

Minister Suggests Subsidy

Country Districts Require Better Medical Attention

The subsidizing of country doctors so that greater areas could be served without the necessity of bringing patients long distances for treatment was strongly advocated by Hon. Dougald MacKinnon, Minister of Industry and Natural Resources, speaking on the Draft Address yesterday.

Mr. MacKinnon said if the hundreds of thousands of dollars that are now being given to build hospitals in the larger centres were given to the country doctors he could have a small centre where, with the assistance of a nurse, he could look after two or three patients at a time.

Maj.-Gen. Leo R. LaFleche, First War Hero Dies

MONTREAL (CP) — Maj.-Gen. Leo R. LaFleche First World War hero and former deputy minister of national defence, died Wednesday night in hospital. He was 67.

Maj.-Gen. LaFleche also was a former ambassador to Greece and was Canadian high commissioner to Australia from 1949 to 1951.

He was left for dead in the bloody fighting at Mont Sorel, France, in 1916 but survived despite the loss of an eye and with a crippled arm and other wounds.

He was appointed deputy minister of national defence in 1930 and drew up a plan for developing Canadian war industries by obtaining orders from abroad.

years and had never in that time lost a mother or a child in a confinement case.

"In years gone by," said Mr. MacKinnon, "the medical attention used to come to the patient, now the patient must come for treatment to the doctor or to the medical centre."

He recalled the time when the Belfast District had three country doctors. "This is one of our crying needs today and if all kinds of money can be spent on health, why not direct some of it to this source," he said.

AGRICULTURE

I don't believe anyone can say that everything is alright in so far as agriculture is concerned. It is certainly not as good as we would like it to be," said Mr. MacKinnon.

He said the lack of medical treatment in the country was one of the reasons why so many people are leaving for the cities. He felt that there was no reason for so many of the country cases having to come to hospitals.

He recalled the experience of a country doctor who had practiced for 36 years and had never in that time lost a mother or a child in a confinement case.

He warned that no "magic wand" would be waved to create a better situation.

49 Dead Or Missing In Avalanches

LONDON (Reuters) — Thundering white avalanches killed at least 49 people and missing in Western Europe during the last 36 hours in a grim aftermath of the Continent's most severe winter of the century.

Avalanches roared down from the mountains in Norway, snuffing the lives of 21 persons in the Lofoten islands off the northwest coast.

In Switzerland, a party of 16 German skiers near Scuol were hit by an avalanche. Four of the skiers died, police reported.

Thousands of Norwegian volunteers workers and army troops were digging to reach the Lofoten islands victims.

In Yugoslavia, three persons were drowned Tuesday when their boat capsized in the swollen Velika Morava river.

Landslides threatened villages and blocked roads in central Italy in the Netherlands, rivers began to drop slowly after flooding portions of the southern and eastern regions of the country.

In Sweden, however, all the ports north of Stockholm were still reported to be solidly frozen.

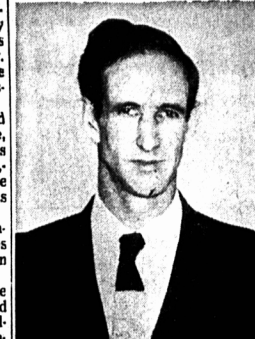

Britain reported heavy snowfalls in the Midlands but most of the country enjoyed bright, clear weather.

Implementing our policy to avoid doing anything that might increase uneasiness about the Middle East situation.

John Diefenbaker (PC — Prince Albert) asked whether the prime minister does not consider that the aircraft shipment ought to be stopped in view of the present "flaming" situation in the Middle East.

Stormy Debate On Middle East

British Gov't Fights Off Censure Motion By Labor

THE LATE MR. TUPLIN

Extend Sympathy To Family Of Isaac L. Tuplin

When the House met yesterday afternoon, Hon. Eugene Cullen brought to the attention of the members, the death of Mr. Isaac L. Tuplin, director of Field Crops and Extension with the Department of Agriculture who passed away suddenly on Tuesday evening.

Mr. Cullen said the late Mr. Tuplin's death such an early age was a great loss not only to the Department of Agriculture but to the Province as a whole.

Mr. C.C. Baker recalled that it was while he was Minister of Agriculture that Mr. Tuplin first came to work with the Department in 1951.

Mr. Harold Smith said he had known Mr. Tuplin personally for some time and had always found him to be a man of the highest integrity who took a keen interest in his work and in the welfare of rural communities.

DARTMOUTH, N.S. (CP) — Nine-year-old Judy Sobel fell into a sand hopper at a local cement plant Wednesday and died before frantic rescuers could dig her out.

Police said Judy was playing atop the hopper when the sand gave way, burying her under three feet of it.

