DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto: Market lower; trading light.

New York: Market mixed; defence issues up.

Montreal: Market slightly lower; trading moderate.

CURRENCY

MONTREAL (CP)—The U.S. dollar closed at a premium of 7¾ per cent in terms of Canadian funds, down 1-32 from Wednesday's close. Pound sterling closed at $3.02 3-16, down 1-16.

NEW YORK

NEW YORK (AP) — Active demand for a variety of aerospace issues saved the stock market Thursday from its first decline of the week.

The list closed mixed, as volume dipped from Wednesday. Most changes were relatively small.

The over-all standoff stalled a three-day rise that started Monday. Brokers blamed profit-taking on the three-day advance for lower prices at the opening.

A noon recovery was touched off by buying in the aerospace section. This produced an upside edge which lasted until the final trading of the day.

The demand for companies in the space field came from a Wall Street report that the defence department would soon make public a big contract for the Titan III space booster.

Martin - Marietta, which is building the Titan I and II missiles, was a chief beneficiary. The stock was the most active of the day, gaining 2⅝ at 24 on 226,300 shares.

There was no announcement by the defence department by the time the market closed, however.

Steels, motors, tobaccos and drugs closed generally lower while utilities, metals, rails, chemicals, oils, rubbers and mail order-retail issues were irregular.

AVERAGES FALL

The Associated Press average of 60 stocks fell .3 at 222.1. The Dow Jones industrial average fell .05 at 606.71, after topping 611 at one point. Standard and Poor's 500 stock index was off .02 at 58.64.

Volume totalled 4,180,000 shares compared with 4,880,000 Wednesday. The tape ran late during the noon buying of aerospace issues.

With steel imports reported nearing a record high and July domestic production at a 19-month low, most of the major steel shares fell fractions. Republic Steel was off 1⅝ in the wake of a statement by the company's president that it might be necessary to cut the dividend before the year's end.

Among Canadian stocks, International Nickel (ex-dividend) fell one point, Walker-Gooderham 1¼, but Distillers Seagrams was up ½. McIntyre Porcupine and Dome Mines were ¼ higher.

American Stock Exchange prices advanced. Calgary and Edmonton gained more than a point.

TORONTO

TORONTO (CP) — The stock market sagged Thursday for the first time in recent sessions.

Banks spearheaded the decline as Royal fell a point, Montreal ¾, Toronto-Dominion ⅜ and Canadian Imperial Bank of Commerce ½.

Other key losers included Algoma Steel, down ½, Walker-Gooderham off ¾ and Interprovincial Pipe Line ⅞.

Despite an index drop of almost two points, however, several good gains were registered. Russell Industries climbed 1½ to 16½.

On the exchange index, industrials dropped 1.88 at 560.08 and western oils .13 at 106.39. Golds rose .21 to 94.44 and base metals .12 at 189.74. Closing volume was 2,652,000 shares compared with Wednesday's 3,330,000.

REINSTATE SHARES

Chromium Mining and Smelting Corp. Ltd., one ofthree companies whose shares were suspended from trading Wednesday, was reinstated Thursday. The other two firms—SKD Manufacturing Co. Ltd. and San Antonio Gold Mines Ltd.—remain on the suspended list.

Howard Graham, president of the Toronto Exchange, said the shares of Chromium were suspended Wednesday because they had been heavily dealt in by an individual who had also involved in large-volume trading in the shares of the other two companies.

He said there was a danger these holdings would be put on the market in such volume as to create unstable market conditions. However, he said this morning the exchange was satisfied that market stability would not be endangered by restoring Chromium shares to trading.

The stock, which had dropped in price after announcement of the suspension to $1.70 a share from $4.60, sold today as high as $3.00 and closed at $2.45 on a fairly heavy turnover.

FEDERATION OF AGRIC. NEWSLETTER

Full Impact Of Hay Loss To Be Felt During Winter

At the risk of becoming boring on the topic we return to the difficulties involved in hay making. Since out last newsletter little real progress has been made and the net result adds up to an increased accumulation of spoiled or distinctly inferior feed. We suspect that some farmers haven't started the hay and perhaps they maybe the wise ones.

