C. P. By Guardian's Special Wire)
ANTIGONISH, N. S., April 28.—Hon. William Chisholm, former leader of the Liberal Opposition in the Nova Scotia Legislature, who won the title of "Bonny Fighter" when he led two supporters against 40 government members after the election of 1925, died here today. He was in his 66th year.

The veteran parliamentarian, who for 28 years represented Antigonish in either the federal or provincial parliaments, was never defeated in an election. He retired in 1933 because of ill-health. He was taken seriously ill last Tuesday and complications followed which resulted in his death early this morning.

William Chisholm was one of the most colorful figures in the public life of Nova Scotia and because of the spirited leadership in the Legislature from 1925 until 1933 his name will long be known in political history in this province.

Born in the little community of Heaterton, a few miles from Antigonish, he was descended from the Scottish pioneers who settled in that section of Nova Scotia. He was educated at St. Francis Xavier University, Antigonish, and taught school before he was called to the bar in 1896. He was appointed notary public in 1904.

In 1905 he was elected to the Federal Parliament and was re-elected in 1908 and 1911. In 1916 he resigned his seat to contest Antigonish in the provincial elections and was elected. In January 1918 he was made a member of the Murray Cabinet without portfolio and on the re-organization of the government Mr. Chisholm continued under Premier Armstrong as Minister of Highways.

Named Minister of Works and Mines in 1925, he found himself elected in the balloting of that year but with only two followers. After a Liberal rule of 43 years, the Conservatives under Hon. E. N. Rhodes swept 40 of the 43 seats.

It devolved on Mr. Chisholm during the three sessions of the first Rhodes Administration to carry the Liberal party's attack almost single handed. He was the only one in the

Earthquake, Famine In Chinese Province

(A. P. by Guardian's Special Wire)
CHUNGKING, Szechwan Province, April 28.—A heavy earthquake today terrorized residents of Szechwan Province, already in the grip of a famine with an estimated 10,000,000 to 30,000,000 facing death or already dead.

The quake did little damage here but greatly alarmed the population. Damage in remote sections, however, was undetermined. Chinese newspapers said some of the victims of maddening hunger are resorting to cannibalism and that other starving parents are selling their children.

The famine conditions were laid to repeated floods, which were followed by unusually dry summers, after Communist soldiers had swept the country for two years.
