LIPPINCOTT'S MAGAZINE.

The complete novel in the March issue of Lippincott's is "Dead Selves," by Julia Magruder. It deals with the emotional and spiritual awakening of two highly superior persons who have managed to reach mature years, and go through a good deal of experience, without becoming acquainted with their latent possibilities—in short, their hearts. "Father Sabastian," the hero of a short story by Kate Jordan, was one of the martyr-priests of the Parisian Commune. Owen Hall relates an Australian legend in "The Phantom Kangaroo." "Sue's Weddin'," by Minna C. Hale, is a brief sketch with a sharp point. Helen F. Lovett, in "A Dilemma of the Day," shows how altruism may be overdone. "Farming under Glass," by George Ethelbert Walsh, is a clear and instructive exposition of what has been done—which is very much—for human food by means of hot-houses. John E. Bennett writes of "The Deserts of Southeast California," and Prof. L. Oscar Kuhns of the "Origin of Pennsylvanian Surname." D. C. Macdonald tells what is to be seen "In the Manuscript-Room of the British Museum." "The Contributor his Own Editor," by Fredrick M. Bird, suggests sundry ways in which writers could do their own work, now often neglected, to their own advantage, now often missed. Ellen Duvall discusses "Innocuous Vanity." The poetry of the number, all brief, is by Florence Earle Coates, Carrie Blake Morgan, and Theodosia Pickering.

The Pope celebrated the 87th anniversary of his birth on the 2nd inst., and he seems to be still vigorous, at any rate so far as his intellect is concerned. This is the age of grand old men, in spite of the fondness supposed to be shown in business circles for the push and enterprise of youth.

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind 1 3 5 w

The correspondent at Havana of the Associated Press is informed upon good authority that positive orders have been issued to the civil and military authorities throughout Cuba to try with all possible haste, and in the most satisfactory manner available, all American citizens who are now in jail, and to expel those found guilty from the island.

Advices from Delhi, India, state that in Irisia, in which district there is more suffering from the famine than in any other section of the Punjaub, the death rate has reached 23 per cent. of the population, 40,000 persons having died. The killing of the cattle by the Mohammedans is causing trouble with the Hindoos. The usurers are reaping a harvest.

TERRORS OF RHEUMATISM.

A Remedy Which is Instantaneous and Permanent in Effect—A Calgary Resident Crippled for Three Years, Becomes Strong as an Athlete.

No subtle or mysterous force could be more miraculous in its effects than is South American Cure in all of rheumatism. James A. Anderson, of Calgary, N. W. T., says that seven or eight years ago he became afflicted with rheumatism, and for three years it made him a cripple, so that he had to use a stick to get about. In his own words: "I suffered untold misery, and though treated by the best physicians in the country, and I spent a term in the hospital, recovery seemed as hopeless as ever. A friend recommended South American Rheumatic Cure. It gave help immediately and after the second bottle I threw away my stick. To day I am as strong as an athlete." Price 75 cents.

THE DOOR TO GOOD HEALTH,

Is Through the Kidneys—Like a Well Planned Sanitary System They Keep the Body Human Healthy—Interesting Story from Quebec.

The kidneys have very appropriately been described as the sanitary system of the human body. Let them become inoperating and disease will quickly follow, and unless the obstructions are removed, death will be the result. Mr. D. J. Locke, of Sherbrook, P. Q., suffered for years from complicated kidney trouble, and spent over $100 in efforts to secure relief; but no relief came until he used South American Kidney Cure. His statement is that four bottles completely cured him, and to-day he is in the enjoyment of sound health. In the most distressing cases this remedy gives relief in six hours.

NEWS NOTES

It was a pleasant idea of the English painter Watts to celebrate his 80th birthday by inviting his child friends to tea. To use the phrase of that most delightful old man, Oliver Wendall Holmes, he evidently felt that he was not 80 years old but 80 years young.

No disgrace attaches to suicide among the Japanese. The result is that an average of 4,000 men and 3,000 women kill themselves every year. Hanging is the favorite method, next to that is drowning, with the use of knives or swords as a good third. July is the favorite month for hari-kari.

The school children of New Orleans are raising a fund of $6,000 to erect a monument to John McDonough, who bequeathed more than $1,000,000 to New Orleans for educational purposes. The gift has resulted in the erection of more than thirty public school buildings, in which 18,000 children are at present enrolled.