In a few cases by good timing farmers have saved good quality hay, but they are the exception as most of the reports are, "I haven't got a really good bale of hay about the place." Already one set of large farm buildings has been lost, and there is danger of others following as a result of combustion.

The full extent of the disaster will not become apparent until next winter when cattle begin to show the affects of the poor quality fodder.

Last Friday night produced a further complication with heavy rain and high winds which flattened out what appears to be one of the heaviest grain crops on record. While some recovery is evident, in a number of cases the damage is really severe. The heavy grain will be slow to ripen and if the rain continues heavy machinery will have a difficult time on low fields to say nothing of the problem of combining huge quantities of straw.

Potato growers have the worries as rainfall and high humidity encourage the development of late blight which is one of the chief potato bugbears.

There are, of course, compensations and certainly August pasture has never been much better and if continued through the fall months, will do much to compensate for the shortage of good fodder.

DAIRY BOOTH

The booth operated by the Dairymen's Association during Old Home Week is not strictly an economic venture even though it does make a charge for the products offered. Originally the booth was started a public relation's feature and to make available wholesome beverages for the public.

In addition, to the above the booth also serves the purpose of recognizing and encouraging the 4-H movement in the province. Girls who staff the booth are and have been almost exclusively one with good 4-H careers. This year three of the five girls have or are representing the province at National 4-GH Club week. Further this year this year there are the four girls who competed in the Dairy Princess Competition and the winner Miss MacPhail is in charge.

The facts that the Dairymen's Association represent and is supported by both the producers and processors arouses considerable interest on the part of many visitors. In this co-operation probably lies the secret of dairy progress in the province and its secure place in its economy.

ONTARIO MILK PLAN

Ontario's Provisional Milk Marketing Board has released the details of a plan that will, if approved by producers, bring the marketing of all Ontario milk under the authority of one Board. The plan, finalized after weeks of discussion by representatives of the several dairy groups in the province, will affect every farmer in Ontario who markets milk.

The details were released in Toronto at a Press Conference called by the Provisional Milk Marketing Board. Emerson Farnsworth of Huntsville, Chairman of the Board, in addressing the gathering of Press representatives said, "Those of us who have studied the problems of milk marketing feel that this plan holds great promise for Ontario producers. We are confident that it will benefit all dairy producers in the province by stabilizing prices and developing markets. We also feel that this plan can reduce surpluses of dairy products which demoralize our industry, and it will go a long way in relieving the Federal treasury of some of the costly disposal programs."

Mr. Farnsworth pointed out that the main purpose of the plan was to bring about more orderly marketing of Ontario milk. Other goals are; to bring about a closer spirit of teamwork and co-operation among all dairy producers; to stabilize markets and bring the benefits of price equalization to all producers; and to make it possible for all producers of quality milk to share in the benefits of a growing market. "One of the main purposes of the Board will be to work closely with the processors and distributors of dairy products in order that we may ensure a steady flow of quality milk into each market," said Mr. Farnsworth.

GRASS DELEGATION

This province appears to be the only one of the four Atlantic provinces represented at the First National Grassland Field Day and Conference in Pennsylvania. Co-operation between the Department of Agriculture, the Dairymen's Association, and the A. I. Association have made this participation possible. While we will be expecting interesting returns from those attending perhaps the specific feature lies in the evidence that this province is displaying a marked and developing interest in grassland farming. It is entirely possible that within a few years that grass will be our most valuable and most important crop.

THREE PRIESTS PROTEST NEW JERSEY POLICE ACTION

TRENTON, N.J. (AP) — Early in may New Jersey state police received an anonymous tip that three gunmen were driving south on Highway 1 in a car with Canadian licence plates.

Police stopped the car near the Princeton University library and, with pistols drawn, approached.

The "gunmen" turned out to be three Canadian priests heading for the library to consult its index of Christian art.

The tipster, it appeared, had seen them changing from sport shirts into their clerical garb. He saw them putting on rabbats, backless vests, and mistook shoulder straps for shoulder holsters.

At least that's the way Governor Richard Hughes explained the incident at a press conference Tuesday.