TORONTO (CP) — Although 12-year-old Maurice Lussier insisted he hadn't been bitten by a large dog which jumped on him Tuesday night, police took him to hospital anyway lest the dog had been infected with rabies.

CAIRO (CP) — The head man of the subsidy Jordan now receives from Britain, about £14,000,000 annually.

Kashmir Claims Victory

SEATO Supports Early Kashmir Case Settlement

KARACHI, Pakistan (Reuters) — The SEATO foreign ministers in secret session here Wednesday unanimously agreed that an early settlement of the Kashmir dispute between India and Pakistan is desirable, either through a plebiscite or by direct negotiations between the two countries.

But conference sources said the formula adopted went some way towards the British position. Britain, anxious to avoid a showdown between two Commonwealth countries, long had supported direct talks and is opposed to SEATO's discussing the merits of the Kashmir issue.

Conference officials, who were present at Wednesday's meeting, denied reports that U.S. State Secretary Dulles had asked his country's seven SEATO allies to back her in demanding implementation of a 1950 United Nations resolution which called for a Kashmir plebiscite.

Some observers claim that on paper the SEATO resolution adds nothing new to the Kashmir position as it has existed for years, and India will find nothing to which she could technically take exception.

CHICAGO (AP) — It was 104 degrees colder in West Yellowstone, Mont., than in Miami Wednesday as violent March weather hit many sections of the United States.

Thunderstorm In Southern Ontario Causes Heavy Loss

TORONTO (CP) — Southern Ontario dealt Wednesday with the aftermath of a violent, unseasonal overnight thunderstorm that caused widespread floods and dangerous traffic conditions.

At least 44 families were temporarily evacuated from their homes in the Toronto area but no casualties were reported.

Responsible authorities declined to estimate the damage done but some newspapers guessed it might reach \$1,000,000.

Official sources said that one item on the agenda was "defence of the Arab world and co-ordination of plans to meet any aggression." An Egyptian source said the Arabs insisted that the defence of the Middle East should be primarily an Arab responsibility.

Eden Wins By Vote Of 312 To 252

LONDON (Reuters) — The British government Wednesday night fought off a Labor censure motion on its Middle Eastern policy after a stormy debate that brought sharp attacks on Prime Minister Eden and the United States.

The Opposition censure motion was defeated by a vote of 312 to 252.

It was moved by Opposition Leader Hugh Gaitskell after Eden had refused to announce what life Britain will take toward the Arab kingdom of Jordan, where the dismissal of British Lt.-Gen. Sir John Bagot Glubb as Arab Legion commander has caused a crisis.

Gaitskell called Eden's statement "totally unacceptable." The vote took place on a purely procedural motion for the adjournment of the House.

The packed House had waited tensely all day in expectation of a major policy statement from the prime minister on Britain's attitude to the Middle East.

But faces fell when Eden said: "I must tell the House bluntly that I am not in a position to announce tonight in respect of Jordan an immediate policy or definite lines of policy which are being inevitably to be followed."

"I am sure that to attempt to do so now with such information as we have would be not only premature but probably dangerous to our own interests—more so perhaps than those of Jordan."

The prime minister, whose personal prestige has again been under attack by some newspapers, had a stormy reception from the Opposition right from the start of his speech.

When they returned to Peterborough in 1917 to a farm just outside the city, her political career began.

She was appointed to the executive of the Ontario Conservative Association and then named a vice-president of the federal association.

In 1935 she became the first Conservative woman senator and the second woman to enter the Upper House. Senator Cairine Wilson, a Liberal, was appointed in 1930.

Senator Fallis belonged to the United Church of Canada.

Senator Fallis' death creates a 12th vacancy in the 102-seat Upper House. Standing now is Liberals 80; Progressive Conservatives 7; Independents 2; independent Liberal 1; vacancies 12—total 102.

She was appointed to the executive of the Ontario Conservative Association and then named a vice-president of the federal association.

Lone PC Woman Senator Dies

PETERBOROUGH, Ont. (CP) — Senator Iva Campbell Fallis, 62, the first woman belonging to the Conservative party to be appointed to the Canadian Senate, died Wednesday in hospital.

She had been ill about three months. Senator Fallis lived in Smith township, near Peterborough.

She was appointed to the Senate in 1935. Surviving is her husband, Howard Taylor Fallis.

Funeral services will be held in Peterborough Saturday at 2 p.m. Burial will be in Little Lake cemetery at Peterborough.

She was the daughter of Michael Doyle, an Irishman of a long line of politicians who always had a lively interest in politics but whose poor health prevented him from taking an active part.

Born June 23, 1883 at Castleton, Ont., she later moved with her family to Colborne. She taught in a school at Castleton, Ont., for a few years until she married Howard Fallis in 1903.

They moved to Sioux Line, Sask., south of Moose Jaw, where they operated a wheat farm for eight years.

