NEW YORK

NEW YORK (AP)—The stock market Friday mounted its best rally in three weeks as blue chips accompanied glamor issues in a massive recovery.

Volume swelled to 8,330,000 shares from 5,830,000 Thursday and was the largest since May 19.

The Dow Jones industrial average rose 9.13 to 891.75.

The pace setters of the early-1966 rise—color television, other electronics, airlines, aerospace stocks, office equipments, photographic issues and the like—were strong almost from the start. They moved up on big blocks, reflecting purchases by big investors.

Blue chips joined in the rebound with gusto. Even American Telephone, which had sunk to one four-year low after an other as the U.S. government investigation into its rates got under way, advanced 1⅞ to 54.

STEEL GAINS

Top steelmakers gained one or two points. Rubbers, coppers, tobaccos, electrical equipments, building materials and utilities participated in the rise.

The Associated Press average of 60 stocks advanced 3.6 to 321.5. It was the best rise in this average since May 13 when it gained 5.0.

The rally was not based on any particular news item, but on technical factors. One was the fact the big institutional buyers, noticing growing strength in recent dull sessions, decided to climb aboard at long last.

Alcan rose ⅞ among Canadians and Distillers Seagrams ⅝. Dome Mines fell 1⅝. Hudson Bay Mining and International Nickel dropped ½.

Prices advanced in lively trading on the American Stock Exchange. Scurry Rainbow Oil gained 2½ points. Brazilian Traction was off ⅛.