Hughes also released copies of a letter he received from Rev. Roland Gauthier, of St. Joseph's Oratory, Montreal, and the lengthy answer in French the governor mailed to Father Gauthier, one of three priests.

Tht governor said the clergyman protested the police action in a letter to Hughes dated May 14. The priest had said they showed a serious lack of discrimination and apparently preferred to imitate cowboy or gangster movies.

Father Gauthier said that before stopping the car the police should have investigated the responsibility of the anomymous tipster.

In his reply, dated Monday, Hughes apologized for "this unhappy affair." But he defended the action of the police.

He cited records showing that five state troopers were killed and two others kidnapped while attempting to apprehend motorists.

Travel Miles By Canadians Display Astronomical Totals

By FORBES RMUDE
Canadian Press Business Editor

Canadians travelled an estimated 45,000,000,000 miles in their motor vehicles in 1961, says the 1962 edition of "Facts and Figures of the Automotive Industry," published by the Canadian Automobile Chamber of Commerce.

In this astronomical travel the motorists consumed an estimated 3,140,000,000 gallons of gasoline and 143,000,000 gallons of diesel oil.

Dollar sales were $1,551,408,000, down 1.5 per cent from 1960. Payrolls of motor-vehicle manufacturers reached a record $174,207,055 compared with $149,748,166 in 1960.

The wide array of other 1961 information given in the 44-page booklet, mostly in the form of statistical tables, includes the following, with 1960 comparatives in brackets:

Vehicles registered 5,505,547 (5,254,633). Passenger cars in use 4,302,770 (4,093,260). Sales of North American-type cars 336,122 (321,804). Sales of overseas-manufactured cars 101,197 (125,967). Imports of cars 106,865 (170,653). Factory shipments of Canadian-made cars to Canadian market 307,499 (316,920). Exports of Canadian-made cars 9,495 (17,184).

Frigidaire Products of Canada Ltd. announces entry into the export market with receipt of "a sizeable order" for Deluxe Automatic Dishwashers from Australia. They will be shipped from the company's Scarborough plant in Metropolitan Toronto.

Quotation from address by Charles G. Mortimer, chairman, General Foods Corporation, to company's annual meeting in New York:

"We need to dispel the most harmful of all myths that have been handed down from the past — the myth which holds that conflict must exist between economic groups under capitalism. This belief is founded on another century's concept of capitalism. It utterly ignores that what we have today is what has been aptly called a People's Capitalism. Ours is a system under which the savings of millions of men and women in all walks of life provide the capital for investment in the various industries and businesses of America."

Pfizer Canada, Montreal pharmaceutical and chemical company, announces that after test marketing, it is entering the dietary food market on a national basis with its product "Limmits," described as a two-biscuit meal replacement.

Dr. William A. Bullen, president, in making the announcement, said Canadians are carrying around more than 20,000,000 pounds in surplus fat.

Maclean - Hunter Publishing Co. Ltd., announces establishment of a Construction and Public Works Show, to be held in Toronto May 4-7, 1964.

This is the sixth trade show under Maclean-Hunter operation, three of which have been announced in the last five months.

The company, which has set up an industrial and trade show department, publishes a wide range of trade magazines. It is understood other shows will be announced.

Huge Coal Mine Threatens City

MANCHESTER, England (Reuters)—This northern industrial city is sitting on a coal mine — and factories, houses, the local river and gas and water pipelines are in danger, it was reported Thursday.

The National Coal Board, which runs the state - owned mines, is still digging out a vast coal field under the industrial Bradford and Collyhurst areas of the city, causing severe cave-ins on the surface.

A 10,000,000 - cubic - foot gas storage tank has tilted and now can only hold half its normal capacity. A fire station and public swimming pool are sinking and part of the man-laid brick-bed of the River Medway has collapsed.

Civic authorities also reported that water mains and sewers are breaking, cracks are appearing in building and roads and many houses have become unsafe.

Scores of claims for compensation already estimated at more than £1,000,000 have been sent to the coal board.

KILLED IN FALL

LONDON, Ont. (CP) — Mrs. Violet MacLean, 57, plunged to her death Saturday from the eighth floor of Victoria Hospital here. Police said the woman had been a patient since Aug. 8.