Canada May Halt Planes To Egypt

OTTAWA (CP) — The Canadian government is considering whether to halt the impending shipment of Harvard training planes to Egypt "in the light of the situation in the Middle East," Prime Minister St. Laurent informed the Commons Wednesday.

He made the statement in the wake of a report that nine of the planes, part of a 15-plane sale approved last July, are at dockside in Halifax awaiting shipment in the Dutch freighter Wongrij. Late Tuesday, the ship was in New York.

"Consideration is at present being given to the question of whether there should be any interference by the government with the completion of this order," a statement will be made to the House when a decision on this matter has been made.

Donald Fleming (PC — Toronto Eglington) asked how quickly a decision will be made.

"That will depend upon events as they develop," Mr. St. Laurent replied. "We shall lose no time in implementing our policy to avoid doing anything that might increase uneasiness about the Middle East situation."

John Diefenbaker (PC — Prince Albert) asked whether the prime minister does not consider that the aircraft shipment ought to be stopped in view of the present "flaming" situation in the Middle East.

Eisenhower Might Invite Bulganin

WASHINGTON (AP) — President Eisenhower implied Wednesday that he would seriously consider inviting Soviet Premier Nikozi Bulganin to visit Washington.

On the Middle East issue, Eisenhower told a press conference that he had not thought about a Bulgarian visit "as an immediate development," but added:

"I would say merely this: We should be looking up any opening that looks like it would lead to lessening of the tensions in the United States."

His use of the term "United States" evidently was a slip of the tongue since world tension was clearly what he had in mind, by the Middle East issue, Eisenhower strongly advocated "urgent and early action" by the United Nations. He did not say what kind of UN action he meant.

But diplomats said his words should act as a spur to U.S.-British-French co-operation in holding on precisely what role the UN should play in the Arab-Israeli crisis.

Icebreaker To Aid Sealer

HALIFAX (CP) — The icebreaker N. B. MacLean left Sydney Wednesday to go to the aid of the Halifax sealing vessel Peary, reported trapped in ice in the Gulf of St. Lawrence.

A transport department spokesman said the MacLean is expected to reach the Peary early today.

The sealer's captain, William James, said his vessel is disabled with a broken propeller and caught in ice off the coast of St. Lawrence.

The ice-breaker will tow the Peary to Sydney or Lunenburg, N.S., for repairs. The sealer carries a crew of 25 Newfoundlanders.

Canada Signs Credit Contract For Sale of Wheat To Czechs

OTTAWA (CP) — A contract for the credit sale to Communist Czechoslovakia of between \$5,000,000 and \$17,000,000 worth of Canadian wheat was signed here Wednesday.

Trade Minister Howe told the Commons Czechoslovakia will pay 25 per cent of the purchase price in cash to the Canadian Wheat Board, the balance to be financed under a loan guaranteed by the crown-owned Export Credits Insurance Corporation. The loan would be repaid by Czechoslovakia over a one-year period.

The contract, signed by federal officials and a Czech trade mission, calls for the purchase of between 3,700,000 and 11,840,000 bushels. The wheat will be shipped during the current crop year which ends next July 31.

Signing of the contract was announced earlier in the day by commercial attache in Montreal, Dr. Bohoslav Gerych, Czechoslovak attache in Ottawa, who participated in the negotiations.

Violent March Weather Hits Sections of U.S.

CHICAGO (AP) — It was 104 degrees colder in West Yellowstone, Mont., than in Miami Wednesday as violent March weather hit many sections of the United States.

Flooding rains, thunderstorms, a twister, sub-zero cold, snow and blowing dust topped off the climatic mixture.

A surge of Arctic air sent the temperature to 32 degrees below zero at West Yellowstone this morning while Miami was enjoying a balmy 72.

Heavy rains and melting snow sent creeks and some rivers out of their banks in New York state. Families were marooned and roads and schools were closed.

An advancing cold front that touched off destructive tornadoes in parts of the midwest Tuesday night caused severe local thunderstorms in Kentucky and Tennessee.

Boy Sees As Deathbed Wish Of Italian Priest Comes True

MILAN, Italy (Reuters) — An Italian priest's deathbed wish came true when a 12-year-old boy jumped forward in his hospital bed Wednesday and shouted "I can see!"

The boy, Silvio Colagrande, son of a poor peasant, had been blind since a land grenade explosion destroyed his sight five years ago in a mountain village in central Italy.

As the fall, this 12-year-old boy felt his eye ebbling, he called in Dr. Galeazzi and told him:

"My eyes have seen the most unjust horrors of the war. They have seen children without hands, without arms, without legs. They have seen tender flesh torn by bomb explosions."

"Now I would like these eyes to remain alive through a child, and my prayer is that from now on they will see no more horrors, only laughter and happiness."
