

Families Missing.

GLACE BAY, C. B., Nov. 2.—The railway station presented a melancholy appearance yesterday morning, when forty miners, with their wives and families departed, with a multitude of kind and loving friends and relatives gathered there to see them off.

FARM TO LET ATROYALTY To let "Milford Farm" on the North River Road, about a mile from the city, at present in the occupation of the Widow of the late George Thorne. It comprises about 29 acres of land in a high state of cultivation, fronts on the North River Shore. There is a good one and a half story farm house with outbuildings and a large stable and barn, and a tool house on the premises.

THE MAIDS.

SIR.—With reference to the Guardian's remarks concerning the recent improvement in the mail service by which the Pictou boat arrives at Ch'town in the early morning, I beg to ask whether all the mail is despatched East and West by first train, or only that for Souris, Geo'town, S'side, Alberton, etc., which is prepared by I. C. R. mail clerk? I have the impression that there is no mail clerk on this boat from Pictou and that only the mail for a few places is despatched by morning train and the mail for the general country remains in the Ch'town office for 14 hours.

FAIRPLAY.

A Suggestion

SIR.—I see by yesterday's EXAMINER that the sorting of the mails in time for distribution for the country is giving the officials chiefly concerned no little trouble. Wouldn't it be possible to write to Sir Louis and ask him to hurry on the work of straightening the railway curve at North Wilsheire, and get the trains running on the new track at once. This would considerably shorten the time between Charlottetown and Summerside (about 60 seconds I think) and this ought certainly to enable the hard working Post Office clerks to have the sorting done in time.

Princess Margaret of Connaught will be the next Royal debutante. She has grown up quite good-looking, and she is said to be very like what the Queen was at her age, only her features are more regular than those of her grandmother. Princess Patricia is more like her mother, the Duchess of Connaught, and has a very sweet face. The newspapers are already suggesting that either Princess would make an ideal fiancee for the German Crown Prince.

Whenever a man has done anything in particular, it follows as a matter of course that his relatives, both here and distant, are duly interviewed. Lord Khartoum's sister, Mrs. Parker, who is in New Zealand, has accordingly not escaped the interviewer. Remarks this lady: "The Sirdar was always most reserved, even as a boy, and was in his younger days rather delicate. It was true he was born in Ireland, but he was essentially English, and the lively Irish manner often attributed to him had no existence. In fact, he was a very serious man, and always disliked frivolity of any kind. I wintered with him in Suakim some years ago." Mrs. Parker added that her brother had no hobby but the army.

Dewey Carried a Rabbit's Foot

NEW BRUNSWICK, N. J., Nov 1.—T Harvey Beam, a young man employed as a clerk in a store in this city, recently sent to Admiral George Dewey at Manila a copy of the coat of arms of the United States surmounted by crossed flags, the whole being very ingeniously made of fragments of postage stamps. With the picture he sent a request that the Admiral give him as a souvenir the pair of shoes he wore during the battle of May 1st. Last night he received a letter from Admiral Dewey, acknowledging the receipt of the picture and request. The letter says in part: "I am sorry I cannot send you what you request, for I have a great many pairs of shoes and never wear the same pair two days in succession. Consequently I have not the least idea which pair I wore on May 1st. I send you a souvenir, however, of that memorable day. It is a rabbit's foot I have had for some time and which brought me luck. May it bring you as much. Very sincerely yours, "GEORGE DEWEY."

LAKE WINNIPEG.—The Beaver Line Steamer Lake Winnipeg, will leave Ch'town for Liverpool about the 7th inst. Large quantities of butter, cheese, etc., are being received for shipment by her.

THE ANDERSON CASE.—Telephonic advices from Summerside regarding the Anderson case, to which reference was made yesterday, state that Anderson was arraigned before two J P's in the afternoon and judgment was given against him for \$36 and expenses. It would seem that Anderson had shipped a quantity of butter without authority from the directors, and that his arrest was the outcome of a dispute regarding accounts.

GRADUATED.—We take pleasure in announcing that Mr James Murray of Lot 39 has been awarded a diploma, after a most satisfactory business course of the P. E. I. Commercial College. Mr Murray was a most diligent and thorough student, and his work was always highly satisfactory. He was much esteemed by his teacher and fellow students, and he leaves the college with the best wishes of all. We have no doubt whatever that he will win success in his chosen profession.

THE OPERA HOUSE.—The Criterion Concert Company gave their opening performance at the Opera House last evening. Professor Wood took up a good deal of the time with experiments in sleight of hand, spiritualism and paper work, the latter being new here. The rest of the programme was made up of vocal solos and a farce. There was a small audience. The company give their closing performance to-night, when a change of programme is promised.

THE PRINCESS.—The Steamer Princess arrived from Pictou about 20 minutes to six this morning, bringing 16 passengers and 116 bags of mail matter. The mid night train reached Pictou about ten minutes after twelve, and the Princess left for Charlottetown about an hour later. We understand that the midnight train did not land any passengers at Pictou for Charlottetown, and that the passengers coming by the Princess would have been here about six o'clock last evening under the old arrangements.

REPAIRS NEEDED.—The wharf at Grand River, Lot 14, which is, when kept in good order, a great accommodation to the people of that section, is reported to be in such bad condition that it is practically useless. Little or nothing has been expended on it since the late Conservative government of this province went out of power, and the present government is allowing it to fall into decay. This is to be expected, however, as the members of the Liberal administration are noted for neglect of public affairs, though they are likely to look after their own interest closely enough.—Journal.
