Single Land Tax Suggested To Replace Other Revenue

By STEWART MacLEOD

TORONTO (CP)—The Carter royal commission on taxation Tuesday pondered the idea of a single land tax to replace all other forms of revenue.

This time—the second since hearings began—the proposal came from the alumni group of the School of Economic Science, a private, non-profit organization that exaounds the theory ot the late Henry George, an American tax reformer whose idea, in effect, was for the state to nationalize all land and tax occupants an "economic rent."

The group, with headquarters in nearby Clarkson, told the six-member royal commission that Canadians have reached the breaking point in the financial support of government and now "we must face the immediate decision . . . of whether the state is created to serve man or man is created to serve the state."

Under its proposal, the group would see corporation, personal income and sales taxes elimtnated in favor of the single property tax, with this alleged result: Land speculation would end, desirable property would be developed to its maximum extent, slums would disappear because the property would be too valuable for ramshackle buildings, there would be more long-run equity and additional freedom for the individual.

SAY IDEA SOUND

It was a "sound and scientific principle" that had been proven so far as it went in other countries, including Australia.

The group's brief estimated the value of Canada at $150,000,000 and its rental value at $10,500,000,000. J. W. Ramsay, chairman of the group's taxation committee, sald this figure, which he believed conservative, was worked out through a complex system that included a comparison with the United States, the density of population and value of timber and minerals.

Commission Chairman Kenneth Carter suggested the figure was meaningless.

The group said government should vacate all fields of private business and remove restrictive taxes and tariffs so Canadians will be "free to pursue their private and personal way of life without being hampered by governmental restrictions." The funds collected by government through "economic rent" would be used "to run the common business of a society."

A tax system based on ability to pay was the "most inequitable and discriminatory" of all. It failed to differentiate between fortunes made through honest toil and those created "by some privilege that society has surrendered to the individ ual."

Sales taxes were "vicious." They took a bigger slice from the meagre earnings of the poor than from the upper classes.

Oil Well Servicing Company Buys Out Construction Firm

By ALLEN SACKMANN

EDMONTON (CP)—Canada's largest oil well servicing company has acquired a cushion for dry years in the oil industry through purchase of a major construction firm by its American parent.

The purchase saw Halliburton Co. of Dallas, Tex take ownership of 95 per cent of the stock of Brown and Root Inc. of Houston, Tex. Also involved are the two firm's Canadian subsidiaries, Halliburton Oil Well Cementing Co. Ltd. and Brown and Root Ltd.

C. B. (Mickey) Holding, Halliburton's Canadian division manager, says acquisition of the construction company will cushion any drops in oil development and will add stability for Halliburton shareholders.

Halliburton Co. and Brown Root Inc. are both international organizations with subsidiaries in most of the free world. Their respective revenues hovered around $200,000,000 in 1962 with Brown and Root slightly ahead of Halliburton

In Canada, Halliburton operates in the west and Northwest Territories, maintaining 35 operating bases from a general office in Calgary and an operations office in Edmonton. It started Canadian operations in the early 1930s.

OPENED IN 1951

Brown and Root opened its Canadian subsidiary in 1951. Its first major construction project was the $75,000,000 Canadian Chemical plant at Edmonton.

Halliburton Oil Well Cementing has 321 employees and maintains a fleet of 220 vehicles with a listed value of $2,500,000.

Brown and Root has 120 permanent employees in Canada but at construction peaks has carried over 3,000 on the payroll.

Halliburton's operations include cementing oil wells, chemical treatments and well stimulation for oil extraction, testing to determine well productivity, blending cementing materials and stocking of special tools for "down-hole" projects.

It has a research laboratory in Edmonton, with projects too difficult to be handled here being sent to a research centre in Duncan, Okla.

Brown and Root has its Canadian head office in Edmonton Its eastern operations are directed from Montreal, from where the firm's consulting engineers start their nation-wide work.