The bull fights at Durango, Mexico, on Sunday resulted in the killing of four men by bulls. All of the men who were killed were randerilleros, and they were gored to death by the enraged animals. The spectacle was witnessed by 3,000 people, who cheered the bulls. Six horses were also killed by bulls. Eight bulls were slaughtered in the arena.

—An article in Scribners' says: Travelling in a private railway car is a luxury that may now be enjoyed upon most railroads by anyone who will pay eighteen railroad fares, and for eighteen berths, and bear the cost of the cook, meat, and drink. Of course, Canada's economy loving Ministers when they travel in private cars pay the eighteen fares out of their own pocket. If they did not do this they would be liable to censure, even such as they administered to Conservative Ministers who in their time developed a love for riding in cars which the plain public dare not enter.

ORANGEMEN ALARMED.—The Orangemen of Carman, Man., in meeting assembled, have passed this resolution: "That we view with alarm the action of the government of Manitoba in making amendments to the public schools act of 1890, as published in the public press, and would urge upon the government the necessity of retaining in its present form the public schools act."

A Curious Wooden Watch.

The most curious timekeeper perhaps that has ever been made in this country was the work of one Victor Doriot, who lived at Bristol, Tenn., about 20 years ago. This horological oddity was nothing more or less than a wooden watch. The case was made of brier root, and the inside works—all except three of the main wheels and the springs, which were of metal—were made from a piece of an old boxwood rule. The face, which was polished until it looked like a slab of finest ivory, was made from the shoulder blade of an old cow that had been killed by the cars. "Doriot's queer watch," as it was called, was an open faced affair, with a glass crystal, and was pronounced an elegant piece of workmanship by all the watchmakers in east Tennessee. —St. Louis Republic.

Released.

Fuddy—Poor Rogiesworth is released from all his troubles at last.

Duddy—You don't mean to say he is dead!

Fuddy—Oh, no. He's all right. He has got so deaf that he can't hear Twiggs' dog stories any more.—Boston Transcript.

When you are in trouble, people who call to sympathize are really after the particulars.

It is not a question so much of being an old maid or married as it is a question of a salary or a man.

A good cook is one who can make stewed prunes taste as if she had washed them before cooking them.

As soon as a man takes a job away from town, he takes advantage of the opportunity to lie about his salary.

When a girl talks a great deal about her home duties, investigate, and you will find that they consist in turning a bed over and frying an egg.—Atchison Globe.

Mayor Pennoyer of Portland, Or., decided that his salary was too large and so gave back one-half of it. There are various degrees of this malady, but it is not very often elected to office.—Baltimore American.

Weyler has gone to the front again. He is a great man. He goes out and puts down the insurrection, returns to Havana to get a clean collar and then goes out and puts down the insurrection again.—Atlanta Constitution.

Mrs. Annie Besant is not likely to attract much attention by her claim to be able to teach any one how to separate soul from body, but she would fill a long felt want if she could teach how to bring the soul back again and renew the combination.—San Francisco Call.

A Cheerful View.

"There is one good thing about a woman on a wheel even if she does wear bloomers."

"What is that?"

"Other people are so much safer than when she is driving a horse."

A few drops of fragrant Sovereign Flavoring Extracts will give that desirable richness of flavor and aroma to your cooking. Try them.

SPOKEN LANGUAGE.

The rabbis taught that the language spoken by Adam was Hebrew.

Jager, Bleek, Muller and many others assume language to be an evolution.

The human windpipe is composed of 16 or 18 cartilaginous rings, united by exceedingly flexible ligaments.

Horace, Cicero, Lucretius and other Roman philosophers and poets regarded language as a human invention.

At the beginning of this century the Portuguese language was in use by 7,480,000. In 1890 it was spoken by 13,000,000.

The Arabic vernacular furnishes a singular illustration of the popularity of war in the east. It has over 50 names for the sword.

The Aztec language, in use in Mexico at the discovery of America, lacked the sounds indicated by our letters b, d, f, g, r, i, j and v.

It is said by philologists that there are 13 original European languages, the Greek, Latin, German, Slavonic, Welsh, Biscayan, Irish, Albanian, Tartarian, Illyrian, Jazygian, Chaucin and Finnic.