PRINCE RESIGNS

PHNOM PENH, Cambodia (AP)—Prince Norodom Kantol has resigned as president of the council of ministers, a highly placed source said Monday. No reason was given. The outgoing president is a cousin of Prince Norodom Sihanouk, chief of state. His post was equivalent to premier.

RIPLEY'S BELIEVE IT OR NOT

Quebec Seeks Newer Type Water Bomber

QUEBEC (CP) — Quebec is negotiating with Canadair Limited for a new type of water bomber, capable of carrying 1,200 gallons of water, to fight forest fires,

The present fleet of six Cansos probably will be replaced by the spring of 1965.

Capt. Paul Gagnon, head of the air service of Quebec's transport department, told a meeting of forest producers and protection associations Tuesday that the Canso now is considered obsolete and parts can no longer be obtained.

Clifton C. MacKinnon, Canadair sales manager, said in elaborating on Mr. Gagnon's announcement that the Montreal-based company will decide in about two months whether the plane is to go into production.

"Our company is working on a joint plan with the provincial forestry department here and other similar departments across Canada. The new aircraft is still on paper and many changes have to be made."

Carleton U Will Expand

OTTAWA (CP) — Carleton University announced Tuesday that it will increase its faculties to four—arts, science, engineering and graduate studies —July 1 from the present combined arts and science faculty.

The academic reorganization is the result of the rapid growth of student population and teaching staff, President Davidson Dunton said. More than 130 full time teachers will be on staff next year.

Prof. James A. Gibson will be dean of the faculty of arts and deputy to the president, Prof. H. J. Nesbitt will be dean of the science faculty, Prof. Ruptash will be dean of the engineering faculty and Prof. M. S. MacPhail dean of graduate studies.

CONTRACT BRIDGE

By B. JAY BECKER

East dealer.
Neither side vulnerable.

NORTH
♠ A 2
♥ A Q 6 4
♦ A K 7
♣ K Q 3

WEST
♠ 3
♥ 10 9 5 3
♦ J 9 8 2
♣ J 10 9 5

EAST
♠ K Q J 9 8 7 6 5 4
♥ J
♦ Q 10
♣ 7

SOUTH
♠ 10
♥ K 8 7 2
♦ 6 5 4 3
♣ 8 6 4 2

The bidding:

East	South	West	North
♠	2 ♥	Pass	4 NT
Pass	5 ♥		

Opening lead — three of spades.

This deal was played in a par contest in England. South was expected to reach five hearts on the bidding shown and make the contract.

The apparent losers (looking at all four hands) are a heart, a diamond and a club, and the problem is to cut off one of these losers. Actually, declarer learns the distribution of the East-West cards as he makes his normal sequence of plays, so all he has to do is solve the problem on a double-dummy basis.

West's spade lead is easily read as a singleton. Declarer takes the ace and cashes the A-K-Q of hearts, learning in the process that West started with four trumps. When he then plays the A-K of clubs, he discovers that West also started with four clubs.

The hand is now an open book. West becomes marked as having started with a singleton spade and three four card suits on the side. Declarer cashes the A-K of diamonds and another high club, at which point this becomes the position:

North
♠ —
♥ 6
♦ 6
♣ 7
♠ 3

West
♥ 10
♦ J 9
♣ J

East
♠ K Q J 8

South
♠ 8
♥ 5
♦ 5
♣ 8

He now leads a spade and discards a diamond, forcing West to discard a diamond also. When East plays another spade, declarer discards a diamond again, putting West in a position where all he can do is win a trump trick and no more.

1. If he ruffs the spade, dummy discards a club. 2. If he discards a diamond, dummy ruffs and leads the good diamond, 3 if he discards a club, dummy ruffs and leads the good club.

All roads lead to the same inevitable result.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

J B P H X Z Z B W Q S D B Z L W U X W S
X Z S D B W G B S B U H U B R X S X Z
X L E G U X W G B Z. — D B U V S J