The Turkish language is said by scholars to be the softest and most musical language of modern times, being better adapted to the purposes of musical notation and recitative than even the Italian.

In 1801 there were only 280,000 persons in the limits of the United States who spoke German as a mother tongue. Now over 7,000,000 of our people, Germans or descendants of Germans, read and speak that language.

The Bushmen, or low grade Hottentots, on the plains of South Africa, have a language which has been proved by Garnier to be a close approximation to that of the higher apes. It consists of hissing, clicking and grunting sounds.

THE PASSING SHOW.

The Rathmore landslide in Ireland had no politics in it. It was a natural, physical, everyday one.—New York Advertiser.

What we will need soon in the cabinet will be a bloomer general and a secretary of the bicycle department.—Memphis Commercial-Appeal.

The murders of 1896 exceed those of 1895, but then last year's comic songs certainly were a good deal more irritating.—Cleveland Plain Dealer.

Castilian pride, we are told, cannot stoop to an open admission of its poverty. But the mortgages are on record, just the same.—Baltimore American.

A lot of Boston boarding house keepers have been fined $10 each for putting oleomargarine instead of butter on the table. Now, if there was only a law against prunes!—Boston Globe.

If it be true that diamonds can be manufactured inexpensively, what is to hinder the average citizen of the future from rising to the supreme level of the hotel clerk? —Chicago Times-Herald.

It is proposed to place tablets on the former sites of the World's fair buildings at Chicago. There is a "see that my grave is kept green" air about the affair. —New Orleans Picayune.

This is a euphemistic age. A thief nowadays is called a "kleptomaniac," a murderer is called a "psychic epileptic," and an alderman is called "one of our best citizens."—Chicago Times-Herald.

China is establishing schools for the teaching of English. It is not surmised, however, that the demand for teachers will interfere to any considerable extent with the laundry business in this country. —Houston Post.

THE WRITERS.

Eleven times has Emile Zola been a candidate for election to the French academy, and 11 times has he been defeated.

Dr. John Watson (Ian Maclaren) is said to have declined an offer of $50,000 for an additional 25 weeks' lecturing tour in the United States.

W. Clark Russell, the English novelist, has been an invalid for nearly 20 years. His tales of the sea have all been written in his London house, it having been over 15 years since he has seen the sea.

Domenico Comparetti, the Italian philologist who has tried to do for the folklore of Italy what the brothers Grimm did for that of Germany, has just been elected a foreign associate of the Paris Academy of Inscriptions in place of the late Ernest Curtuis.

When J. M. Barrie, the Scotch novelist, visited Smith college during his recent American tour, he was asked by one of the girls to write in her autograph album. His contribution has since become the permanent college conundrum. It was this pregnant piece of advice: "Beware of a pale woman with a large appetite."

George W. Cable, the author, who has lived in comparative retirement for several years in Northampton, Mass., absorbed in certain sociological experiments, has just returned to literary work, assuming editorial management of Current Literature, to which he will also contribute a semiliterary department. Mr. Cable's magazine, The Symposium, will cease.

MESSAGE TO MEN.

Proving that True Honesty and True Philantrophy Still Exist.

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. Geo. G. Strong, North Rockwood, Mich. 135&w.

RICH RED BLOOD is the foundation of good health. That is why Hood's Sarsaparilla, the One True Blood Purifier, gives HEALTH.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." MRS. ADDIE PECK, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." CORA PECK, Amsterdam, N. Y.

BEAUTY AND HEALTH TO FAIR WOMEN.

Miss Annie Patterson, of Sackville, N. B. Once the Victim of Nervousness and General Debility, Takes on the Health of Early Years.

Some remedies are nothing more than a temporary stimulant, and the reaction aggravates the disease. Where the system has become run down, and nervous debility in its worst forms have shown themselves, South American Nervine will cure. It strikes at the nerve centres and builds up the system by removing the real cause of trouble. Miss Annie Patterson, of Sackville, N. B., a lady well known in the Maritime Provinces, suffered terribly from indigestion and nervousness, and her case seemed incurable. She accepted South American Nervine without hope that it was any different to other remedies, but her words are, "I had taken only one bottle when my system began to take on the health of earlier years, and after taking three bottles I was completely cured."
